Spalding's Athletic Library

A. G. SPALDING

Anticipating the present tendency of the American people toward a healthful method of living and enjoyment, Spalding's Athletic Library was established in 1892 for the purpose of encouraging athletics in every form, not only by publishing the official rules and records pertaining to the various pastimes, but also by instructing, until to-day Spalding's Athletic Library is unique in its own particular field and has been conceded the greatest educational series on athletic and physical training subjects that has ever been compiled.

The publication of a distinct series of books devoted to athletic sports and pastimes and designed to occupy the premier place in America in its class was an early idea of Mr. A. G. Spalding, who was one of the first in America to publish a handbook devoted to athletic sports, Spalding's Official Base Ball Guide being the initial number, which was followed at intervals with other handbooks on the sports prominent in the '70s.

Spalding's Athletic Library has had the advice and counsel of Mr. A. G. Spalding in all of its undertakings, and particularly in all books devoted to the national game. This applies especially to Spalding's Official Base Ball Guide and Spalding's Official Base Ball Record, both of which receive the personal attention of Mr. A. G. Spalding, owing to his early connection with the game as the leading pitcher of

the champion Boston and Chicago teams of 1872-76. His interest does not stop, however, with matters pertaining to base ball; there is not a sport that Mr. Spalding does not make it his business to become familiar with, and that the Library will always maintain its premier place, with Mr. Spalding's able counsel at hand, goes without saying.

The entire series since the issue of the first number has been under the direct personal supervision of Mr. James E. Sullivan, President of the American Sports Publishing Company, and the total series of consecutive numbers reach an aggregate of considerably over three hundred, included in which are many "annuals," that really constitute the history of their particular sport in America year by year, back copies of which are even now eagerly sought for, constituting as they do the really first authentic records of events and official rules that have ever been consecutively compiled.

When Spalding's Athletic Library was founded, seventeen years ago, track and field athletics were practically unknown outside the larger colleges and a few athletic clubs in the leading cities, which gave occasional meets, when an entry list of 250 competitors was a subject of comment; golf was known only by a comparatively few persons; lawn tennis had some vogue and base ball was practically the only established field sport, and that in a professional way; basket ball had just been invented; athletics for the schoolboy—and schoolgirl—were almost unknown, and an advocate of class contests in athletics in the schools could not get a hearing. To-day we find the greatest body of athletes in the world is the Public Schools Athletic League of Greater New York, which has had an entry list at its annual games of over two thousand, and in whose "elementary series" in base ball last year 106 schools competed for the trophy emblematic of the championship.

While Spalding's Athletic Library cannot claim that the rapid growth of athletics in this country is due to it solely, the fact cannot be denied that the books have had a great deal to do with its encouragement, by printing the official rules and instructions for playing the various games at a nominal price, within the reach of everyone, with the sole object that its series might be complete and the one place where a person could look with absolute certainty for the particular book in which he might be interested.

In selecting the editors and writers for the various books, the leading authority in his particular line has been obtained, with the result that no collection of books on athletic subjects can compare with Spalding's Athletic Library for the prominence of the various authors and their ability to present their subjects in a thorough and practical manner.

A short sketch of a few of those who have edited some of the leading numbers of Spalding's Athletic Library is given herewith:

JAMES E. SULLIVAN

President American Sports Publishing Company; entered the publishing house of Frank Leslie in 1878, and has been connected continuously with the publishing business since then and also as athletic editor of various New York papers; was a competing athlete; one of the organizers of the Amateur Athletic Union of the United States; has been actively on its board of governors since its organization until the present time, and President for two successive terms; has attended every championship meeting in America since 1879 and has officiated in some capacity in connection with American

amateur championships track and field games for nearly twenty-five years; assistant American director Olympic Games, Paris, 1900; director Pan-American Exposition athletic department, 1901; chief department physical culture Louisiana Purchase Exposition, St. Louis, 1904; secretary American Committee Olympic Games, at Athens, 1906; honorary director of Athletics at Jamestown Exposition, 1907; secretary American Committee Olympic Games, at London, 1908; member of the Pastime A. C., New York; honorary member Missouri A. C., St. Louis; honorary member Olympic A. C., San Francisco; ex-president Pastime A. C., New Jersey A. C., Knickerbocker A. C.; president Metropolitan Association of the A. A. U. for fifteen years; president Outdoor Recreation League; with Dr. Luther H. Gulick organized the Public Schools Athletic League of New York, and is now chairman of its games committee and member executive committee; was a pioneer in playground work and one of the organizers of the Outdoor Recreation League of New York; appointed by President Roosevelt as special commissioner to the Olympic Games at Athens, 1906, and decorated by King George I. of the Hellenes (Greece) for his services in connection with the Olympic Games; appointed special commissioner by President Roosevelt to the Olympic Games at London, 1908; appointed by Mayor McClellan, 1908, as member of the Board of Education of Greater New York.

WALTER CAMP

For quarter of a century Mr. Walter Camp of Yale has occupied a leading position in college athletics. It is immaterial what organization is suggested for college athletics, or for the betterment of conditions, insofar as college athletics is concerned, Mr. Camp has always

played an important part in its conferences, and the great interest in and high plane of college sport to-day, are undoubtedly due more to Mr. Camp than to any other individual. Mr. Camp has probably written more on college athletics than any other writer and the leading papers and magazines of America are always anxious to secure his expert opinion on foot ball, track and field athletics, base ball and rowing. Mr. Camp has grown up with Yale athletics and is a part of Yale's remarkable athletic system. While he has been designated as the "Father of Foot Ball," it is a well known fact that during his college career Mr. Camp was regarded as one of the best players that ever represented Yale on the base ball field, so when we hear of Walter Camp as a foot ball expert we must also remember his remarkable knowledge of the game of base ball, of which he is a great admirer. Mr. Camp has edited Spalding's Official Foot Ball Guide since it was first published, and also the Spalding Athletic Library book on How to Play Foot Ball. There is certainly no man in American college life better qualified to write for Spalding's Athletic Library than Mr. Camp.

DR. LUTHER HALSEY GULICK

The leading exponent of physical training in America; one who has worked hard to impress the value of physical training in the schools; when physical training was combined with education at the St. Louis Exposition in 1904 Dr. Gulick played an important part in that congress; he received several awards for his good work and had many honors conferred upon him; he is the author of a great many books on the subject; it was Dr. Gulick, who, acting on the suggestion of James E. Sullivan, organized the Public Schools Athletic League of Greater

New York, and was its first Secretary; Dr. Gulick was also for several years Director of Physical Training in the public schools of Greater New York, resigning the position to assume the Presidency of the Playground Association of America. Dr. Gulick is an authority on all subjects pertaining to physical training and the study of the child.

JOHN B. FOSTER

Successor to the late Henry Chadwick ("Father of Base Ball") as editor of Spalding's Official Base Ball Guide; sporting editor of the New York Evening Telegram; has been in the newspaper business for many years and is recognized throughout America as a leading writer on the national game; a staunch supporter of organized base ball, his pen has always been used for the betterment of the game.

TIM MURNANE

Base Ball editor of the Boston Globe and President of the New England League of Base Ball Clubs; one of the best known base ball men of the country; known from coast to coast; is a keen follower of the game and prominent in all its councils; nearly half a century ago was one of America's foremost players: knows the game thoroughly and writes from the point of view both of player and an official.

HARRY PHILIP BURCHELL

Sporting editor of the New York Times; graduate of the University of Pennsylvania; editor of Spalding's Official Lawn Tennis Annual; is an authority on the game; follows the movements of the players minutely and understands not only tennis but all other subjects that can be classed as athletics; no one is better qualified to edit this book than Mr. Burchell.

GEORGE T. HEPBRON

Former Young Men's Christian Association director; for many years an official of the Athletic League of Young Men's Christian Associations of North America; was connected with Dr. Luther H. Gulick in Young Men's Christian Association work for over twelve years; became identified with basket ball when it was in its infancy and has followed it since, being recognized as the leading exponent of the official rules; succeeded Dr. Gulick as editor of the Official Basket Ball Guide and also editor of the Spalding Athletic Library book on How to Play Basket Ball.

JAMES S. MITCHEL

Former champion weight thrower; holder of numerous records, and is the winner of more championships than any other individual in the history of sport; Mr. Mitchel is a close student of athletics and well qualified to write upon any topic connected with athletic sport; has been for years on the staff of the New York Sun.

MICHAEL C. MURPHY

The world's most famous athletic trainer; the champion athletes that he has developed for track and field sports, foot ball and base ball fields, would run into thousands; he became famous when at Yale University and has been particularly successful in developing what might be termed championship teams; his rare good judgment has placed him in an enviable position in the athletic world now with the University of Pennsylvania: during his career has trained only at two colleges and one athletic club, Yale and the University of Pennsylvania and Detroit Athletic Club: his most recent triumph was that of training the famous American team of athletes that swept the field at the Olympic Games of 1908 at London.

DR. C. WARD CRAMPTON

Succeeded Dr. Gulick as director of physical training in the schools of Greater New York: as secretary of the Public Schools Athletic League is at the head of the most remarkable organization of its kind in the world; is a practical athlete and gymnast himself, and has been for years connected with the physical training system in the schools of Greater New York, having had charge of the High School of Commerce.

DR. GEORGE J. FISHER

Has been connected with Y. M. C. A. work for many years as physical director at Cincinnati and Brooklyn, where he

made such a high reputation as organizer that he was chosen to succeed Dr. Luther H. Gulick as Secretary of the Athletic League of Y. M. C. A.'s of North America, when the latter resigned to take charge of the physical training in the Public Schools of Greater New York.

DR. GEORGE ORTON

On athletics, college athletics, particularly track and field, foot ball, soccer foot ball, and training of the youth, it would be hard to find one better qualified than Dr. Orton; has had the necessary athletic experience and the ability to impart that experience intelligently to the youth of the land; for years was the American, British and Canadian champion runner.

FREDERICK R. TOOMBS

A well known authority on skating, rowing, boxing, racquets, and other athletic sports; was sporting editor of American Press Association, New York; dramatic editor; is a lawyer and has served several terms as a member of Assembly of the Legislature of the State of New York; has written several novels and historical works.

R. L. WELCH

A resident of Chicago; the popularity of indoor base ball is chiefly due to his efforts; a player himself of no mean ability; a first-class organizer; he has followed the game of indoor base ball from its inception.

DR. HENRY S. ANDERSON

Has been connected with Yale University for years and is a recognized authority on gymnastics; is admitted to be one of the leading authorities in America on gymnastic subjects; is the author of many books on physical training.

CHARLES M. DANIELS

Just the man to write an authoritative book on swimming; the fastest swimmer the world has ever known; member New York Athletic Club swimming team and an Olympic champion at Athens in 1906 and London, 1908. In his book on Swimming, Champion Daniels describes just the methods one must use to become an expert swimmer.

GUSTAVE BOJUS

Mr. Bojus is most thoroughly qualified to write intelligently on all subjects pertaining to gymnastics and athletics; in his day one of America's most famous amateur athletes; has competed successfully in gymnastics and many other sports for the New York Turn Verein; for twenty

years he has been prominent in teaching gymnastics and athletics; was responsible for the famous gymnastic championship teams of Columbia University; now with the Jersey City high schools.

CHARLES JACOBUS

Admitted to be the "Father of Roque;" one of America's most expert players, winning the Olympic Championship at St. Louis in 1904; an ardent supporter of the game and follows it minutely, and much of the success of roque is due to his untiring efforts; certainly there is no one better qualified to write on this subject than Mr. Jacobus.

DR. E. B. WARMAN

Well known as a physical training expert; was probably one of the first to enter the field and is the author of many books on the subject; lectures extensively each year all over the country.

W. J. CROMIE

Now with the University of Pennsylvania; was formerly a Y. M. C. A. physical director; a keen student of all gymnastic matters; the author of many books on subjects pertaining to physical training.

G. M. MARTIN

By profession a physical director of the Young Men's Christian Association; a close student of all things gymnastic, and games for the classes in the gymnasium or clubs.

PROF. SENAC

A leader in the fencing world; has maintained a fencing school in New York for years and developed a great many champions; understands the science of fencing thoroughly and the benefits to be derived therefrom.

Group I. Base Ball

No.
330

No. 1—Spalding's Official Base Ball Guide.

The leading Base Ball annual of the country, and the official authority of the game. Contains the official playing rules, with an explanatory index of the rules compiled by Mr. A. G. Spalding; pictures of all the teams in the National, American and minor leagues; reviews of the season; college Base Ball, and a great deal of interesting information. Price 10 cents.

No. 202—How to Play Base Ball.

Edited by Tim Murnane. New and revised edition. Illustrated with pictures showing how all the various curves and drops are thrown and portraits of leading players. Price 10 cents.

No. 223—How to Bat.

There is no better way of becoming a proficient batter than by reading this book and practising the directions. Numerous illustrations. Price 10 cents.

No. 232—How to Run the Bases.

This book gives clear and concise directions for excelling as a base runner; tells when to run and when not to do so; how and when to slide; team work on the bases; in fact,

every point of the game is thoroughly explained. Illustrated. Price 10 cents.

No. 230—How to Pitch.

A new, up-to-date book. Its contents are the practical teaching of men who have reached the top as pitchers, and who know how to impart a knowledge of their art. All the big leagues' pitchers are shown. Price 10 cents.

No. 229—How to Catch.

Every boy who has hopes of being a clever catcher should read how well-known players cover their position. Pictures of all the noted catchers in the big leagues. Price 10 cents.

No. 225—How to Play First Base.

Illustrated with pictures of all the prominent first basemen. Price 10 cents.

No. 226—How to Play Second Base.

The ideas of the best second basemen have been incorporated in this book for the especial benefit of boys who want to know the fine points of play at this point of the diamond. Price 10 cents.

No. 227—How to Play Third Base.

Third base is, in some respects, the most important of the infield. All the points explained. Price 10 cents.

No. 228—How to Play Shortstop.

Shortstop is one of the hardest positions on the infield to fill, and quick thought and quick action are necessary for a player who expects to make good as a shortstop. Illus. Price 10 cents.

No. 224—How to Play the Outfield.

An invaluable guide for the outfielder. Price 10 cents.

No. 231—How to Coach; How to Captain a Team; How to Manage a Team; How to Umpire; How to Organize a League; Technical Terms of Base Ball.

A useful guide. Price 10 cents.

No. 210—Ready Reckoner of Base Ball Percentages.

To supply a demand for a book which would show the percentage of clubs without recourse to the arduous work of figuring, the publishers had these tables compiled by an expert. Price 10 cents.

BASE BALL. AUXILIARIES.

No. 1A—Spalding's Official Base Ball Record.

Something new in Base Ball. Contains records of all kinds from the beginning of the National League and official

averages of all professional organizations for past season.
10 cents.

No. 319—Minor League Base Ball Guide.

The minors' own guide. Edited by President T. H. Murnane, of the New England League. Price 10 cents.

No. 320—Official Handbook of the National League of Professional Base Ball Clubs.

Contains the Constitution, By-Laws, Official Rules, Averages, and schedule of the National League for the current year, together with list of club officers and reports of the annual meetings of the League. Price 10 cents.

No. 321—Official Handbook National Playground Ball Association.

This game is specially adapted for playgrounds, parks, etc., is spreading rapidly. The book contains a description of the game, rules and officers. Price 10 cents.

Group II. Foot Ball

No. 2—Spalding's Official Foot Ball Guide.

Edited by Walter Camp. Contains the new rules, with diagram of field; All-America teams as selected by the leading authorities; reviews of the game from various sections of the country; scores; pictures. Price 10 cents.

No. 334—Code of the Foot Ball Rules.

This book is meant for the use of Officials, to help them to refresh their memories before a game and to afford them a quick means of ascertaining a point during a game. It also gives a ready means of finding a rule in the Official Rule Book, and is of great help to a player in studying the Rules. Compiled by C. W. Short, Harvard, 1908. Price 10 cents.

No. 324—How to Play Foot Ball.

Edited by Walter Camp, of Yale. Everything that a beginner wants to know and many points that an expert will be glad to learn. Snapshots of leading teams and players in action, with comments by Walter Camp. Price 10 cents.

No. 2A—Spalding's Official Association Soccer Foot Ball Guide.

A complete and up-to-date guide to the "Soccer" game in the United States, containing instructions for playing the game, official rules, and interesting news from all parts of the country. Illustrated. Price 10 cents.

No. 280—How to Play Soccer.

How each position should be played, written by the best player in England in his respective position, and illustrated with full-page photographs of players in action. Price 10 cents.

FOOT BALL AUXILIARIES.

No. 332—Spalding's Official Canadian Foot Ball Guide.

The official book of the game in Canada. Price 10 cents.

Group III. Cricket

No. 3—Spalding's Official Cricket Guide.

The most complete year book of the same that has ever been published in America. Reports of special matches, official rules and pictures of all the leading teams. Price 10 cents.

No. 277—Cricket; and How to Play it.

By Prince Ranjitsinhji. The game described concisely and illustrated with full-page pictures posed especially for this book. Price 10 cents.

Group IV. Lawn Tennis

No. 4—Spalding's Official Lawn Tennis Annual.

Contents include reports of all important tournaments; official ranking from 1885 to date; laws of lawn tennis; instructions for handicapping; decisions on doubtful points; management of tournaments; directory

of clubs; laying out and keeping a court. Illustrated. Price 10 cents.

No. 157—How to Play Lawn Tennis.

A complete description of lawn tennis; a lesson for beginners and directions telling how to make the most important strokes. Illustrated. Price 10 cents.

No. 270—Strokes and Science of Lawn Tennis.

By P. A. Vaile, a leading authority on the game in Great Britain. Every stroke in the game is accurately illustrated and analyzed by the author. Price 10 cents.

Group V. Golf

No. 5—Spaulding's Official Golf Guide.

Contains records of all important tournaments, articles on the game in various sections of the country, pictures of prominent players, official playing rules and general items of interest. Price 10 cents.

No. 270—How to Play Golf.

By James Braid and Harry Vardon, the world's two greatest players tell how they play the game, with numerous full-page pictures of them taken on the links. Price 10 cents.

Group VI. Hockey

No. 6—Spalding's Official Ice Hockey Guide.

The official year book of the game. Contains the official rules, pictures of leading teams and players, records, review of the season, reports from different sections of the United States and Canada. Price 10 cents.

No. 304—How to Play Ice Hockey.

Contains a description of the duties of each player. Illustrated. Price 10 cents.

No. 154—Field Hockey.

Prominent in the sports at Vassar, Smith, Wellesley, Bryn Mawr and other leading colleges. Price 10 cents.

No. 188—Lawn Hockey, Parlor Hockey, Garden Hockey.

Containing the rules for each game. Illustrated. Price 10 cents.

No. 180—Ring Hockey.

A new game for the gymnasium. Exciting as basket ball. Price 10 cents.

HOCKEY AUXILIARY.

No. 256—Official Handbook of the Ontario Hockey Association.

Contains the official rules of the Association, constitution, rules of competition, list of officers, and pictures of leading players. Price 10 cents.

Group VII. Basket Ball

No. 7—Spalding's Official Basket Ball Guide.

Edited by George T. Hepbron. Contains the revised official rules, decisions on disputed points, records of prominent teams, reports on the game from various parts of the country. Illustrated. Price 10 cents.

No. 193—How to Play Basket Ball.

By G. T. Hepbron, editor of the Official Basket Ball Guide. Illustrated with scenes of action. Price 10 cents.

No. 318—Official Basket Ball Guide for Women.

Edited by Miss Senda Berenson, of Smith College. Contains the official playing rules and special articles on the game by prominent authorities. Illustrated. Price 10 cents.

BASKET BALL AUXILIARY.

No. 323—Collegiate Basket Ball Handbook.

The official publication of the Collegiate Basket Ball Association. Contains the official rules, records, All-America selections, reviews, and pictures. Edited by H. A. Fisher, of Columbia. Price 10 cents.

Group VIII. Bowling

No. 8—Spalding's Official Bowling Guide.

The contents include: diagrams of effective deliveries; hints to beginners; how to score; official rules; spares, how they are made; rules for cocked hat, quintet, cocked hat and feather, battle game, etc. Price 10 cents.

Group IX. Indoor Base Ball

No. 9—Spalding's Official Indoor Base Ball Guide.

America's national game is now vieing with other indoor games as a winter pastime. This book contains the playing rules, pictures of leading teams, and interesting articles on the game by leading authorities on the subject. Price 10 cents.

Group X. Polo

No. 10—Spalding's Official Roller Polo Guide.

Edited by J. C. Morse. A full description of the game; official rules, records; pictures of prominent players. Price 10 cents.

No. 120—Water Polo.

The contents of this book treat of every detail, the individual work of the players, the practice of the team, how to throw the ball, with illustrations and many valuable hints. Price 10 cents.

No. 199—Equestrian Polo.

Compiled by H. L. Fitzpatrick of the New York Sun. Illustrated with portraits of leading players, and contains most useful information for polo players. Price 10 cents.

Group XI. Miscellaneous Games

No. 201—Lacrosse.

Every position is thoroughly explained in a most simple and concise manner, rendering it the best manual of the game ever published. Illustrated with numerous snapshots of important plays. Price 10 cents.

No. 322—Official Handbook U. S. Inter-Collegiate Lacrosse League.

Contains the constitution, by-laws, playing rules, list of officers and records of the association. Price 10 cents.

No. 271—Spalding's Official Roque Guide.

The official publication of the National Roque Association of America. Contains a description of the courts and their construction, diagrams, illustrations, rules and valuable information. Price 10 cents.

No. 138—Spalding's Official Croquet Guide.

Contains directions for playing, diagrams of important strokes, description of grounds, instructions for the beginner, terms used in the game, and the official playing rules. Price 10 cents.

No. 248—Archery.

A new and up-to-date book on this fascinating pastime. The several varieties of archery; instructions for shooting; how to select implements; how to score; and a great deal of interesting information. Illustrated. Price 10 cents.

No. 194—Racquets, Squash-Racquets and Court Tennis.

How to play each game is thoroughly explained, and all the difficult strokes shown by special photographs taken especially for this book. Contains the official rules for each game. Price 10 cents.

No. 167—Quoits.

Contains a description of the plays used by experts and the official rules. Illustrated. Price 10 cents.

No. 170—Push Ball.

This book contains the official rules and a sketch of the game; illustrated. Price 10 cents.

No. 13—How to Play Hand Ball.

By the world's champion, Michael Egan. Every play is thoroughly explained by text and diagram. Illustrated. Price 10 cents.

No. 14—Curling.

A short history of this famous Scottish pastime, with instructions for play, rules of the game, definitions of terms and diagrams of different shots. Price 10 cents.

No. 207—Bowling on the Green; or, Lawn Bowls.

How to construct a green; how to play the game, and the official rules of the Scottish Bowling Association. Illustrated. Price 10 cents.

No. 189—Children's Games.

These games are intended for use at recesses, and all but the team games have been adapted to large classes. Suitable for children from three to eight years, and include a great variety. Price 10 cents.

No. 188—Lawn Games.

Lawn Hockey, Garden Hockey, Hand Tennis, Tether Tennis; also Volley Ball, Parlor Hockey, Badminton, Basket Goal. Price 10 cents.

Group XII. Athletics

No. 12—Spalding's Official Athletic Almanac.

Compiled by J. E. Sullivan, President of the Amateur Athletic Union. The only annual publication now issued that contains a complete list of amateur best-on-records; intercollegiate, swimming, interscholastic. English, Irish, Scotch, Swedish, Continental, South African, Australasian; numerous photos of individual athletes and leading athletic teams. Price 10 cents.

No. 27—College Athletics.

M. C. Murphy, the well-known athletic trainer, now with Pennsylvania, the author of this book, has written it especially for the schoolboy and college man, but it is invaluable for the athlete who wishes to excel in any branch of athletic sport; profusely illustrated. Price 10 cents.

No. 182—All-Around Athletics.

Gives in full the method of scoring the All-Around Championship; how to train for the All-Around Championship. Illustrated. Price 10 cents.

No. 156—Athlete's Guide.

Full instructions for the beginner, telling how to sprint, hurdle, jump and throw weights, general hints on training; valuable advice to beginners and important A. A. U. rules and their explanations, while the pictures comprise many scenes of champions in action. Price 10 cents.

No. 273—The Olympic Games at Athens.

A complete account of the Olympic Games of 1906, at Athens, the greatest International Athletic Contest ever held. Compiled by J. E. Sullivan, Special United States Commissioner to the Olympic Games. Price 10 cents.

No. 87—Athletic Primer.

Edited by J. E. Sullivan. President of the Amateur Athletic Union. Tells how to organize an athletic club, how to conduct an athletic meeting, and gives rules for the government of athletic meetings; contents also include directions for laying out athletic grounds, and a very instructive article on training. Price 10 cents.

No. 252—How to Sprint.

Every athlete who aspires to be a sprinter can study this book to advantage. Price 10 cents.

No. 255—How to Run 100 Yards.

By J. W. Morton, the noted British champion. Many of Mr. Morton's methods of training are novel to American athletes, but his success is the best tribute to their worth. Illustrated. Price 10 cents.

No. 174—Distance and Cross-Country Running.

By George Orton, the famous University of Pennsylvania runner. The quarter, half, mile, the longer distances, and cross-country running and steeplechasing, with instructions for training; pictures of leading athletes in action, with comments by the editor. Price 10 cents.

No. 259—Weight Throwing.

Probably no other man in the world has had the varied and long experience of James S. Mitchel, the author, in the weight throwing department of athletics. The book gives valuable information not only for the novice, but for the expert as well. Price 10 cents.

No. 246—Athletic Training for Schoolboys.

By Geo. W. Orton. Each event in the Intercollegiate programme is treated of separately. Price 10 cents.

No. 55—Official Sporting Rules.

Contains rules not found in other publications for the government of many sports; rules for wrestling, shuffleboard, snowshoeing, professional racing, pigeon shooting, dog racing, pistol and revolver shooting, British water polo rules, Rugby foot ball rules. Price 10 cents.

ATHLETIC AUXILIARIES.

No. 311—Official Handbook of the A.A.U.

The A. A. U. is the governing body of athletes in the United States of America, and all games must be held under its rules, which are exclusively published in this handbook, and a copy should be in the hands of every athlete and every club officer in America. Also includes a very interesting article on "The Growth of American Athletics," and a short biography of each member of the Board of Governors. Price 10 cents.

No. 316—Official Intercollegiate A.A.A.A. Handbook.

Contains constitution, by-laws, and laws of athletics; records from 1876 to date. Price 10 cents.

No. 308—Official Handbook New York Interscholastic Athletic Association.

Contains the Association's records, constitution and by-laws and other information. Price 10 cents.

No. 302—Official Y.M.C.A. Handbook.

Contains the official rules governing all sports under the jurisdiction of the Y. M. C. A., official Y. M. C. A. scoring tables, pentathlon rules, pictures of leading Y. M. C. A. athletes. Price 10 cents.

**No. 313—Official Handbook of the Public Schools
Athletic League.**

Edited by Dr. C. Ward Crampton, director of physical education in the Public Schools of Greater New York. Illustrated. Price 10 cents.

**No. 314—Official Handbook Girls' Branch of the
Public Schools Athletic League.**

The official publication. Contains: constitution and by-laws, list of officers, donors, founders, life and annual members, reports and illustrations. Price 10 cents.

No. 331—Schoolyard Athletics.

By J. E. Sullivan. President Amateur Athletic Union and member of Board of Education of Greater New York. An invaluable handbook for the teacher and the pupil. Gives a systematic plan for conducting school athletic contests and instructs how to prepare for the various events. Illustrated. Price 10 cents.

No. 317—Marathon Running.

A new and up-to-date book on this popular pastime. Contains pictures of the leading Marathon runners, methods of training, and best times made in various Marathon events. Price 10 cents.

Group XIII. Athletic Accomplishments

No. 177—How to Swim.

Will interest the expert as well as the novice; the illustrations were made from photographs especially posed, showing the swimmer in clear water; a valuable feature is the series of "land drill" exercises for the beginner. Price 10 cents.

No. 128—How to Row.

By E. J. Giannini, of the New York Athletic Club, one of America's most famous amateur oarsmen and champions. Shows how to hold the oars, the finish of the stroke and other valuable information. Price 10 cents.

No. 296—Speed Swimming.

By Champion C. M. Daniels of the New York Athletic Club team, holder of numerous American records, and the best swimmer in America qualified to write on the subject. Any boy should be able to increase his speed in the water after reading Champion Daniels' instructions on the subject. Price 10 cents.

No. 23—Canoeing.

Paddling, sailing, cruising and racing canoes and their uses; with hints on rig and management; the choice of a canoe; sailing canoes, racing regulations; canoeing and camping. Fully illustrated. Price 10 cents.

No. 209—How to Become a Skater.

Contains advice for beginners; how to become a figure skater, showing how to do all the different tricks of the best figure skaters. Pictures of prominent skaters and numerous diagrams. Price 10 cents.

No. 282—Official Roller Skating Guide.

Directions for becoming a fancy and trick roller skater, and rules for roller skating. Pictures of prominent trick skaters in action. Price 10 cents.

No. 178—How to Train for Bicycling.

Gives methods of the best riders when training for long or short distance races; hints on training. Revised and up-to-date in every particular. Price 10 cents.

Group XIV. Manly Sports

No. 140—Wrestling.

Catch-as-catch-can style. Seventy illustrations of the different holds, photographed especially and so described that anybody can with little effort learn every one. Price 10 cents.

No. 18—Fencing.

By Dr. Edward Breck. of Boston, editor of The Swordsman, a prominent amateur fencer. A book that has stood the test of time, and is universally acknowledged to be a standard work. Illustrated. Price 10 cents.

No. 162—Boxing Guide.

Contains over 70 pages of illustrations showing all the latest blows, posed especially for this book under the supervision of a well-known instructor of boxing, who makes a specialty of teaching and knows how to impart his knowledge. Price 10 cents.

No. 165—The Art of Fencing.

By Regis and Louis Senac, of New York, famous instructors and leading authorities on the subject. Gives in detail how every move should be made. Price 10 cents.

No. 236—How to Wrestle.

The most complete and up-to-date book on wrestling ever published. Edited by F. R. Toombs, and devoted principally to special poses and illustrations by George Hackenschmidt, the "Russian Lion." Price 10 cents.

No. 102—Ground Tumbling.

Any boy, by reading this book and following the instructions, can become proficient. Price 10 cents.

No. 289—Tumbling for Amateurs.

Specially compiled for amateurs by Dr. James T. Gwathmey. Every variety of the pastime explained by text and pictures, over 100 different positions being shown. Price 10 cents.

No. 191—How to Punch the Bag.

The best treatise on bag punching that has ever been printed. Every variety of blow used in training is shown and explained, with a chapter on fancy bag punching by a well-known theatrical bag puncher. Price 10 cents.

No. 143—Indian Clubs and Dumb-Bells.

By America's amateur champion club swinger, J. H. Dougherty. It is clearly illustrated, by which any novice can become an expert. Price 10 cents.

No. 200—Dumb-Bells.

The best work on dumb-bells that has ever been offered. By Prof. G. Bojus, of New York. Contains 200 photographs. Should be in the hands of every teacher and pupil of physical culture, and is invaluable for home exercise. Price 10 cents.

No. 262—Medicine Ball Exercises.

A series of plain and practical exercises with the medicine ball, suitable for boys and girls, business and professional men, in and out of gymnasium. Price 10 cents.

No. 29—Pulley Weight Exercises.

By Dr. Henry S. Anderson, instructor in heavy gymnastics Yale gymnasium. In conjunction with a chest machine anyone with this book can become perfectly developed. Price 10 cents.

No. 233—Jiu Jitsu.

Each move thoroughly explained and illustrated with numerous full-page pictures of Messrs. A. Minami and K. Koyama, two of the most famous exponents of the art of Jiu Jitsu, who posed especially for this book. Price 10 cents.

No. 160—How to Swing Indian Clubs.

By Prof. E. B. Warman. By following the directions carefully anyone can become an expert. Price 10 cents.

No. 326—Professional Wrestling.

A book devoted to the catch-as-catch-can style; illustrated with half-tone pictures showing the different holds used by Frank Gotch, champion catch-as-catch-can wrestler of the world. Posed by Dr. Roller and Charles Postl. By Ed. W. Smith, Sporting Editor of the Chicago American. Price 10 cents.

Group XV. Gymnastics

No. 104—The Grading of Gymnastic Exercises.

By G. M. Martin. A book that should be in the hands of every physical director of the Y. M. C. A., school, club, college, etc. Price 10 cents.

No. 214—Graded Calisthenics and Dumb-Bell Drills.

For years it has been the custom in most gymnasiums of memorizing a set drill, which was never varied. Consequently the beginner was given the same kind and amount as the older member. With a view to giving uniformity the present treatise is attempted. Price 10 cents.

No. 254—Barnjum Bar Bell Drill.

Edited by Dr. R. Tait McKenzie, Director Physical Training, University of Pennsylvania. Profusely illustrated. Price 10 cents.

No. 158—Indoor and Outdoor Gymnastic Games.

A book that will prove valuable to indoor and outdoor gymnasiums, schools, outings and gatherings where there are a number to be amused. Price 10 cents.

No. 124—How to Become a Gymnast.

By Robert Stoll, of the New York A. C., the American champion on the flying rings from 1885 to 1892. Any boy can easily become proficient with a little practice. Price 10 cents.

No. 287—Fancy Dumb Bell and Marching Drills.

All concede that games and recreative exercises during the adolescent period are preferable to set drills and monotonous movements. These drills, while designed primarily for boys, can be used successfully with girls and men and women. Profusely illustrated. Price 10 cents.

No. 327—Pyramid Building Without Apparatus.

By W. J. Cromie, Instructor of Gymnastics. University of Pennsylvania. With illustrations showing many different combinations. This book should be in the hands of all gymnasium instructors. Price 10 Cents.

No. 328—Exercises on the Parallel Bars.

By W. J. Cromie. Every gymnast should procure a copy of this book. Illustrated with cuts showing many novel exercises. Price 10 cents.

No. 329—Pyramid Building with Chairs, Wands and Ladders.

By W. J. Cromie. Illustrated with half-tone photographs showing many interesting combinations. Price 10 cents.

GYMNASTIC AUXILIARY.

**No. 333—Official Handbook Inter-Collegiate
Association Amateur Gymnasts of America.**

Edited by P. R. Carpenter, Physical Director Amherst College. Contains pictures of leading teams and individual champions, official rules governing contests, records. Price 10 cents.

Group XVI. Physical Culture

No. 161—Ten Minutes' Exercise for Busy Men.

By Dr. Luther Halsey Gulick, Director of Physical Training in the New York Public Schools. A concise and complete course of physical education. Price 10 cents.

No. 208—Physical Education and Hygiene.

This is the fifth of the Physical Training series, by Prof. E. B. Warman (see Nos. 142, 149, 166, 185, 213, 261, 290.) Price 10 cents.

No. 149—The Care of the Body.

A book that all who value health should read and follow its instructions. By Prof. E. B. Warman, the well-known lecturer and authority on physical culture. Price 10 cents.

No. 142—Physical Training Simplified.

By Prof. E. B. Warman. A complete, thorough and practical book where the whole man is considered—brain and body. Price 10 cents.

No. 185—Health Hints.

By Prof. E. B. Warman. Health influenced by insulation; health influenced by underwear; health influenced by color; exercise. Price 10 cents.

No. 213—285 Health Answers.

By Prof. E. B. Warman. Contents: ventilating a bedroom; ventilating a house; how to obtain pure air; bathing; salt water baths at home; a substitute for ice water; to cure insomnia, etc., etc. Price 10 cents.

No. 238—Muscle Building.

By Dr. L. H. Gulick, Director of Physical Training in the New York Public Schools. A complete treatise on the correct method of acquiring strength. Illustrated. Price 10 cents.

No. 234—School Tactics and Maze Running.

A series of drills for the use of schools. Edited by Dr. Luther Halsey Gulick. Director of Physical Training in the New York Public Schools. Price 10 cents.

No. 261—Tensing Exercises.

By Prof. E. B. Warman. The “Tensing” or “Resisting” system of muscular exercises is the most thorough, the most complete, the most satisfactory, and the most fascinating of systems. Price 10 cents.

No. 285—Health; by Muscular Gymnastics.

With hints on right living. By W. J. Cromie. If one will practice the exercises and observe the hints therein contained, he will be amply repaid for so doing. Price 10 cents.

No. 288—Indigestion Treated by Gymnastics.

By W. J. Cromie. If the hints therein contained are observed and the exercises faithfully performed great relief will be experienced. Price 10 cents.

No. 290—Get Well; Keep Well.

By Prof. E. B. Warman. author of a number of books in the Spalding Athletic Library on physical training. Price 10 cents.

No. 325—Twenty-Minute Exercises.

By Prof. E. B. Warman, with chapters on "How to Avoid Growing Old," and "Fasting; Its Objects and Benefits." Price 10 cents.

No. 330—Physical Training for the School and Class Room.

Edited by G. R. Borden. Physical Director of the Y. M. C. A., Easton, Pa. A book that is for practical work in the school room, Illustrated. Price 10 cents.

TUMBLING FOR AMATEURS

Teachers, especially in public gymnasia, where the attendance is voluntary, will welcome anything that will make the exercises more attractive and do away, as far as possible, with the idea of "work."

Tumbling should form a part of every system taught in our public gymnasia, and to those who have not heretofore studied the subject we submit the following propositions:

1. Tumbling will develop, harmoniously, the whole body without the aid of any apparatus whatever, or any other set of exercises. A careful study of the physiques of professional tumblers will verify this statement.

2. The exercises can be easily graded, so that there will be absolutely no danger in going from primary to advanced tumbling. In individual tumbling, the body being always close to the ground, the chances of a break or a sprain are reduced to a minimum; and in comparison with other forms of exercise, such as boxing, wrestling, or apparatus work, the percentage of accidents will be found to compare most favorably.

3. Friends can enter into the keenest competition, urging each other to the highest possible development and perfection, and never experience the inconveniences of black eyes and bruises—the usual resultants of combative exercises.

4. At least 50 per cent. of those entering the gymnasium can participate in some form of tumbling, either individual or combination; the greatest progress for adults being attained in the latter, where two or more men exercise together.

5. No expensive appliances or apparatus is necessary in introducing or teaching tumbling, the mats absolutely essential in any gymnasium being all-sufficient for ordinary class work. But if tumbling is to be made a feature, then a large mat, 15 feet long by 6 feet wide and 2 feet high and stuffed with straw or hay, will be found a very attractive addition, as it can be used to great advantage with any gymnastic apparatus.

6. For boys, tumbling is the most natural exercise in the world, as they are easily interested and held in this form of exercise when a dumb-bell drill would run them away. Besides the development, they get co-ordination and control to a remarkable extent, which will be invaluable to them in any exercise that they may engage in later on.

7. A tumbler easily adapts himself to all gymnastic apparatus, and will usually be found to be more graceful than an exclusive apparatus worker. If teachers who have never used tumbling would introduce it, it would do away, in a great measure, with that stiffness which is so distasteful to many; and, if as systematically taught as their apparatus work, would change the product of their gymnasiums from the top-heavy type to a symmetrical whole.

8. It is the one universal exercise used by the whole human family from the earliest times to the dawn of the twentieth century, and will continue in use as long as the world lasts. The millions of babies tumbling in the world to-day, learning their first physical exercise—to walk—reminds us that we have all taken a few lessons, at least, in this most useful art.

9. Tumbling is of more importance than all other exercises, as, *nolens volens*, we all take a tumble occasionally; and if we know how to tumble—so as to land on our feet or keep from falling—it will give us a confidence that we would not otherwise have. There seems to be a very prevalent idea that if a man has never learned how to tumble before he is twenty-one he had just as well not start. On the contrary, if a person has never taken gymnastic exercises, he can make greater advancement in tumbling than in almost any other form of exercise, if his physique permits of tumbling at all. After acquiring a few of the exercises, tumbling can be practiced with pleasure and satisfaction on any lawn, sand-bar, or sawdust pile, and in this way will prove of more practical utility than almost any form of gymnastics.

A word of caution might not be out of place: In teaching adults (where a large mat, such as already described, is not used) the small mats cannot be piled too high to prevent jars and shocking surprises. If pupils suffer from dizziness, excuse them from these exercises. In combination tumbling the belt, or lunger, must always be put on for a first trial, however simple the exercise may appear.

In the following pages I have depended almost entirely upon the illustrations, and have intentionally made the text as short and concise as possible—following the plan of Messrs. Hitchcock and Nelligan's most excellent work, "Wrestling." I am also indebted to Dr. William Anderson, of Yale University, for many valuable suggestions.

JAMES T. GWATHMEY.

PRIMARY TUMBLING

1. **The Forward Roll Over.** Double up close, and finish standing erect on toes. Figs. [1](#), [2](#), [3](#).

2. **The Forward Roll Over**, grasping toes throughout roll. Fig. [4](#).

3. **The Forward Roll Over**, grasping toes, legs crossed Fig. [5](#).

4. **The Forward Roll Over**, arms between legs, hands on outside of ankles. Fig. [6](#).

5. **The Forward Roll Over**, arms between legs, hands clasped. Fig. [7](#).

6. **The Forward Roll Over**, arms at side horizontal throughout exercise. Do not touch mat with hands. Commence standing on right foot, swing the left to front to get momentum, and then under and back as you roll over to erect position on right foot again. Figs. [8](#), [9](#), [10](#), [11](#).

7. **The Forward Roll Over.** Same as No. 6, starting on left foot.

8. **The Forward Roll Over.** To lying flat on back.

9. **The Forward Roll Over**, with half-turn to face downward.

10. **The Forward Roll Over**, feet spread, arms in different positions.

11. **The Forward Roll Over**, arms folded, come to standing position.

12. **The Backward Roll Over.** Repeat all of the foregoing backwards.

13. **A Dive** is a jump for height or distance, alighting on hands. Bend arms, duck head, and forward roll over. Never strike middle of back first. Commence with the forward roll over (Figs. [1](#), [2](#), [3](#)), and gradually increase the height or distance until you can finally go your full limit without jolting or bumping yourself in the least. The rise is usually from both feet.

14. **Dive** (1) for distance, (2) for height.

15. **Combine the Forward Roll Over and Dive** for (1) Distance, (2) for Height.

16. **Fall Forward without Bending at Hips**, with knees stiff; catch on hands.

17. **Fall Backward**, stiff (stage fall).

18. **Fall Forward**, with chest out, and back arched. Turn head to right or left. Continue rolling, and push over to feet.

19. **Combine Front and Back Roll Over**, making continuous movement by crossing legs as you finish the front roll.

20. **Combine Back and Front Roll Over.**

21. **Combine Front, Back, and Front Roll Over** in quick succession.

22. **Combine Back, Front, and Back Roll Over** in quick succession.

23. **Roll Over Backward**, straightening body as you go over to lying-down position on stomach.

24. Lie on back, arms at side horizontal. Bring right hand close to side, turn head to right, and at same time bend at waist, bringing feet over head, then snap over quickly on to stomach, facing in opposite direction.

25. Hold left toe with right hand and jump right leg through.

26. Hold right toe with left hand and jump left leg through.

27. Hold stick in hands, jump through and back in order to learn to double up close for back or forward somersault. Fig. [12](#).

28. **Head Stand.** Place the hands in line on the mat, and the head between and about 10 inches in advance, forming an equilateral triangle; throw feet over head, with knees together and toes pointed upward; hold 30 seconds, then forward roll over.

20. **Hand Stand.** Beginners can best learn this by placing the hands on floor 1½ feet from wall and throwing the feet up against the wall. In practising hand stands on the floor, come down easy to feet the same way you threw into position, or pick up right or left hand as you overbalance and come to feet, or bend arms and roll over. Fig. [13](#).

30. **Head Stand.** Push up into hand stand without losing balance.

31. **Forward Roll Over into Head Stand.**

32. **Backward Roll Over into Head Stand.**

N. B.—Do not compete in holding head stands for time. Caution boys especially against this foolish practice.

33. **“Bucking Broncho.”** Throw almost into hand stand, bend knees and push up hard with hands, throwing head and shoulders up and back, snap feet to floor and come to standing position; jump to hands again and repeat.

34. **The Forward Roll Over into Hand Stand.**

35. **The Backward Roll Over into Hand Stand.**

36. Body stiff, face downward, resting on hands and feet, without raising either hand, jump between hands to lying-down position on back.

37. **Roll Down.** From hand stand incline head and shoulders forward, bend arms until chest touches, keep back arched, roll to lying-down position on mat, then to knees, and jump to feet immediately.

38. **Head Stand and Roll Down.**

39. Lie on back, raise feet up in air, place the hands just above the hips, with elbows, upper arms and shoulders touching mat, bend and straighten knees with a snap, thus progressing backward on shoulders.

40. **Head Spring.** Place head (touching upper part of forehead, not the back of head) between and in advance of hands on mat. As you snap feet over shove hard from hands and head. Alight in standing position, with knees bent. Fig. [14](#).

N. B.—Always place head on mat easily, thus obviating jars.

41. Same as No. 40, only alighting knees stiff and back arched.

42. Same as No. 40, without hands.

43. Repeat No. 40, alight on right foot, and hold balance.

44. Repeat No. 40, alight on left foot, and hold balance.

45. **Twisting Head Spring.** Same as No. 40, only twist the body to right or left, and land facing starting position.

46. **The Balance Head Spring.** From head stand bend at waist, with knees stiff, execute head spring without touching feet to floor.

47. Same as No. 46, but with neck spring.

48. **Neck Spring** (snap up). Place back of head and neck on mat between hands. Same movement as head spring. Fig. [15](#).

49. **Neck Spring.** Hands on front of thighs, shove hard with hands and head as you snap feet over. Fig. [16](#).

50. **Neck Spring** with arms folded. Fig. [17](#).

51. **Hand Spring.** Jump from either foot on to hands. Keep the arms perfectly stiff, and as the feet are thrown quickly over (chest and stomach well out and head back) shove hard from hands and alight on feet with bent knees. Figs. [18](#), [20](#).

52. **Leaping Hand Spring.** Jump from both feet on to hands. Movement same as in 51. Touch hands lightly as you go over. Figs. [19](#), [20](#).

53. Same as 51, only alight on balls of feet, with knees stiff, back arched, and perfectly erect position.

54. **The Cart-wheel.** Either right or left side leading, keep the head back, chest and stomach well out, hands and feet as well separated as possible. If right side leads, place right hand on floor following with left, then left foot followed by right. Continue movement by keeping in a straight line.

55. **Round Off.** Start as in cart-wheel, but hand spring movement, turn, snap the feet down quickly, and alight facing starting-point.

56. Roll over backward to back of neck and snap up.

57. Jump, turn in air, alight facing starting-point, and back roll over.

58. Combine hand stand (Fig. [13](#)) and snap up (Fig. [15](#)).

59. A row of hand stands and snap ups in quick succession.

60. Combine two, three, or four head springs in quick succession.

61. Combine two, three, or four neck springs in quick succession.

62. **Alternate Head and Neck Springs** in quick succession.

63. **Hand Walk.** Throw up into hand stand, and as you overbalance take a step forward with either right or left hand, and continue.

64. **Hand Walk Forward.**

65. **Hand Walk Backward.**

66. **Hand Walk in Circle.**

67. Hand walk forward, turn, and come back to starting-point.

68. Hand walk forward, touching chest at each step.

69. Hand walk, forward roll into hand stand, and repeat.

70. Two head springs into hand stand, roll down (37), pull through (36), and snap up (48).

71. Dive, back roll into hand stand, to neck, and snap up.

The combinations of the foregoing movements are infinite, and the inventive teacher can repeat the same exercises in a different order or combination, making new movements out of the old ones, and thus keeping up the interest and enthusiasm from day to day. Select ten or twelve movements from the preceding list, and give as a drill for one lesson. Change the order, and repeat for next lesson; but give an entirely different drill for third lesson. As the pupils advance let them put in their own combinations at the end of each lesson.

ADVANCED TUMBLING

Note.—Advanced tumbling should never be attempted alone the first time. A belt, with an assistant on either side, is the usual method of practising these exercises. Do not hurry. Practise one movement day after day until you are proficient, remembering that a difficult movement once mastered is as simple as any other, and that after learning you can execute them with ease and impunity. It is folly, not bravery, to attempt movements by yourself that you are not sure of; and you are the one to decide this, not others.

1. **Back Somersault.** From standing position, hands by the side, spring straight up (do not bend forward as you stoop for spring), throwing hands high above head; throw the head back, and, grasping the knees, pull them well in at the highest point of jump, at the same time kicking the feet forward; let out, and come down straight. Fig. [21](#).

2. From a hand stand snap to feet and a back somersault.

3. Round off and a back somersault.

4. Two, three, or four back somersaults in a swing.

5. Forward run and back somersault.

6. Cart-wheel, round off, and back.

7. **Front Somersault.** Run forward, and as you run increase your speed; spring from either right or left foot a distance of from 8 to 12 feet, landing on the balls of both feet, hands by the side (Fig. [70](#)), chest out, and head erect (not forward); jump for height, lifting the body by a quick

upward swing of the arms, and at the highest point of the jump throw head and hands down with a snap, grasp the legs a short distance below the knees and pull in close and hard, doubling up close, then straighten out quickly and alight on balls of feet in erect position. Fig. [22](#).

Note.—Make the jump for height the fastest part of the run, and as you jump increase your speed so as to get the greatest height attainable, double into as small a ball as possible, and then let out and come down perfectly straight, and you have the ideal somersault.

8. Standing Front Somersault. Hands by the sides (Fig. 70), spring straight upward, lifting with arms and shoulders, and as you reach the limit of your height throw head and hands forward with a snap, grasping ankles and pulling in close; then let out again quickly.

9. The Layout Front Somersault. (Done principally from the spring-board, although a few exceptionally fine jumpers can do it from the mat.) As you rise for the somersault throw the hands well out in front, with arms perfectly stiff, head up, chest out; hold this position for a second, then make a quick, close double as in the ordinary somersault; let out and come down straight.

10. **One Foot Front.** Stand on one foot and execute regular somersault.

11. **Knee Front.** From kneeling position raise to feet, regular somersault.

12. **Head Spring and Front Somersault.**

13. **Hand Spring and Front Somersault.**

14. **Two Front Somersaults in Quick Succession.**

N. B.—A double somersault should never be attempted by amateurs.

15. **Back Hand Spring, or “Flip”** (the most difficult of all tumbling exercises). From standing position raise the heels, bend the knees, let the hands go back past sides, keep the body, from waist up, straight, stoop until hands can nearly touch the mat; from this position throw the hands swiftly forward and upward, at the same time raise on toes (but do not jump at all), arching the back well in, head and arms thrown as far back as possible; pull the body over by momentum of shoulders, body, and head. Figs. [23](#), [24](#), [25](#).

16. **Hand Stand, Snap to Feet, and Flip.**

17. **Hand Stand, Snap to Feet, Flip, and Back.**

18. A Row of Flips; Two or More in Quick Succession.

19. Alternate Flips and Backs.

20. Round Off and Flip.

21. Round Off, Flip, and Back.

22. Twisting Flip. As the hands hit, twist the body and alight facing in opposite direction from which you started.

23. A Series of Twisting Flips. The hands strike about the same place each time.

24. Twisting Back. Regular movement, only throw head hard to right or left and alight facing opposite direction from which you started. Fig. [74](#).

25. Hand Stand, Snap to Feet, and Twisting Flip.

26. Round Off and Twisting Back.

27. Running Twisting Forward Somersault. Regular movement, only throw head hard to right or left, and alight facing direction from which you started.

28. Running Side Somersault. Alight sideways and turn sideways.

Devise, invent, and make up your own combinations.

COMBINATION TUMBLING

By this is meant a series of combinations by two or more men exercising together. In these exercises a belt must always be put on for the first trial (or assistants stand on either side), however simple the exercises may appear, and must be kept on until the exercise is thoroughly mastered, which would mean that you have each other's time and act in unison. Work with the same men all the time; beware of strangers, even if both of you understand the exercises. Do not be afraid to use caution and common sense. Only combinations that can be mastered by business men with limited time have been put in; the more dangerous ones, requiring much time, being intentionally omitted. In all of the following exercises No. 1 is the heaviest or "bottom" man; No. 2, "middle" man; and No. 3, "top" man (or lightest man).

ELEPHANT WALK.

1. Stand facing each other. No. 2 puts hands on No. 1's shoulders, springs up and throws legs around No. 1's waist, then leans backward and drops between No. 1's legs, who then bends forward and places hands on floor keeping knees stiff; No. 2 places hands on No. 1's heels and straightens arms; No. 1 then walks off (also with a small boy on top), or untwists legs and both do a roll over. Fig. [26](#).

WALK OFF.

2. No. 2 makes hand stand, feet well apart; No. 1 steps in, letting legs rest on hips, and grasps heels of No. 2, who straightens himself, arms folded; No. 1 then walks off with him. For first part of movement see Fig. [96](#).

HAND STAND ROLL.

3. No. 1 stands erect; No. 2 makes hand stand close to No. 1's heels, his legs dropping over No. 1's shoulders, who grasps No. 2's ankles, bends forward, quickly pulling No. 2 over to a standing position; No. 1 now does a hand stand and is thrown over by No. 2. Repeat in quick succession. For first part of movement see Fig. [99](#).

DOUBLE ROLL.

4. No. 1 lies on back, legs raised to vertical, with knees slightly bent, and grasps No. 2's ankles, who stands close to his head and also grasps No. 1's ankles; No. 2 dives forward, held back slightly by No. 1 to break his fall; continue roll. Fig. [27](#).

5. Repeat No. 4 backward.

HANDS BETWEEN LEGS AND PULL OVER.

6. Facing same direction, No. 2 leans forward and places his arms between his own legs; his wrists are grasped by No. 1, who lifts (as No. 2 jumps) and throws him over to his feet. Figs. [28](#), [29](#).

BACK TO BACK AND OVER.

7. Stand back to back, arms extended vertically, grasp each other's hands, heads turned to opposite sides; No. 2 springs and No. 1 pulls No. 2 over shoulders to feet. No. 2 must never relax muscles on this exercise. Figs. [30](#), [31](#).

BALANCE ON HEAD AND THROW OVER.

8. Facing in same direction, No. 1 grasps No. 2 on either side of belt, and No. 2 grasps No. 1's wrists and springs up, assisted by No. 1 lifting, and comes to balance position on No. 1's head; No. 2 then throws his head back, pulls legs up

and snaps over to feet, assisted by a slight push from No. 1. Figs. [32](#), [33](#).

THROW OVER HEAD.

9. Same as No. 8, only in quicker time. No. 2 does not touch head of No. 1, who holds his arms perfectly stiff, and throws No. 2 over his head in one movement. Fig. [34](#).

10. Leap-frog, roll over, and continue.

STRADDLE VAULT OVER.

11. No. 1 places one hand under No. 2's crotch; No. 2 places both hands on No. 1's head and vaults over. Figs. [35](#), [36](#).

STRADDLE OVER FROM FLOOR.

12a. No. 2 lies down and No. 1 places foot close up and between No. 2's legs and grasps both hands of No. 2, who springs up and straddle vaults over, while No. 1 pulls, then pushes his hands to horizontal with quarter turn of body.

STRADDLE OVER AND HAND SPRING.

12b. Position and first part of movement same as No. 12a, only No. 1 grasps No. 2's wrists; as No. 2 passes over No. 1's head, he doubles up close and does a hand spring from No. 1's hands.

LOW ARM HAND STAND.

13. No. 1 lies on back, feet apart; No. 2 steps in and, bending forward, they place hands on each other's shoulders; No. 2 does hand stand, No. 1 holding him in position. Fig. [37](#).

HIGH ARM HAND STAND.

14. Facing each other, hands on shoulders, No. 2 jumps up, crossing feet behind back of No. 1, who leans over and immediately comes to erect position; No. 2 pushing up into high arm stand. Figs. [38](#), [39](#), [40](#).

HIGH ARM HAND STAND.

15. Repeat No. 13. No. 2 is let down easily by No. 1, and rolls over, retaining hold on each other's shoulders, to lying down position on backs; No. 1 does a quick back roll, and lands on feet between No. 2's spread legs, and immediately pulls No. 2 (who assists by jumping) to high hand to shoulder stand in air. Fig. [40](#).

16. From position of Fig. [39](#), No. 1 throws No. 2 hand spring over head.

PULL UP FROM FLOOR.

17. Facing each other, and six feet apart, No. 2 dives halfway over, keeping palms of hands on mat by side of head, legs vertical; No. 1 grasps ankles and gives him a quick pull up and throw away; No. 2 assisting by pushing with his hands and head, and coming to standing position facing No. 1. Figs. [41](#), [42](#).

18. Same as No. 17, only both face same direction; No. 2 does forward roll; No. 1 pulls No. 2 to feet.

BACK FROM FOREARMS.

19. No. 1 stands body straight, feet spread, knees bent, and, interlacing fingers, holds forearms horizontal; No. 2 places hands on No. 1's shoulders, jumps to forearms, and back somersaults off. Figs. [43](#), [44](#).

ONE LEG FORWARD.

20. Facing same direction, one foot apart, No. 2 bends knee and places right or left ankle in No. 1's hands; No. 2 jumps directly up (assisted by No. 1), cuts close, and does a

high forward somersault, coming down straight. Figs. [45](#), [46](#).

MOUNT TO SHOULDERS.

21. No. 1 facing front, No. 2 to left of No. 1 and right face; No. 1 bends knees slightly, feet well apart, holds right hand over head, palm up, and grasps No. 2's right hand, also No. 2's left with his left hand; No. 2 places left foot on No. 1's left thigh; as each pulls hard with right hand, No. 2 jumps and places his right foot on No. 1's right shoulder and left on left shoulder, lets go of No. 1's hands and stands erect, heels together on balls of feet, knees straight, and legs pressing hard on No. 1's head. Figs. [47](#), [48](#).

MOUNT TO SHOULDER WITHOUT HANDS.

22. Position same as in No. 21, only No. 1 folds arms; and No. 2, taking a short run, mounts to shoulders without using hands.

LIFT TO SHOULDER.

23. Facing in same direction, No. 1 grasps No. 2's hands and lifts to shoulders, No. 2 doubling up close in order to bring his feet to No. 1's shoulders. For first part of movement see Fig. [57](#).

TO DISMOUNT.

24. No. 1 reaches up and grasps hands of No. 2, who jumps down between.

25. Both lean forward as far as possible; No. 2 jumps to feet, and both do a forward roll over.

BACK FROM SHOULDERS.

26. Mount as in No. 23; as No. 2 jumps, No. 1 assists by lifting hard. Fig. [49](#).

FRONT FROM SHOULDERS.

27. Mount as in No. 23; as No. 2 jumps, No. 1 assists by lifting hard. Fig. [50](#).

CROTCH BACK.

28. Facing each other, No. 1 places hands under No. 2's crotch, and lifts hard; No. 2 doing a regular back somersault. Figs. [51](#), [52](#).

CROTCH FRONT.

29. Facing in same direction. No. 1 grasps No. 2 by seat and lifts hard; No. 2 doing a regular front somersault. Fig. [53](#).

PULL TO SHOULDERS.

30. Facing each other, No. 2 leans forward, putting his hands between his own spread legs; No. 1 leans over and grasps No. 2's wrists; a quick pull lands No. 2 on his shoulders straddle seat. He then places his hands under thighs of No. 2, who, in turn, does a back somersault off, assisted by a slight shove from No. 1. Fig. [54](#).

31. Same as No. 30, only No. 2 puts his feet on No. 1's shoulders. Back or forward somersault off.

PULL TO SHOULDERS AND HAND SPRING OVER.

32. Position same as in Fig. [54](#). No. 1 grasps No. 2's wrists, pulls him up, and places his hands on his shoulders; No. 2 continues movement by hand spring over.

NECK LIFT.

33. Facing same way, No. 1 puts head between legs of No. 2, who leans back quickly, and No. 1 straightens up and tosses him over his head; No. 2 doing back somersault movement. Figs. [55](#), [56](#).

TWISTING BACK OVER HEAD.

34. Same as 33, only No. 2 throws head quickly to right or left, and alights with back to No. 1.

DOUBLE DIVE.

35. Facing, and 6 feet apart, No. 1 dives forward, and as his head rests on mat—that is, half way over—with feet well apart, No. 2 dives over, comes to feet quickly; each turns, and repeat movement.

TRIPLE DIVE.

36. No. 1 in middle and facing No. 2, No. 3 back of No. 1 and facing in same direction; No. 1 dives forward and No. 2 dives over No. 1 (as in No. 35); No. 3 immediately dives over No. 2, and No. 1 has turned and now dives over No. 3; No. 2 again dives over No. 1, and repeat as before.

LIFT AWAY HAND SPRING.

37. Facing in same direction, No. 1 grasps No. 2's hands and lifts him to standing position on shoulders; No. 2 jumps to mat between hands, and, without letting go, immediately

jumps straight up, doubling up as he goes, stiffening arms and pressing hard against hands of No. 1, who pushes up, straightening arms; No. 2 continues on through, and does a hand spring from No. 1's hands. Figs. [57](#), [58](#).

THREE JUMPS AND LIFT AWAY HAND SPRING.

38. Position same as Fig. [57](#), only No. 1 rests right knee on mat; No. 2 jumps over No. 1's right arm, and immediately back to first position, in same manner over left arm, then over head and back again; No. 1 now rises to feet immediately, No. 2 doing lift away hand spring as in No. 37.

39. Same as No. 37, only go straight from mat to hand spring without going to shoulders.

ONE LEG BACK.

40. No. 2 places right leg in No. 1's hands, leg horizontal, knee stiff; as No. 2 jumps and presses down with right leg No. 1 lifts hard, throwing him a back somersault. Figs. [59](#), [60](#).

LAY OUT BACK.

41. No. 1 interlaces fingers, palms up, and stoops well down, feet spread; No. 2 places hands on shoulders (also without placing hands on shoulders) and right foot in his hands, jumps, straightening right leg, and does a hollow back somersault, No. 1 lifting up hard. Figs. [61](#), [62](#).

LAY OUT BACK.

42. Same as No. 41, only No. 1 places hands behind back instead of in front.

GAINER LAY OUT BACK.

43. Same as No. 41, only No. 2 turns over No. 1's head, alighting on opposite side from which he started.

RUNNING FORWARD OVERHEAD.

44. Position of No. 1 same as in No. 41; No. 2 runs, placing hands on No. 1's shoulders, and right foot in hands, jumps, straightening right leg, and goes for regular front somersault, alighting with back to No. 1.

HAND SPRING TO SHOULDERS.

45. Facing each other, No. 1 bends knees slightly; No. 2 takes a run and places hands on No. 1's knees and does a hand spring up, assisted by No. 1 grasping him by hips. Now quick roll back from shoulders. Fig. [63](#).

HIGH ARM HAND SPRING.

46. No. 1 spreads feet and braces himself, bending knees and getting low; No. 2 takes a good run, places hands on shoulders of No. 1, who grasps his thighs and pushes him over for a hand spring. Fig. [64](#).

PULL UP AND BACK FROM HANDS.

47. Facing each other, and 6 feet apart, No. 2 rolls over and pushes his feet well up under him; No. 1 steps in, grasping No. 2's hands, pulls him up, and then pushes him up and away; No. 2, doubling up close, pushing hard with hands, throws head back and goes for back somersault. Figs. [65](#), [66](#).

BACK FROM BACK.

48. Facing in same direction, No. 1 bends over, placing hands on knees; No. 2 jumps to back, between shoulders, and does a back off, No. 1 lifting up hard. Figs. [67](#), [68](#).

FORWARD FROM BACK.

49. Facing each other, and about 20 feet apart, No. 1 stoops over, placing hands on knees; No. 2 runs and jumps on No. 1's back, between shoulders, and immediately goes for front somersault, as from spring-board, No. 1 throwing hard. Fig. 69.

HIGH HAND-TO-HAND HAND STAND.

50. Lift to shoulders, as in No. 23. From position of Fig. 91, No. 2 throws into hand stand.

MOVEMENTS FROM POSITION OF FLOOR

BACK FROM HANDS.

51a. No. 1 lying on back, hands close to head; No. 2 steps in No. 1's hands and does a back somersault, assisted by No. 1. Figs. [70](#), [71](#).

51b. Same as No. 51, only No. 2 takes a few steps and jumps in No. 1's hands, going for back immediately.

BACK FROM HANDS.

52. No. 1 sits on floor, feet spread, and places hands in front, palms up; No. 2 steps in hands as before, and back out.

FRONT FROM HANDS.

53. No. 2 places toes in No. 1's hands, and does a regular front, assisted by No. 1. Fig. [72](#).

TWISTING BACK FROM HANDS.

54. Same as No. 51, only No. 2 twists completely around by turning head to right or left as he goes over, and alights facing in opposite direction from which he started. Fig. [73](#).

HAND SPRING OVER FEET.

55. Clasp hands (do not interlace fingers), No. 1 placing feet on No. 2's body, No. 2 jumps, and No. 1 pushes hard with feet and keeps his arms stiff, No. 2 pushing off with hands as he goes over. Figs. [74](#), [75](#).

HAND SPRING FROM FEET.

56. No. 2 grasps No. 1's ankles and places feet against his body, same as in No. 55; No. 2 shoves hard from ankles as he goes over, keeping arms stiff in last part of movement, No. 1 also holding his legs stiff in last part of movement. Figs. [76](#), [77](#).

HAND SPRING FROM KNEES OVER HANDS.

57. No. 2 runs and places hands on No. 1's knees and hand spring over, No. 1 shoving his shoulders, if necessary, as he goes over. Fig. [78](#).

HAND SPRING FROM HANDS OVER FEET.

58. No. 2 steps in No. 1's hands and grasps the bottoms of feet of No. 1, who holds legs stiff while No. 2 does hand spring over. Figs. [79](#), [80](#).

BACK OVER FEET.

59. Standing close to No. 1's shoulders, No. 2 sits on his feet, leans back, and No. 1 pushes up hard; No. 2 doubles up for regular back. Figs. [81](#), [82](#).

TWISTING BACK OVER FEET.

60. Same as No. 59, only No. 2 throws head quickly to right or left and alights with back to No. 1.

SIDE OVER FEET.

61. No. 2 stands by side of No. 1, and sits on feet. Rest of movement same as in No. 59. Figs. [83](#), [84](#).

PITCH BACK FROM FEET.

62. No. 2 sits on No. 1's feet and lays back; No. 1 kicks vigorously, No. 2 doing regular back movement, and landing away from No. 1 on same side from which he started, not turning over No. 1 at all. Figs. [85](#), [86](#).

BACK FROM FEET.

63. No. 2 jumps on No. 1's feet, gets a perfect balance, and does a back off.

MOUNT TO FEET AND BACK OFF.

64. No. 1 lies on back, feet up, hands on outside of thighs; No. 2 places right foot on No. 1's left thigh, and presses inside of knee against No. 1's foot to steady himself. He then places left foot on No. 1's left foot and, without touching hands, comes to an erect position, then back somersault off. Figs. [87](#), [88](#).

HAND SPRING FROM ELBOWS.

65. Facing each other, No. 1 places hands on knees, bending over so that elbows project above back; No. 2 runs, places hands on elbows, and hand spring over. Figs. [89](#), [90](#).

HAND SPRING FROM SHOULDERS.

66. Mount to shoulders as in No. 23, then hand spring off. Figs. [91](#), [92](#).

PULL THROUGH TO FEET.

67. Facing in same direction, No. 1 in front, No. 2 rolls to position on back, arms folded, and straightens knees so that his feet can be grasped by No. 1, who pulls him through quickly on to feet. Fig. [93](#).

MISCELLANEOUS

HAND SPRING OVER HEAD FROM HIPS.

68. Facing each other, No. 1 places head between No. 2's legs and, grasping his knees, straightens up, throwing No. 2 over his head, who assists movement by placing his hands on No. 1's hips and pushing off hard, elbows stiff. Fig. [94](#).

JUMP TO SHOULDERS IN FOUR JUMPS.

69. No. 1 does a hand stand and roll down; No. 2 stands over him, feet on either side of thighs. No. 2 jumps on No. 1's back thighs and immediately jumps straight up, No. 1 coming to hands and knees, and No. 2 lands on No. 1's back just above hips; No. 2 again jumps straight up, and No. 1 comes to feet with hands on knees; No. 2 jumps up again, No. 1 comes to an erect position, and No. 2 lands on shoulders. Lean and roll over.

WALK AROUND.

70. Complete jump to shoulders as in No. 69; No. 1 bends and places right knee and then left on mat, now crosses feet and sits down, straightening legs out in front, then lies down, still holding and steadying No. 2 by ankles, who retains his erect position by standing on front of No. 1's shoulders; No. 1 brings legs up, feet well apart, and No. 2 steps on his right or left hock and mashes it down; No. 1 turns head to right or left and continues back roll, coming to hands and knees; No. 2 steps up immediately on his back and does two jumps to shoulders (lean and roll over, or back or forward somersault off).

DOUBLE ROLL OVER BACK.

71. Get into position as in No. 2; No. 1 presses hard on heels of No. 2, who comes up quickly and continues movement by rolling on over No. 1's back. Figs. [95](#), [96](#).

HAND STAND AND DOUBLE OVER.

72. No. 2 does a hand stand, and his ankles are grasped by No. 1, who stoops over quickly and assists No. 2 in turning the front somersault after leaving his shoulders, by pushing up hard on No. 2's ankles (called a double—the body only turns once and a half). Figs. [97](#), [98](#), [99](#).

TRIPLE ROLL.

73. Same as No. 4, only three men grasp each other's ankles and roll forward. Fig. [100](#).

BACK FROM THIGHS.

74. Facing each other, No. 1 squats, No. 2 placing hands on No. 1's shoulders; No. 2 jumps on his thighs, No. 1 catching him by calves; No. 2 does a back, assisted by No. 1 lifting and raising up. Fig. [101](#).

FRONT FROM THIGHS.

75. Facing in same direction, No. 1 stoops, and placing his head under No. 2's crotch lifts to shoulders, stoops and places No. 2's feet on his thighs (or No. 1 grasps No. 2's hands and lifts to thighs) and grasps his ankles; No. 2 straightens up and No. 1 pulls his head out, and as No. 2 jumps for his forward No. 1 assists by raising up and lifting hard with hands. Fig. [102](#).

THE BASKET.

76. From this position either a back or front somersault can be easily thrown. No. 1 grasps his left wrist with right hand; No. 2, same; each then grasps the other's right wrist with left hand, thus forming basket. Fig. [103](#).

KNEE THREE HIGH.

77. No. 2 lifts No. 3 on shoulders, No. 1 then lifts No. 2 (and No. 3), No. 3 straightens up and leans forward, No. 2 pulls head out and holds No. 3 in position by ankles, No. 2 now raises up slightly and leans forward and No. 1 pulls head out and, straightening up, completes the knee three high. No. 3 jumps down and rolls over, followed by No. 2 and No. 1 in quick succession. Figs. [104](#), [105](#), [106](#).

KNEE THREE HIGH AND FRONTS OFF.

78. Build three high as in No. 77. No. 3 does a front off, then No. 2, and No. 1 does a standing front. Fig. [107](#).

STILL MOUNT. (For Three High.)

79. (The object is for No. 2 to mount to shoulders without moving No. 1 from his tracks. This should first be practiced a number of times on the floor, and then on top of the horse or buck. When practicing a three high the top mount should always have around his waist a belt suspended from the ceiling the first few trials.) Facing each other and clasping hands, No. 1 pulls No. 2 (who jumps) on his feet, hands above head; No. 2 places left hand on top of No. 1's head, and clasps his right hand; No. 2 bends left leg and places his foot in No. 1's left hand; No. 1 pulls hard with right hand and lifts with left, No. 2 assisting himself by pressing hard on No. 1's head with left hand; No. 2 places right foot on No. 1's right shoulder and left foot on left shoulder, and comes to an erect position. Figs. [108](#), [109](#), [110](#).

THREE HIGH.

80. No. 2 mounts to No. 1's shoulders and grasps No. 3's hands (Fig. [111](#)) and pulls him to top of No. 1's shoulders; No. 3 continues on up by still mount. Lean and fall. Fig. [112](#).

EXTRACTS FROM LETTERS OF PROMINENT PHYSICAL DIRECTORS

New Haven, Conn.

W. G. Anderson, Associate Director Yale University Gymnasium: "I believe in 'tumbling' as an exercise. It makes a man quick, agile, and very sure-footed. It is a form of sport that is popular and perfectly legitimate when properly taught. We have no good book on the subject, but need one. If such a work is to be presented to those interested in this subject, it ought to be written by a man who has had much experience in actual tumbling, who is familiar with the mechanism of the body, and who is educated. Dr. James T. Gwathmey, of Vanderbilt University, Nashville, Tenn., is just the person to compile a book on this form of gymnastics. He is a clever performer, a teacher of wide experience, and an educated physician. I have looked over the MS. of the Doctor's new book, and I indorse it."

McGill University, Montreal, Canada.

R. Tait McKenzie, M.D.: "I am glad to find some one ready and able to draw the veil from a branch of gymnastics which the professional acrobat has so long kept shrouded in mystery. The reducing of the various feats of tumbling to a progressive sequence, and the analyzing of the various combinations, is indeed a difficult task; but your kinetoscope method of illustration will make clear what would otherwise require pages of description. Your work can not but assist any one of ordinary ability in mastering the rudiments of the art; but it will also appeal to the much wider field of all who admire acrobatics, and will give them some idea of the difficulties mastered by the professional, whose work they will more fully appreciate. I wish your book every success."

Ithaca, N. Y.

E. Hitchcock, Jr., M.D., Director of Department of Hygiene and Physical Training, Cornell University: "It has always seemed to me that this graphic method of instructing is the most useful, and I know that this subject in your hands will help enormously in instructing in a decidedly difficult branch of gymnastic work."

Amherst, Mass.

E. Hitchcock, M.D., Amherst College, Pratt Gymnasium: "In physical education, as in many other branches of mental and bodily training, there are some advanced branches which are adapted to the few and not the many. Acrobatic work is one of these. But it should be controlled, cultivated, and made good use of, like the other work, which may be undertaken by anybody. It is a pleasure to know that a manual on this subject is to be prepared and furnished for our use by one so capable to issue the book as is Dr. Gwathmey, of Vanderbilt University. We shall wait impatiently to get hold of it."

Amherst, Mass.

R. F. Nelligan, Instructor, Amherst College: "For sound men and boys tumbling is one of the best and most exhilarating of exercises, when practised under favorable conditions. Of course tumbling on a brick sidewalk differs from tumbling on a hair-stuffed mattress, with the aid of the safety appliances while learning. It has been said that one can not learn after reaching maturity. This is not so, as many first-class tumblers did not commence until after reaching twenty-five. At the age of thirty-two I was induced to take up tumbling under Dr. Gwathmey, and, with the aid of his safety appliances, succeeded in learning to do fairly well over fifty different movements and combinations."

Kansas City, Mo.

Carl Betz, Supervisor Music and Physical Training, Public Schools: "Your book, 'Tumbling for Amateurs,' which you have announced, will undoubtedly be hailed with delight by thousands of young American men who seek and find recreation in this particular kind of exercise. The photographs that will illuminate the pages of your book will be of intrinsic value to amateurs, who usually have no expert teacher to explain to them minutely each step of the exercise. If the element of danger in tumbling is greater than is consistent with the needs of physical education, as some claim it is, then your book, giving such minute instructions, and photographs of the body passing through the different stages of each exercise, cannot fail to reduce that danger to a degree which every interesting gymnastic exercise must contain. I therefore cheerfully recommend your interesting and timely little book to all who may wish to learn and practice the delightful pastime of tumbling."

St. Louis, Mo.

William A. Stecher, Secretary Technical Committee, Nord Amerikanischer Turnerbund: "I think that your undertaking is a very commendable one; for I believe that the greater the control a person has over his body—and tumbling undoubtedly increases this—the better off he is. I wish you all success."

Milwaukee, Wis.

Frank Pfister, M.D., Editor Mind and Body: "Received your favor of the 7th inst., and congratulate you upon the idea of publishing a manual on tumbling, for nothing recommendable exists in that line."

Springfield, Mass.

Luther Gulick, M.D. ("History of Physical Training"), International Y. M. C. A. Training-School: "Your letter of the 7th is at hand, with the excellent cuts that were inclosed. You ought not to charge less than one dollar for the book. I do not know but what you could get more. I shall be very glad to purchase a copy of the book as soon as it is published. Please let me know."

Chicago, Ill.

G. W. Ehler, Physical Director of the Y. M. C. A. of Chicago, Central Department: "There is a necessity for a good book on tumbling, as there is none now in print to my knowledge; and I believe that such a book would meet with a very hearty reception by physical directors and by others who are interested."

Boston, Mass.

Robert J. Roberts: "I approve of your idea of getting out such a book as you speak of. I would keep out the dangerous exercises; or, if you put them in, hedge them in so that amateurs will not use them. There is no kind of physical work that will so harmoniously develop every part of the body as tumbling."

OFFICIAL RULES FOR ALL ATHLETIC SPORTS.

Spalding New and Improved Worsted Jerseys

Following sizes carried in stock regularly in all
qualities: 28 to 44 inch chest.
Other sizes at an advanced price.

Jerseys are
being used more
and more by
base ball
players,
especially for
early Spring and
late Fall games.
The Spalding
line includes a
complete
assortment of
styles and
qualities.

We allow two inches for stretch in all our Jerseys, and sizes are marked accordingly. It is suggested, however, that for very heavy men a size about two inches larger than coat measurement be ordered to insure a comfortable fit.

STOCK COLORS PLAIN COLORS—The following stock colors are supplied in our worsted jerseys (NOT Nos. 6 or 6X) at regular prices. Other colors to order only in any quality (EXCEPT Nos. 6 and 6X), **25c.** each extra.

Gray
Orange
Black
White
Maroon
Scarlet
Cardinal
Navy Blue
Royal Blue
Columbia Blue
Peacock Blue
Dark Green
Olive Green
Irish Green
Pink
Purple
Yellow
Seal Brown
Old Gold
Drab

No. 1P.	Full regular made; that is, fashioned or knit to exact shape on the machine and then put together by hand, altogether different from cutting them out of a piece of material and sewing them up on a machine as are the majority of garments known as Jerseys. Special quality worsted. Solid stock colors.	Each, \$4.50
No. 10P.	Worsted, fashioned. Solid stock colors,	Each, \$3.00
No. 12P.	Worsted; solid stock colors.	Each, \$2.75
No. 12XB.	Boys' Jersey. Worsted. Furnished in sizes 26 to 36 inches chest measurement only. Solid stock colors only. No special orders.	Each, \$2.00

Nos **1P, 10P** and
12P

SPECIAL NOTICE *We will furnish any of the above solid color Jerseys, (except Nos. 6 and 6X) with one color body and another color (not striped) collar and cuffs in stock colors only at no extra charge.*

Spalding Cotton Jerseys

No. 6.	Cotton, good quality, fashioned, roll collar, full length sleeves. Colors: Black, Navy Blue, Gray and Maroon only.	Each. \$1.00
No. 6X.	Cotton, same as No. 6, but with striped sleeves in following combinations only: Navy with White or Red stripe; Black with Orange or Red stripe; Maroon with White stripe.	Each. \$1.25

Woven Letters, Numerals or Designs

*We weave into our best grade Jerseys. No. 1P. Letters,
Numerals and Designs in special colors as desired.
Prices quoted on application. Designs submitted.*

SPALDING IMPROVED MEDICINE BALLS

An excellent form of exercise for
business men

Weigh from four to eleven pounds. The covering is of selected tan leather, sewn in the same manner as our foot balls. Quality throughout has been much improved and the balls as now made are extremely durable. The exercise consists of throwing ball to one another, and the catching of it develops the chest, exercises the back, arms, legs; in fact, improves the whole system.

No. 11.	4-pound Ball.	Each,	\$5.00
No. 12.	6-pound Ball.	"	6.00
No. 13.	9-pound Ball.	"	7.00
No. 14.	11-pound Ball.	"	10.00

Home Apparatus

“One of the aims of physical training is to make exercise interesting and enjoyable. To be beneficial in the highest sense it must be recreative. Particularly is this true of physical exercise for business men. As a class, in their daily work, they are kept on a constant mental strain. Besides, they are, to a large degree, physically inactive. Life becomes too intense, too serious, too sordid. Exercise therefore, for business men, must be largely recreative, relaxing and restful.”—*Extract from Spalding Athletic Library, No. 262 —“Exercises with the Medicine Ball.”*

SPALDING HAND BALLS

Hand ball, played indoors, will keep base ball players and other athletes in good condition during hard weather when outdoor athletics are out of the question.

The leather covered hand balls we make are wound by hand, and are the same as those used by the best ball players in this country.

No.	Match, regulation size and weight, leather

Sandow's Patent Spring Grip Dumb Bells

EUGEN SANDOW,
Patentee.

A. G. SPALDING & BROS.

SOLE AMERICAN AND CANADIAN LICENSEES

An entire system of Physical Culture is embraced within the exercises possible with these wonderful dumb bells.

The bells are made in two halves connected by steel springs, the effort necessary in gripping compelling the pupil to continually devote his whole mind to each movement. This concentration of will power on each muscle involved is what is responsible for the great results obtained through properly exercising with them.

Sandow's Patent Spring Grip Dumb Bells

No. 6.	MEN'S. Nickel-plated; fitted with seven steel springs.	Per pair,	\$3.00
No. 4.	LADIES'. Nickel-plated; fitted with five steel springs.	Per pair,	\$2.50
No. 2.	BOYS'. Nickel-plated; fitted with four steel springs.	Per pair,	\$2.00

We include with each pair of Sandow Dumb Bells a chart of exercises by Sandow and full instructions for using. Also a piece of selvyt cloth for keeping dumb bells in good condition.

No. 4. LADIES'

No. 2. BOYS'

Home Apparatus

“It is not so important to have big muscles as it is to have good digestion; it is not so important to have powerful muscles as it is to have a strong, regular heart; it is not so important to have great skill with one’s muscles as to have good lungs and kidneys.”—*Extract from Spalding Athletic Library No. 161—“Ten Minutes Exercise for Busy Men.”*

The value of a few minutes’ exercise daily with scientific and properly designed apparatus, is rapidly becoming apparent to the vast number of business men who find it simply impossible to take regular outdoor exercise.

Spalding Gold Medal Indian Clubs

Home Apparatus

“If a Man gets plenty of food, and his digestive apparatus works it up into good rich blood; if the heart is strong and regular so that this good blood goes to all parts of the body with vigor and regularity, and if the respiratory and excretory apparatus is in such good order that this blood is kept pure, the fundamental conditions of health are laid.”—*“Extracts from Spalding Athletic Library No. 161.”*—*“Ten Minutes’ Exercise for Busy Men.”*

Rational exercise with simple but correct apparatus will enable almost any man to arrive at approximately a correct state of health.

THE SPALDING TRADE-MARK IS PLACED UPON
EVERY GENUINE SPALDING ARTICLE. ACCEPT NO
SUBSTITUTE.

Spalding Home Apparatus

Exercise acts on the health of an individual in the same way as the draught does on the fire in a furnace. Pile on the coal and shut off the draught and you kill the fire. Continue to eat heavy meals and take no exercise and your health will be affected, not because of the food you have eaten so much as on account of the lack of exercise. A little exercise is all that is necessary to keep you in good condition. Some rational, pleasant and interesting exercise, persisted in with regularity and, preferably, with Spalding Home Apparatus, will help you to retain your health.

An ideal machine for home use. Well made and easy running. Rods are $\frac{3}{8}$ -inch coppered spring steel. Bearings are hardened steel cone points running in soft, gray iron, noiseless and durable. Weight carriage packed with felt, good for long wear, but easily removed and replaced when necessary without the use of glue or wedges of any kind. Weight carriage strikes on rubber bumpers. Weights are 5-pound iron dumb-bells, one to each carriage, and may be removed and used as dumb bells. Wall and floor boards are hard wood, nicely finished and stained. All castings heavily japanned. Every part of machine guaranteed free of defect.

Spalding Chest
Weight No. 2

No. 2. Each, **\$5.00**

Spalding Chest Weight No. 12

Showing important
details of
Construction of No.
12 Machine.

We have just added this very well made machine to our line. Cast iron parts are all nicely japanned. The wheels are iron, turned true on centers, and have hardened steel cone point bearings. The guide rods are spring steel, copper-plated. The weight carriage has removable felt bushings, noiseless and durable. Each handle is equipped with 10 lbs. of weights.

No. 12. Each, **\$10.00**

The Laflin Friction Rowing Machine

Do not
use oil on
friction
cylinder. If
its action is
not
perfectly
smooth a

little clear soap rubbed on its surface will properly correct its action. The means used to produce the resistance is a simple friction clutch, which takes instant hold at the commencement of the stroke and retains the pressure till its completion, when it instantly releases it precisely as in a boat. Quickly taken apart without loosening any bolts or screws. Each machine is adjustable to any amount of friction or resistance.

No. 119. Complete, \$16.00

Home Apparatus

The apparatus listed in this catalogue is designed particularly for private use; i. e., in homes and private gymnasiums. It retains the same superior marks of quality which distinguish the regular line of gymnasium apparatus manufactured by A. G. Spalding & Bros., but its distinctive design permits it to be sold at a price more in keeping with its use than heretofore obtainable, without any sacrifice of practical value or durability.

Kerns' Rowing Machine

Suitable alike for the Athlete or the ordinary Man or Woman

The ideal boat for home use and training purposes. Used by the leading athletic clubs, colleges and prominent oarsmen of the world, and pronounced the most perfect rowing machine ever produced. Fitted with the Kerns' Patent Roller Seat and

Shoes, the shoes having a three-inch adjustment, to suit either a tall or a short person. By turning a thumb-nut the belt can be tightened to any desired degree, and more or

Operated just like rowing a boat

less friction thrown into the running parts, imitating the resistance which exists when forcing a row-boat through the water. The weaker sex can use the machine by simply loosening the thumb-nut which reduces the resistance; and on the other hand, by reversing the operation the resistance can be so increased that the strongest athlete can have any amount of resistance. The oars are pivoted in such a way that the operator can handle and turn them the same as he would during the return and feathering motion with a boat oar.

No. 600. Kerns' Patent Single Scull Rowing Machine Each, \$30.00

The Spalding Automatic Abdominal Masseur

A Safe and Sure Cure for Constipation and Other Kindred Ailments

Useful for treatment of constipation, based upon the principle of muscular contraction (the force which nature uses). By its mechanical arrangement, it effectually applies force in the same direction that nature does, and will gradually discard the use of cathartics. Only a few moments' use at the proper time is necessary before its effects will be felt. Its action upon the liver and stomach is equally as prompt and effective, and derangements of these organs are speedily remedied.

N. E. cor. 15th and Locust Sts., Philadelphia, Pa.
A. G. SPALDING & BROS. May 24th, 1906.

Gentlemen: I have used the Spalding Automatic Abdominal Masseur in my practice for over fifteen years. I have found it of great benefit in chronic constipation and indigestion. Your improvement increases its value.

Very truly yours, WALTER A. FORD, M.D.

The Spalding Abdominal Automatic Masseur. Complete, **\$10.00**

Spalding Home Gymnasium Board

A Complete Gymnasium for the Home on one Board

Convenient, does not take up much room, is always ready, and is really the most compact, simplest and best arrangement for providing a complete set of home exercising apparatus that has ever been devised.—CONSISTS OF

	Board with attachments for fastening to floor of room so that walls need not be marred.	\$10.00
	Spalding Abdominal Masseur.	10.00
No. PR	Spalding Adjustable Striking Bag Disk.	5.00
No. 2	Spalding Chest Weight Machine, including pair of 5-lb. Dumb Bells.	5.00
No. 14	Spalding Striking Bag.	1.50
Complete, all attached,		\$31.50.
<i>Board itself will be furnished separately if desired.</i>		Each, \$10.00

Board only is fastened to floor. Braces padded with leather, so that walls will not be damaged. Can be put up in any room with a ceiling 8 ft. high. As the complete outfit is made up and carried in stock by us, equipped as noted above, we cannot supply board with different articles already attached.

Leather Covered Shot—For Abdominal Massage

- No. A. Consists of an iron ball, which is wound with electric tape and is then covered with a very soft and smooth grade of horsehide. It is made in either 6 or 8 lbs. weight.

Each, **\$5.00**

Spalding Bar Stalls

This apparatus is particularly adapted for use in the home, as it is compact, of simple construction, and may be used for the greatest variety of movements affecting every part of the body, and especially abdomen and chest movements. May be erected against wall, behind a door, or against any other flat surface. Dimensions are eight feet high, thirty-six inches wide and extends six inches into the room.

No. **20H**. For home use. Per section. **\$8.00**

Spalding Bar Stall Bench

Hard pine, strong and substantial. Top is padded with hair felt, canvas covered. It is preferable, for sanitary reasons, that this canvas be painted (a special elastic paint

is used), unless otherwise specified, stock benches will be so furnished.

Durand-Steel Lockers

Wooden lockers are **objectionable**, because they attract vermin, absorb odors, can be easily broken into, and are dangerous on account of fire.

Lockers made from wire mesh or expanded metal afford little security, as they can be easily entered with wire cutters. Clothes placed in them become covered with dust, and the lockers themselves present a poor appearance, resembling animal cages.

Durand-Steel Lockers are made of finest grade furniture steel and are finished with gloss black, furnace-baked japan (400°), comparable to that used on hospital ware, which will never flake off nor require refinishing, as do paints and enamels.

Durand-Steel Lockers are usually built with doors perforated full length in panel design with sides and backs solid. This prevents clothes in one locker from coming in contact with wet garments in adjoining lockers, while

Some of the 6,000 Durand-Steel Lockers installed in the Public Gymnasiums of Chicago. 12" x 15" x 42", Double Tier.

Six Lockers in
Double Tier

plenty of ventilation is secured by having the door perforated its entire length, but, if the purchaser prefers, we perforate the backs also.

The cost of Durand-Steel Lockers is no more than that of first-class wooden lockers, and they last as long as the building, are sanitary, secure, and, in addition, are fire-proof.

Three Lockers in
Single Tier

THE FOLLOWING STANDARD SIZES ARE THOSE MOST COMMONLY USED:

DOUBLE TIER

12 × 12 × 36 Inch
15 × 15 × 36 Inch
12 × 12 × 42 Inch
15 × 15 × 42 Inch

SINGLE TIER

12 × 12 × 60 Inch
15 × 15 × 60 Inch
12 × 12 × 72 Inch
15 × 15 × 72 Inch

SPECIAL SIZES MADE TO ORDER.

We are handling lockers as a special contract business, and shipment will in every case be made direct from the factory in Chicago. If you will let us know the number of

lockers, size and arrangement, we shall be glad to take up, through correspondence, the matter of prices.

Prices in effect January 5, 1910. Subject to change without notice. For Canadian prices see special Canadian Catalogue.

The following selection of items from their latest Catalogue will give an idea of the great variety of ATHLETIC GOODS manufactured by A. G. SPALDING & BROS. SEND FOR A FREE COPY.

Standard Policy

A Standard Quality must be inseparably linked to a Standard Policy.

Without a definite and Standard Mercantile Policy, it is impossible for a manufacturer to long maintain a Standard Quality.

To market his goods through the jobber, a manufacturer must provide a profit for the jobber as well as the retail dealer. To meet these conditions of Dual Profits, the manufacturer is obliged to set a proportionately high list price on his goods to the consumer.

To enable the glib salesman, when booking his orders, to figure out attractive profits to both the jobber and retailer, these high list prices are absolutely essential; but their real purpose will have been served when the manufacturer has secured his order from the jobber, and the jobber has secured his order from the retailer.

However, these deceptive high list prices are not fair to the consumer, who does not, and, in reality, is not ever expected to pay these fancy list prices.

When the season opens for the sale of such goods, with their misleading but alluring high list prices, the retailer begins to realize his responsibilities, and grapples with the situation as best he can, by offering

“special discounts,” which vary with local trade conditions.

Under this system of merchandising, the profits to both the manufacturer and the jobber are assured; but as there is no stability maintained in the prices to the consumer, the keen competition amongst the local dealers invariably leads to a demoralized cutting of prices by which the profits of the retailer are practically eliminated.

This demoralization always reacts on the manufacturer. The jobber insists on lower, and still lower, prices. The manufacturer, in his turn, meets this demand for the lowering of prices by the only way open to him, viz.: the cheapening and degrading of the quality of his product.

The foregoing conditions became so intolerable that, ten years ago, in 1899, A. G. Spalding & Bros. determined to rectify this demoralization in the Athletic Goods Trade, and inaugurated what has since become known as “The Spalding Policy.”

The “Spalding Policy” eliminates the jobber entirely, so far as Spalding Goods are concerned, and the retail dealer secures his supply of Spalding Athletic Goods direct from the manufacturer under a restricted retail price arrangement by which the retail dealer is assured a fair, legitimate and certain profit on all Spalding Athletic Goods, and the consumer is assured a Standard Quality and is protected from imposition.

The “Spalding Policy” is decidedly for the interest and protection of the users of Athletic Goods, and acts in two ways:

FIRST—The user is assured of genuine Official Standard Athletic Goods, and the same fixed prices to everybody.

SECOND—As manufacturers, we can proceed with confidence in purchasing at the proper time, the very best raw materials required in the manufacture of our various goods, well ahead of their respective seasons, and this enables us to provide the necessary quantity and absolutely maintain the Spalding Standard of Quality.

All retail dealers handling Spalding Athletic Goods are required to supply consumers at our regular printed catalogue prices—neither more nor less—the same prices that similar goods are sold for in our New York, Chicago and other stores.

All Spalding dealers, as well as users of Spalding Athletic Goods, are treated exactly alike, and no special rebates or discriminations are allowed to anyone.

Positively, nobody, not even officers, managers, salesmen or other employes of A. G. Spalding & Bros., or any of their relatives or personal friends, can buy Spalding Athletic Goods at a discount from the regular catalogue prices.

This, briefly, is the “Spalding Policy,” which has already been in successful operation for the past ten years, and will be indefinitely continued.

In other words, “The Spalding Policy” is a “square deal” for everybody.

A. G. SPALDING & BROS.

By *A. G. Spalding*
PRESIDENT,

Standard Quality

An article that is universally given the appellation “**Standard**” is thereby conceded to be the Criterion, to which are compared all other things of a similar nature. For instance, the Gold Dollar of the United States is the Standard unit of currency, because it must legally contain a specific proportion of pure gold, and the fact of its being Genuine is **guaranteed** by the Government Stamp thereon. As a protection to the users of this currency against counterfeiting and other tricks, considerable money is expended in maintaining a Secret Service Bureau of Experts. Under the law, citizen manufacturers must depend to a great extent upon Trade-Marks and similar devices to protect themselves against counterfeit products—without the aid of “Government Detectives” or “Public Opinion” to assist them.

Consequently the “Consumer’s Protection” against misrepresentation and “inferior quality” rests entirely upon the integrity and responsibility of the “Manufacturer.”

A. G. Spalding & Bros. have, by their rigorous attention to “Quality,” for thirty-three years, caused their Trade-Mark to become known throughout the world as a Guarantee of Quality as dependable in their field as the U. S. Currency is in its field.

The necessity of upholding the guarantee of the Spalding Trade-Mark and maintaining the Standard Quality of their Athletic Goods, is, therefore, as obvious as is the necessity of the Government in maintaining a Standard Currency.

Thus each consumer is not only insuring himself but also protecting other consumers when he assists a Reliable Manufacturer in upholding his Trade-Mark and all that it stands for. Therefore, we urge all users of our Athletic Goods to assist us in maintaining the Spalding Standard of Excellence, by insisting that our Trade-Mark be plainly stamped on all athletic goods which they buy, because without this precaution our best efforts towards maintaining Standard Quality and preventing fraudulent substitution will be ineffectual.

Manufacturers of Standard Articles invariably suffer the reputation of being high-priced, and this sentiment is fostered and emphasized by makers of "inferior goods," with whom low prices are the main consideration.

A manufacturer of recognized Standard Goods, with a reputation to uphold and a guarantee to protect, must necessarily have higher prices than a manufacturer of cheap goods, whose idea of and basis for a claim for Standard Quality depends principally upon the eloquence of the salesman.

We know from experience that there is no quicksand more unstable than poverty in quality—and we avoid this quicksand by Standard Quality.

*** END OF THE PROJECT GUTENBERG EBOOK
TUMBLING FOR AMATEURS ***

Updated editions will replace the previous one—the old editions will be renamed.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

START: FULL LICENSE

THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at www.gutenberg.org/license.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of

this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg

work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the

Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any

alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, "Information about donations to the Project Gutenberg Literary Archive Foundation."
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.

- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR

NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of

certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for

generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public

domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility: www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
