KEY TEW THE ABUV PERFORMANCE.

Tew kno exackly whare the sighn iz, multiply the day ov the month bi the sighn, then find a dividend that will go into a divider four times without

enny remains, subtrakt this from the sighn, add the fust quoshunt tew the last divider, then multiply the whole ov the man's boddy bi all the sighns, and the result will be jist what yu are looking after.

BILLINGS' FAMILY TIME TABLE.

Amazi begot Hezaki, Hezaki begot Eldad, Eldad begot Behomath, Behomath begot Zepheniah (*Zepheniah waz a conumdrum maker, sum ov which hav been handed down down*), Zepheniah begot Ezekiel, Ezekiel begot Issacher (*Issaker waz a bad speller, which haz bin handed down too*), Issaker begot Nehemiah, Nehemiah begot Methuseler, Methuseler begot Nabob (*Nabob waz a snob*), Nabob begot Jerrymiah, and Jerrymiah begot Absolum Billings (*who is admitted bi every boddy who remembers him tew be the most humblyest looking man in the 9th Century*). Absolum begot Josh, and so they kept bizzy begotting.

After the Billings family once struck the front name, *Josh*, they clung tew it. I find over 6 hundred ov that name extant, besides a grate menmy who haz bekum extanted.

The Billings hav bin a helthy old breed az fur back az i have dug for them, which they owe principally tew a milk diet. It iz sed that Behomath Billings, one ov our pristines, could drean a cow perfektly dry at one sitting. If this iz so, it helps explain the great amount ov milk in the Billings natur.

I dont find enny old bachelors, nor old maids, amung our ansesstors, inkrease and multiply haz alwus bin the battle cry of the Billings.

OPINIONS OF THE PRESS

AFTER SEEING THE ADVANCE SHEETS OV

Josh Billings' Farmers' Allminax

FOR THE YEAR 1870.

"We seldum notis the current Amerikan literature ov the day, but the Billings Allminax, soon tew be issued by Carleton, is a work for the mothers of the Amerikan Union."—*London Times*, June 6th, 1869.

"Josh Billings' Farmers' Allminax iz az phull ov gems az a diamond neklace, az phull of knowledge az Webster's Spellin Book, and az phull of cooking and cures az a parson's wife."—*London Atheneum*, May 31st, 1869.

"The virtewous thoughts in Josh's Allminax iz gin cocktails for the idle, and brandy straights for the viscious."—*Atlantik Semi-Monthly*, May 3d, 1869.

"The Billings' Allminax will prove a rare acquisition tew Amerikan literature; the astronomikal calculashuns are unique, the language elegant, the moral perfekt, the sentiments just, and the whole thing extremely bully."—*Boston Ledger*, May 1st, 1869.

"In theze daze of tawdry novels, imbecile poetry, and florid historys, it iz charming tew take up such a brilliant thing az Josh Billings' Farmers' Allminax, whare philosophy and sentiment frolik together, and whare wit sits in state, with one arm around the waist ov morality."—*Omaha Patriot*, July 4th, 1869.

JANUARY MONOGRAPH.

This month waz named after one Janus, a sharp sighted old chap, with a face like a pikaxe, so that he could look both ways at once, back onto the old year, and forward onto the new one. At the latter part ov his life he died of a thaw, leaving a snug little property, sum six or seven hundred dollars, which akordin tew one ov the bye-laws ov hiz will, waz invested in tin back thermometers, and distributed among the suffering poor ov his native village, az mementoze ov Janus.

DOMESTIX RECEIPTS.

Tew find the square root ov a hog's noze, turn him into a gardin patch.

Tew enjoy a good reputashun, giv publickly, and steal privately.

Tew remove grease from a man's karakter, let him strike sum sudden ile.

Tew giv oysters an extra good relish, eat them at sumboddy else's expense.

Tew git wrong things out ov yure child's head,—comb it often.

FEBUARY MONOGRAPH.

This month haz but 28 days, the extreme kold weather that prevails haz puckered up the month. Once in four years thare iz a big melt and then the month swells, and haz 29 days. This month iz looked upon az unpleasant, and it iz unpleasant for digging out woodchucks, but for setting in front of the fire, and skinning apples, and snapping the seeds at the galls, it kant be beat. The name ov this month is derived from an old Chinese word (now lost) which means *condem kold*.

USEFUL HINTS TEW BOARDIN HOUSE KEEPERS.

In buying roast beef, dont forgit, that roast beef, tew be bully, must be tuff.

Be kerful how yu soke yure makrel, too mutch sokeing, takes the wear out ov them.

In selekting a yung goose for yure table, dont forgit tew remember, that the longer a goose has lived in this world, the more experience he will hav, when he cums tew be chewed.

Keep a cow, and then the milk wont hav tew be watered but once.

Q.—What iz the best kure for lazyness?

A.—Milking a cow on the run, and living on the milk.

*Bring out yure bran nu cutter,
And git yure galls consent,
Then hitch up Dobbin, or sum other
kruttur,
And let the animile went.*

MARCH MONOGRAPH.

This month derives her pedigree from the Danish verb "*Whizz*," which means to blow, to wheeze, to snort, to pitch in endways, and crossways, to shake winder blinds, to smash barn doors, to skare pigs, to brake clothes lines, to make men sware, and wimmin balky. March iz principally immense for wind, but whare it all cums from, and whare it all goes to, are prize conumdrums which i kant untangle Dogs kreated this month invariably hav the bark on.

ATTENSHUN FARMERS.

Rathbun's "Old oaken bucket washing masheen." For washing, bleaching, bileing, wringing, starching, blueing, hanging out, drieing, ironing, marking, fluting, and folding clothes, this lovely masheen haz no competitor in the male, or femail world. This iz the only masheen in the western hemisphear, that takes the inside cloth oph from a man's back on the keen jump, and puts it back agin, in 15 minnits, washed, dried, ironed, starched, the buttons sowed on, and the collar turned down. Ask for Rathbun's Old oaken bucket washing masheen, and keep asking till yu git it, and when yu hav got it, hug it tew yure buzzum.

Q.—Will yu please to define suicide?

APRIL MONOGRAPH.

"April, dear April, chuck full ov
charms,
Cum, cum, oh cum, tew mi arms,"

thus warbled the poet, more than twelve thousand years ago, and he knew his bizz, he had the right sting in him, he want none ov yure pedigree poets, nor dispepshee poets, nor whiskee poets.

Dandylions planted this month are almost sure tew hed out, so are tud stools, so are hed cheeze. This month iz also helthy for planting onions, onions are a luxury, and are good for a bad breth, or are bad for a good breth, i hav forgot which, but either way iz right.

VALUABEL ADVICE TEW YUNG SPORTSMEN.

■ In fishing for musketoze dont wait for them tew bite the seckond time.

■ The best bait for bed bugs, iz tew sleep three in a bed.

■ The best mark for target praktiss iz an old maskuline goose, one goose will last yu for five years shooting, and when he finally gits struck with lightning, and begins tew perish, yu kan melt him up, and git out the lead.

■ The best kind ov a spear, for bullfrogging, iz a four tined dung fork, when you git the tines all full, shoulder the fork, and put for home.

MAY MONOGRAPH.

May iz the belle ov the year, she haz worn the belt for five thousand years. If May hadn't hav been a sensible girl, she would hav bin spilte long ago with poetry and stanzy. But she is an independant kriter, and dont care one kuss for stanzy. This iz an eazy month tew fall in love, our naturs are now fully thawd out, after the late kold snap, and like a little melted brook, begin tew look around, tew find another little melted brook tew mix with. Oh! how precious and delightsum it iz to mix. Hive bees during this month, if yu hav got sum, if not, hive sumboddy else's.

PATTENTS ISSUED DURING 1869.

Feb. 1st. To Ambrose Griddle, Esq., a pattent for a hen's egg, which beats the natral egg for awl purposes, except, cooking, hatching, and eating.

April 13th. To Ezra Push, Jun., a pattent for a one wheeled velosipede. This wise instrumentality haz two handles tew it, and iz purswaded by taken hold ov the handles, and walking between them with a shove moshun. If it wasn't a velosipede, it would be an old fashioned wheelbarrow.

March 10th. To David Gibson, for a pattent goose yoke. These yokes are packed in cotton wool, and sent bi express all over the face ov the earth, they are sudden tew yoke a goose with, and no goose should be without one.

JUNE MONOGRAPH.

June iz twin sister tew May, lacking a month. She iz named after Juno, the spouze ov Jupiter, and she waz a stirring woman. June iz the mother of rozes and milk. June iz the stepmother of good gras butter, she iz also grate granmother ov Bakon and Spinnage. June iz a praktikal gusher, and i love tew stand one side, and let her gush,—i hav made it a rule never tew git in the way ov a gush ov enny kind,—i say tew everything, gush! oh, gush!

WORDS TEW HOUSEWIFES.

To make a cheap soup, take 5 drops ov good strong onion juice, add 2 gall's ov water, bile 10 minnits karefully, and season with a couple ov phatt cockroches.

To make a hoe kake, take a hoe and bile it tew a thin jell, and then,—let her kake

Tew skin a Eel, turn him inside out, and remove the meat with a Jack plane

Tew make a hen lay 2 eggs a day, reazon with her; if that dont dew, threaten to chastize her if she dont.

Tew learn yure offspring to steal, make them beg hard for all that yu giv them.

Q.—Whi are robbers like rain?

A.—Bekauze they fall on the just and the unjust.

*Now bate yure hook, and find a
brook,
Where water runs the fasstest,
Thare lays the trout, jist jerk him
out,
And chuck him in yure basket.*

JULY MONOGRAPH.

July iz the sixth month, which ackounts for its being so near the middle ov the year. It derives its name from "Julos" a hot old phellow, who settled near the equator, at an early day, and kept every boddy in hiz naberhood, in a profound swett. July haz menny features ov *interest*, the *principle* one ov which, iz, the payment ov semi-annual *interest*, by most ov the banks, on the fust day ov the month, upon their *principal*. This iz a fine old custom, and i hope it will be kept up, for i own a leetle bank stock, and take sum *interest* in the *principle*.

A NEW TOOL.

"Rogers grate western hoss rake."

John Rogers revolving, expanding, uncerimonius, self-adjusting, self-contrakting, self-sharpening, self-greasing, and self-righteous Hoss Rake, iz now, and forever, offered tew a generous publik. Theze rakes are az eazy tew keep in repair az a hitching post, and will rake up a paper ov pins, sowed broad kast, in a ten aker lot ov wheat stubble. Theze rakes kan be used in the winter for a hen roost, or be sawed up into stove wood for the kitchen fire. No farmer, ov good moral karakter, should be without this rake, not even if he haz to steal one.

AUGUST MONOGRAPH.

This month, for sum reazon, haz got a hot way ov doing things. Awl natur unties her corsets and loafes bi the side ov brooks, with stockingless feet, tew ketch the cool words ov singing waters, and watch the bubbles ov sweet, that rize on the noze ov the green frog, az they set down on themselves, on the moss upholstered stones.

Butter spreads itself freely during this month. Snakes slip eazy, and Cupid crawls behind the shadder ov a dieing roze, and shutes hiz gun at the galls, and boys.

THINGS WORTH KNOWING.

Tew milk a kicking cow, stand oph about 10 foot, and holler "*So I* darn you."

Tew make light bread, do az the bakers do,— call 9 ounces a pound.

Tew make oxtale soup, bile an ox in a pot, and let the caudel continuation hang over the edge ov the pot and drip.

SEPTEMBER MONOGRAPH.

September iz named after "Septus" which thrashed out into Amerikan, means seven. I wouldn't take 500 dollars for the latin i know, and i don't kno mutch nuther. Sept. iz a lakadaisikal month, mello az the de kayed side of a punkin, and as sensitive az a boarding school miss, during her fust quarter in french. Natur makes her will this month—hogs root violently—birds hold convenshuns, and adjourn down south—tree toads boost each other up trees and warble sum anthems—katydids chew musick and spit it out freely, and bull frogs post their books.

MORE ADVICE TEW YOUNG SPORTSMEN.

In shooting at a deer that looks like a calf,
always aim so az tew miss it if it iz a calf,
and to hit it if it iz a deer.

In fishing for krabs, use yure fingers for bait,
yu kan feel them when they fust bite.

Dont fire at a bumble bee on the wing, not till
he settles, then take good aim, and knock him
endways.

In bobbing for Eels, use a raw potato, yu may
not bag much Eels, but yu kan bag a bob, that
yu kan hand down tew yure ancestors
untarnished.

There are but fu sights in this
 life: more sublime, and pathetick
 than to see a poor, but virtuous
 yung man, struggling—with
 a mustash.=

OCTOBER MONOGRAPH.

October iz one ov the fall months, Adam iz sed tew hav fell this month, but sich assershuns are like standing oph a half a mile, in a cloudy day, and guessing at the number ov fleas on a dorg, more sincere, than sartain. The strongest attrakshun for me, in this month, iz her natral cider; the man who don't admire good natral cider, must be a condem phool.

Prepare for a hard winter during this month, bi repenting ov yure sins, and gitting up a good big wood pile.

PECK'S CHURN, AND BRISTOW'S SOWING MASHEEN.

Theze churns are the pride ov invenshun, the genius ov improvement, a viktory over time, and a conquest ov labor. They will fetch butter from cream in 2 seckonds, from milk in 2 minnits, and from water, inside ov a very short time. Better be without a spellin book, or even a pack of kards, in a growing family, than not tew hav one ov Peck's Churns. Peck iz a philanthropist, every housewife in the world, should put on a clean white apron, hold up both hands on high, and shout, Bully!! oh! Bully! for Peck.

Buy Bristow's double-thread, cross-stitch, rivet-seam, dovetail-hemmer, lighting-movement, krank-moshun sowing masheen. Theze masheens took all the premiums at the late lamented Paris imposishun, and one ov them, which waz sent tew a farmer in Tiogy county last fall, on trial, sowed up the whole family in a hard not, in less than three days, besides sowing fourteen acres of winter rye.

NOVEMBER MONOGRAPH.

Everyboddy wants tow be sassy at November—to turn her the cold shoulder—tew nuss all their old akes anew—tew look az sour az a pot-bellyed pickle—tew hunt for a kat's tale tew step at,—but i aint! November iz when i harvest mi happiness, when i gather into mi pious korn krip, the moral sowing ov the whole year. I am only sorry for one thing during the month ov November, and that iz, that i am sich a poor, weak, unsartin, sinnerly cuss, and that mi nabers aint much better than i am.

DECEMBER MONOGRAPH.

This iz the last month in the Josh Billings Farmers Alminax. Other dutys, ov a maskuline natur hav forced us tew haul in our gang plank. We would like tew hav hung on a month or two longer, and made a big thing ov it. Dear Reader we must part, and it iz like pulling angleworms out ov their holes, almost sure tew part the angleworms. I shall think ov yu az long az i liv, please tew resiprokate, when yu remember me, by uttering a tear. I hav taken a kontrakt tew remove the muskeeters from the State ov Nu Jersee, west of the Rocky Mountains, tew their new reservashun, and i am anxious tew git the bulk ov them started before they thaw out. I may lose mi life in the undertakin, but i have bin told by good judges, that it is sweet tew die for ones country. I kant tell whether this iz so or not, i never tried it. Good bye, this kussid muskeeter kontrakt iz wearing on me.

(Unless they are too much stuck up

It iz put up in sticks twenty feet long,
To stick a man at a distance.

EXTRA EKLIPSES FOR THE YEAR 1870.

There will be eklipses this year which have been overlooked by other Allminax makers.

First.—Thare will be semiockasional eklipses ov the moon, kauzed bi brandy smashes gitting between that virtewous and pale old woman, and the eyes ov sum ov our most promising young men.

Second.—There will be a few eklipses ov the Son, kauzed bi the old gentleman cutting oph the supplys ov Charles Fitz Henry Augustus. (Bully for the old gentleman.)

Third.—Thare will be domestik eklipses (visibel only tew the naked eye) kauzed bi the new Comet Sorosis jumping out ov her pasture, and cantering around promiskuss.

Fourth.—Thare will be teetotal eklipse during the whole of the *Year 1870*, ov all other Allminax, throughout the earth, upper and lower kanada, and sum parts ov Nu Jersee, kauzed bi the immense circulashun ov the JOSH BILLINGS' FARMERS' ALLMINAX.

Yordunk Valley Rail Road.

RULES, BY-LAWS, AND REGULASHUNS.

1. Conduktors are positively forbid trieing tew pass each other on a single track.
2. Passengers are warned ov the great danger ov standing on the platforms, —menny a promising man haz lost hiz life by having a platform drop from under him.
3. Positively no droves ov cattle or swine allowed on this road unless they are travelling the same direckshun the trains are.
4. Engineers are earnestly requested tew keep their cow ketchers well greased, and will bear in mind that when a cow iz ketched the hide belongs tew them; but the beef and tallo iz tew be sent immejiately tew the president of the road.
5. Enny switchman running a train oph from the trak will be find 10 dollars, and interest on the fine at the rate of 4 per cent per annum untill the fine iz paid.
6. No konduktor iz invited tew remain on this road 10 minnits who hasn't heard ov the 10 commandments, espeshily the one which sez "*thou shalt not spondulick thyself with the dimes ov another.*"
7. No charges made on this road for coroners' inquests.

HOW THEY DO TALK

ABOUT

Josh Billings' Farmer's Allminax

FOR THE YEAR 1870.

"Giv me liberty, or giv me deth, but if i kant hav either, giv me Josh Billings' allminax for 1870."

"It kured mi wife ov wanting to die."

"It iz like peper sass in a hot day."

"The Billings Allminax will go fater in a family than 12 dozen ov ginger popp."

"When i am sad and lonely, i fli tew its pages, like a bumblebee tew a full blown dandylion."

"It gave me grate presence ov mind."

"My wife brings up her ophspring, and duz
all her plain sowing bi yure allminaxes."

"How cooling, and perforating it iz."

THE NATRAL HORNET

The hornet iz a red hot child ov natur, ov sudden impreshuns, and a sharp konklusion. The hornets alwus fites at short range, and never argy a case, they settle all ov their disputes bi letting their javelin fly, and are az certain, and az anxious tew hit, az a mule iz. Hornets bild their nest whereever they take a noshun to, and seldum are asked to move, for what would it profit a man tew murder 99 hornets, and have the one hundred one hit him with hiz javelin. I kan't tell you jist tew a day how long a hornet kan live, but I kno from experience, that every bug, be he hornet or sumboddy else, who iz mad all the time, and stings every good chance he kan git, generally outlives all ov his nabors.

DOMESTIK RECEIPTS.

To make good ginger-snaps, take one pound
of ginger, stir in a half dozen ov lively snaps,

do them to a brown, and then lock them up,
or the yung ones will hook them.

To learn a dog tew follow well, tie him tew
the hind end ov an express train.

To find out whether a man has got a good
moral karakter or not, ask him pleasantly.

To cure herring,—use Godfrey's Kordial.

THE PROMISCUSS COCKROACH.

The Cockroach iz a bug at large. He iz one ov the luxurys ov civilizashun. The Cockroach iz born on the fust ov May, and the fust ov November semi-annually, and iz reddy for use in fifteen days from date. They are born four from each egg, and consequently they are all twins; thare iz no sich thing in the annals ov natur, az a single cockroach. Their food seems to consist, not so mutch ov what they eat, az what they kan git into, and often finding them ded, in the soup, at mi boarding house, I have cum tew the painful conclushun, that the cockroach kan't swim, but that he kan float for a long time.

HINTS TEW YUNG WIFES.

1. Don't undertake tew liv with yure mother-in-law, but if wuss cums tew a wussness, let yure mother-in-law liv with yu.

2. Never let yure husband kno more than one haff the affeckshun yu hav for him.

3. Don't name a yung one after a bachelor brother, nor a bachelor sister.

4. Observe theze rules fondly, keep yure feet dri, and yure hair slick, and yu will prove a model wife, (and after that), an acceptable widder.

THE UNIVERSAL SWINE.

The Swine, (almost always) hav four legs, tho thare iz sum remarkable exceptshuns to this rule. Swine are good quiet boarders; they alwus eat what is sot before them, and don't ask enny phoolish questions. The Swine kan be larnt a great menny amusing things, sich az highsting the front gate oph from the hinges, and finding a hole in the fence to git into the cornfield, but it iz dredful hard work for them tew find the same hole tew git out at, espeshily if yu are in a hurry to hav them. This haz never bin fully explained, but speaks vollums for the swine. Swine can all root well, a swine that kant root well, iz a poor job.

HINTS TEW YUNG HUSBANDS.

1. Marriage iz a fair transackshun on the face of it.

2. Sum marry for buty, and never diskover their mistake; this iz lucky.

3. Sum marry for pedigree and feel big for six months, and then cum tew the conklusion, that pedigree aint no better than skim-milk.

4. Sum marry tew please their relashuns and are surprized that their relashuns don't kare a cuss for them afterwards.

5. Marry Yung!—thare iz but one good
excuse for a marriage late in life, and that iz,
—a seckond marriage.

THE GRITTY ANGLEWORM.

Angleworms are ov earth, earthy, and crawl for a living. The angleworm, tho full of grit, iz not quarrelsome. It is sed (by naturalists) that angleworm ile, rubbed on the back ov the neck will cure a man ov lieing. I don't beleave this, unless it kills the man. Death is the only safe cure (that haz bin diskovered yet) for the falssehood disseaze. Angleworms are used by sum people az an artikle ov diet—to ketch fish with). They are handy tew put onto a hook, and are dredful handy tew take oph agin, az every wicked person knows who haz fished all day Sunday for daice in a mill-pond.

And thus has ketched her final ducking.

THE BELLYCOSE GOAT.

The Goat iz a coarse wollen sheep, with a cracked voice and a sanguine digestion. They had rather steal a rotten turnip out ov a garbage barrell than cum honestly bi a peck ov oats. They strike from the hed insted ov the shoulder, and are az likely tew hit the mark az a bumblebee iz. They are faithfull kritters in the hour ov adversity, and will stick tew a man az long az he lives in a shanty. They kan klimb evrything but a greased pole, and are alwus poor in the boddy, but phatt in the stummak. What they eat seems tew all go tew appetight. A phatt Goat would be a literary curiosity.

THE MELODIUS CAT.

The cat hath been called a domestik animile but i never could tell whyfore. All thare iz domestix about a cat iz, yu kant loze one; they are as tuff to loze az a bad reputashun iz. Yu may send one out ov the state done up neatly in a meal-bag, and the next morning yu will find him along side ov the kitchen stove reddy tew be stepped on. They are az sollum az Mozes, but az phull ov the devil as Judas Iskariott Esq. Thare iz only one thing about a cat that i like, and that iz, they are very reasonable; a little money, well put, will go a grate way in cats. Cats are very plenty in this world just now I counted 18 from mi boarding house windo, one moon lite nite last summer, and it want the best kind ov a nite for cats neither.

THE BRINY CODFISH.

The codfish iz the fruit ov the oshun, which accounts for their being so salt. They are good eating for a wet day; they are better than an umbreller to keep a man dry. They want a good deal ov freshning before they are eaten, and want freshning a good deal afterwards.

If i can have plenty ov codfish for breakfast, i can generally manage tew make the other two meals out of cold water.

MELKISIDEK BREWSTERS LIGHTNING ROD.

For drawing lightning, theze rods hav grate strength and endurance.

They will draw litening from the uttermost parts ov the earth, or pull it in two.

Yu may bury one of theze rods 10 foot under ground, and litening will hunt till it finds it.

Yu mite az well undertake tew eskape natral deth, or a constable's warrent, az tew eskape litening with one ov theze rods ov yure house.

Buy one ov Melkasidek's rods, and if yu haint got enny house tew put it on, you kan set it up at the forks ov the road, and steal all the litening in the naberhood.

THE FREQUENT FLY.

The fly iz not only a domestik critter, but a friendly one. How they git born i don't kno, but i hav thought they didn't wait tew be born, but come just az they am. Menny ov them are cut off in the flower of their youth, and usefulness. Sum loze their lives by lighting too near the rim ov a toad's mouth, and fall in when the toad gaps. Thousands find a watery grave, bi gitting drowned,—in milk-cans. Flys morally considered are like other human beings, they wont light on a good helthy spot in a man, not if they can find a place that iz a little raw. I beleave they are ov temprate habits, and altho they hang around grocerys a good deal, i never see a fly the wuss for liquor, but i hav often seen liquor, that waz a good deal the wuss for flys.

THE READDY ROOSTER.

Roosters are the pugilists among birds, and having no suitable shoulder tew strike from, they strike from the heel. When a rooster gits whipped the hens all march off with the other rooster if he aint haff so big, or so hansum. It is pluck that wins a hen. Roosters az a class wont do enny household work; yu kant git a rooster tew pay enny attenshun tew a yungone. They spend most ov their time in crowing and strutting, and once in a while they find a worm, which they make a grate fuss over, calling their wives up from a distance, apparently tew treat them, but jist az the hens git thare, this elegant cuss bends over, and gobbles up the worm.

Jist like a man for all the world!

HOUSEHOLD COMFORTS.

Tew git rid ov cockroaches,—sell yure house,

Tew pick out a good husband!—shut up both
eyes, grab hard, and trust in the Lord.

Tew make a kat mad,—trod on her

THE LOAFING RACCON.

The Raccon iz a native amerikan. His family consists ov one wife, and three children, who liv with him on the inside ov a tree. During the winter he ties himself up in a hard knot, and lays down bi hiz fire side. When spring opens, he opens too, and goes out tew see how the chickens hav wintered. I never knew a raccon tew want enny thing long, that he could steal quick. I hav had tame coons bi the dozen, but i dont advise enny boddy tew cultivate coons; they want as much waiting on az a blind mule on a tow path, and thare aint enny more real proffit in them, than thare iz in a stock dividend, on the Erie railroad.

The Fox iz a literary bird; he waz a genius long before akedemick honors flourished; he waz a poet, skoller, and sage, before the days ov Homer and Herodotus; and in our times he iz the Ben Butler ov diplomacy, and the Brigham Yung ov matrimonial ethicks. The fox haz no moral honesty but he haz got a grate supply of *politikal honesty*. If another Fox in hiz parish wants a good phatt goose, he will work hard tew git him the goose, and having cleaned the meat all oph from the subburbs ov the goose, giv hiz politikal friend the bones, telling him with a smile in hiz eye, "*that every thing iz lovely and the goose hangs hi.*"

KALKULASHUNS OV A PROGNOSTIX NATUR.

Whenever yu see a flok ov geese all standing on one leg, except the old gander, and he chawing hiz cud, look out for a south-west wind tewmorow, or the next day, or the day after, or at sum fewter time.

Should thare be cold weather during Febuary, and should roosters refuse to crow, and the taxgatherer forgit tew call on yu, yu will hav tew trust in Providence, and go it blind, for thare aint no man kan prognostix what will cum next.

Whenever dogs are seen travelling around with nothing to do and old maids refuse their tea, and hop vines wont klimb, and grind stuns wont grind, then yu may expekt a lite crop ov oats, and beans wont pay for harvesting.

If the sun rizes in the east, and sets in the west, and the bull frogs sings sams in the marshes, and thare aint no pulling hair in the family circle, things are about az near right az yu can git them.

Should there be no dew on the grass, in the morning before sunrise, it iz an infallible prognostix, that thare didn't enny dew fall.

Whenever yu see two crows on the railfence, one white and the other black, edgeing up to each other, look out for a nigger in the wood pile.

LETTER TO FARMERS.

Beloved Farmers:

Agrikultur iz the mother ov farm produce; she iz also the step-mother ov gardin sass.

Rize at haff past 2 o'clock in the morning, bild up a big fire in the kitchen, burn out two pounds ov kandels, and grease yure boots.

Wait pashuntly for da brake. When day duz brake, then commense tew stir up the geese and worry the hogs.

Too mutch sleep iz ruinous tew geese and tew hogs. Remember yu kant git ritch on a farm, unless yu rize at 2 o'clock in the morning, and stir up the hogs and worry the geese.

The happiest man in the world iz the farmer; he rizes at 2 o'clock in the morning, he watches for da lite tew brake, and when she duz brake, he goes out and stirs up the geese and worrys the hogs.

What iz a lawyer?—What iz a merchant?—What iz a doktor?—What iz a minister?—I answer, nothing

A farmer iz the nobless work ov God; he rizes at 2 o'clock in the morning, and burns out a haff a pound ov wood and two kords ov kandels, and then goes out tew worry the geese and stir up the hogs.

Beloved farmers, adew.

HOROSKOPE FOR JANUARY.

The yung gentleman born this month will remane a bachelor untill hiz 16 year, and will hav kurly hair. He will finally settle down still, and marry for life. Hiz father will be a grate lover ov phast horses. He will liv tew be over 60 years ov age, and die worth about 750 dollars, klear ov awl debt.

The yung lady born this month will kno how tew pla on the pianner, and nit worsted. She will be a blondy, and be near sited, and fall in luv with grate diffikulty. She will finally git wedded tew the man she marrys, and her

whole life will be eazy. If she marrys the seckond time her husband will be a dentist or an alderman.

ADVICE TEW YUNG KLERGYMEN.

Dont preach the gospel for less than 850 dollars a year, salary payable quarterly in advance.

A congregashun who kant afford tew pay 850 dollars a year, want a missionary more than they do a klergyman.

Be sure and run the church; don't let the church run you.

Az i sed up at the top, git az mutch ov yure salary az possible in advance, for i dont kno ov enny det so hard tew kollekt az a minister's salary, after it once gits kold.

HOROSKOPE FOR FEBUARY.

The man born this month will be good looking, but too mutch prone tew toe in when he walks. He will hav 2 wives, and a small hand, except when he plays whist; then he will hav a big one. Hiz fust wife will be kross-eyed, but hiz seckond one will be kross all over. He will hav 4 children, who will all pass through the meazles, with grate credit tew themselves and no disgrace tew the meazles.

The yung female born during this month will show grate judgement in sorting her lovers, and will finally marry a real estate agent. She will hav a phew failings; but who cares? she wouldn't be interesting if she didn't. At 28 she will be a widow, and at stated intervals will be inklined tew gush a little. *(For the sake of variety we say, let her gush.)*

A GOOD FAMILY JOB.

(To kure bed bugs.)

Bile the bed bugs tew a gravy; then take equal parts ov sassyfrass rutes and mingle with the gravy; then find a hoel in the ground that aint occupied; then pour the gravy into the hoel; then fasten up the hoel with 2 pounds ov gunpowder; then tutch off the hoel with a 10 foot poel; then run like litening. If this don't kure the bed bugs, and the hoel too, they hav both got it the natral way, and kan't be healed.

The man born this month will be inclined tew blow a little. He will be a domestik man, and will kno how to rok the kradle and pare potatoze. He will marry the only daughter of a widdo, and will be a good judge of mothers-in-law. He will die about the usual time in life, and leave a house and lot, with a small mortgage on it. He never will run for offiss but once, and then will git beat.

The woman who appears this month will be an old maid till she is 20 years old, and then will sudenly put a stop tew this kind ov bizzness, by investing in a yung man. She will be a good housekeeper, and kno how tew make a plum puddin, with the plums left out. She will hang on to her buty till she iz about 45; after that, she will hav to take her chances.

HOROSKOPE FOR JUNE.

The male individual born during June will be one of 7 children, but not the only one. He will hav 3 brothers, and one sister, who will marry a hard shell baptist preacher. He will studdy law, and enter the profeshun with gilt edge prospekts, but his fust klient being a counterfiter, whom he succeeds in gitting clear, and receiving 50 dollars in counterfit money for his services, disgusts him with the bizzness.

The female who appears on the platform this month will alwus hav cause tew wonder whi she did it. Her father will be a skool teacher, and he will bring her up in the distrikt skool bizzness. At 29 years and six months she will marry, and will be well edukated in the dutys ov a wife, for she will understand Daball's arithmetik, and parseing, just az eazy az falling down the cellar stairs. She will hav but one son, and he will be edukated oph from hiz feet at an early age.

HOROSKOPE FOR JULY.

The man mortal who cums tew the scratch this month will be a grate lover ov politikal life, and after menny stormy trips will settle in hiz natiff village a konstable, elekted by 19 majority. He will liv tew be ripe with old age, and hiz posterity will wonder how he managed tew spend a whole life in politiks, and keep out ov state prizon. (*Hiz posterity probably aint aware that a term in state prizon iz a good kard tew run for offiss on.*)

The girl born this month will flash like a streak ov yello sunshine. She will be sought after like the balm ov menny flowers. She will hav poetry for breakfast, and spend the rest ov the day on zephyrs and chocalate karamels. The man who gits her for a wife will change into a butterfly, and the two will be seen, sum sweet nite this month, flieing away to the song ov the crickets.

ADVICE TEW YOUNG MEN.

Dont be diskouraged if yure mustash dont gro; it sumtimes happens whare a mustash duz the best, nothing else duz so well.

Dont be afrade ov enny thing that iz honarable, and dont forget that the best friend that God haz given enny one iz hiz conscience.

If you hav got sum wild oats (and a phew

HOROSKOPE FOR AUGUST.

The gentleman born this month will hav one eye to the main chance, and the other eye on the collaterals. He will be sharper than good cider vinegar, and will go at a transackshun like a skotch tarrier at a rat hole. He will be az honest az a hornet, and make az few blunders. He will liv tew be old. Hiz wife will die young—tired out trying tew keep up with him.

The feminine creashuns ov this month will be grate admirers ov the sterner sex. They will fall in luv easy, but will make az phew blunders az enny other wimmin. They will be guided bi the impulses ov their naturs, which in most wimmen iz a safer card than their judgements. If I hadnt got one ov the best wifes that the world haz yet produced, I should be inclined to ask (humbly) for one ov the *August-as*.

HOROSKOPE FOR SEPTEMBER.

The man born this month will be what iz called a wit. He will be az phull ov wit az a bottle ov ginger-pop. He kant hardly wait to hav the cork pulled out, and when the cork iz pulled out it will take a 2 quart bowl to hold a haff pint ov the phizz. He will make jokes which will be az natral az blunders, and will keep hiz whole family (inkluding the hired girl) betwixt a suprise and a guess. He will hav a house phull of children, who will be the best jokes he perpetrates.

The lady born this month will be mistress ov the situashun. She will hav menmy admirers, but will lead them a dusty chase. After a while she will marry, and bekum az serious az a white mice in a wire trap. Her husband will be az proud of her az a third lutenant ov hiz fust epaulettes. Her children will be brought up to toe the mark, and, tho different from all the other wimmin in the naborhood, she will be admired more than reproved.

ADVISE TEW HOSS JOCKEYS.

Never swop hosses with a deakon—not if yu belong tew the same church he duz.

If yu hav got a hoss that you ask 200 dollars for, and are offered 75 dollars for him, alwus sell him; dont spile a good hoss trade for 125 dollars.

If you should, bi acksident, git hold ov a sound hoss, git shut of him az soon az yu kan, for yu wont be happy with him.

If, in swopping hosses, yu git kornered, and kant lie, postpone the trade untill next day.

Noboddy ever expekts tew buy a hoss without gitting cheated; tharefore, if a hoss jockey dont lie, he loses one ov his blessed privileges.

AGRIKULTIBUSS.

1st. Skarsity beets are the hardest kind ov beats to beet; their grate skarsity makes them beet all other kind ov beats.

2d. Turnups should be planted near the top ov the ground, if yu want them tew turn up good.

3d. Egg plants iz good, but eggs sot under a stiddy hen will produce more chickens than they will tew plant them.

4th. Potatoze are gennerally a helthy krop, but they are liable tew hav weak eyes.

5th. Cowcumbers do the best in a lot bi themselves; it aint best tew cumber up a kitchen gardin with cows.

6th. Oats will gro on sum warm land, but tew yield well they hav got tew be thrasht; it iz jiss so with beans, only beans has got to be poled fust, and thrasht afterwards.

7th. Rye duz the best on a dry and thirsty sile,
espeshily old rye; too mutch water will
drown out old rye.

8th. Tud stools will do well on a wet earth; so
will tuds; but woodchucks must hav a
gravelly sile.

SUM WEATHER.

SINOPSUSS OV PROGNOSTIKATED EVENTS.

The byrometer will rize very sudden this morning at Pordunk, 3 foot, and fall the like amount at Sakramento City. The diffikulty in the weather for the last 2 days, which haz predominated at Boston and around New Orleans, waz owing tew the byrometer at Pordunk being took down and sent tew the blacksmith's shop for repairs.

Clear weather haz existed at Goose kreek, and northwest ov Montreal, with a growing tendency tew wind gustiness.

PROBABILITIZ.

Ambrozial weather will permeate all around Pordunk for the next 16 months, with rain and snow; and all sorts ov stuff in the ballance ov the United States of America.

The probabilitiz iz that the abuv probabilitiz will assimilate themselves tew the principal probabilitiz in the case.

If they don't, du notiss will be giv.

In the mean time be kalm, be dignified, and don't be skeered.

JANUARY MISCELLANY.

ARIES, THE ZODIAK RAM.

Aries is a latin ram. He is kompozod ov wool all over, and horns in front. How Aries, the ram, got into the zodiak bothers me to this day, but he probably jumpt in out ov sumboddys back lot. This is all owing tew bad fences. Aries waz born soon after the diskovery ov this world by Kaptain Kook, the perambulator. Since the days ov Aries the hydraulik ram haz been born, a very hard ram tew fleece. Aries haz the post ov honor among the sighns in the zodiak, and presides over the head ov the human anatomy. This iz a just kompliment tew hiz kapacity for putting a hed onto things. Aries, the ram, tho he haz no literary pretenshuns, haz made menny brilliant hits in hiz day.

KODFISH BAWLS.

The intimacys ov old age seem tew konsist in drinking yung hi-son tea together, and compareing gouts and rumatizms.

One ov the most reliable proph-ets i kno ov, iz an old hen, for they don't prophecy enny egg, untill after the egg haz happened.

I kno ov folks who are so kondem kontrary, that if they should fall into a river, they would want tew float up stream.

Politeness iz not only the cheap-est, but the most powerful argu-ment I kno ov.

Money well spent iz well in-vested.

FEBUARY MISSCELLANY.

TAURUS, THE ZODIAK BULL.

One ov the best behaved animiles in the whole zodiak is Taurus the zodiak bull. He is alwus laying down flat sunning himself. He dont hav ennything tew employ hiz mind with only in fli time. Fli time iz alwus a bizzy time with Taurus. The bull down here nowdaze iz a sour headed old codger who goes swareing up and down the turnpike about sumthing, but in the daze ov Virgil he had golden horns, and poetry in hiz veins. Menny folks hav asked me what on earth they wanted a bull in the zodiak for, and i hav always sed, it waz just az necessary az tew hav bulls in Wall street. This always seemed tew satisfy their questions prodigiously. Taurus governs the nek in the sighns ov the zodiak, which haz giv rise to that tender, and klassikal sentiment, called "*bull necked.*"

MARCH MISCELLANY.

CANCER, THE ZODIAK KRAB.

Cancer iz a hard sheld krab, and haz 2 sets ov leggs, which are lokated on the starbord side ov their pussons. Cancer travels on hiz muscle, and thare aint no individual sighn in the zodiak ov hiz size kan whip him. I hav studdied the krab clussly, and et him sloly, and I dont kno him yet. Crabs bight with their feet, and hang on like the rumatiz. Biled krab is good but a man must eat them bi the day, he would starve to deth eating them bi the job. Krabs are kaught bi tieing a knot onto the end ov a string, and dropping it down into the water whare the krab iz, and when yu haul in the string, perhaps yu hav krab, and perhaps yu hav knot. This iz the way a grate menny things in this world are not kaught. In the zodiak Cancer rules the brest. I should rather hav a blister plaster in mi buzzum than a krab or a cancer.

One ov the best preserved females ov the age iz Virgo the Virgin. She dont look an hour older than she did in the spring ov 1818 when i fust saw her. Virgo haz lite blu eyes and yellor hair, and i should esteem her to weigh about 117 pounds. Virgo haz menny admirers, and report sez, she haz had menny good trades offered her (one waz a duke) but she deklines matrimony. I congratulate her spunk. If she haz got a good lone hand i like to see her play it, even if she gits ukered. I hope Virgo will remain whare she iz for life, for she iz the only sighn in the zodiak that i love tew witness. Thare iz one thing about Virgo that pleazes me wonderful, and that iz, when the grecian bend waz raging on earth, and crooking most all the other wimmin, she never bent a bit. Hallelujah! for Virgo.

SKORPIO, THE ZODIAK SKORPION.

Next to the hornet, the skorpion seems tew me to be pretty mutch all ded loss. I never had mutch faith in enny kind ov a kriter who waz bilt only tew bite. Skorpions do the best in a hot naberhood. If a man should take all the skorpions in the world up into the northern part ov Nu Hampshire he would loze money on them. They wouldn't thaw out thare in time for bizzness. I never hav seen a skorpion only in the zodiak, and i aint sorry for this. If thare should ever be a fite in the zodiak i hope it will be krab and skorpion. This would be a fite in which no one would care whitch whipt. I kant tell yu just now how the skorpion got aboard ov the zodiak, but bi looking at hiz piktur i should say he stood 2 good chances tew do it, one waz tew enter hed fust, and the other waz to change ends and go in that way.

PISCES, THE ZODIAK FISHES.

Pisces are the only two fishes we hav enny account ov who hav bin able tew swim on land and not tutch bottom. It iz now over 4000 years since they cum ashore and took lodgings in the zodiak. It haz alwus been a fish-bone ov kontenshun among the natral philosophers whether they belong tew the kodfish, or the sucker family. I hav bin asked mi opinyun on this topick a 100 thousand times, but hav alwus maintained grate solemnity on the subjekt. It is alwus mi way when i dont kno nothing about enny thing, to look learned, and smile wisdom. Mi private opinyun iz, that pisces iz a pikerel, or a porgy, or a perch, and weighed originally about 9 pounds, but i dont want to bet on this. I kant tell whether Pisces would bite on an angleworm or not, but i think thare iz sum law aginst fishing in private ponds. Pisces iz a game fish, but what hiz game iz i dont kno, but probably hi lo Jak, or draw poker.

AUGUST MISCELLANY.

AQUARIUS, THE ZODIAK WATERMAN.

Aquarius duz the sprinkling pot bizzness for the zodiak. He kan be seen enny klear day up in the zodiak laying the dust which the other zodiakers kik up. He iz a quiet old gent about 5 foot 6, and wears a wool hat, and a bull's eye watch. Who hiz ansestors waz no one kan tell. He iz an old bachelor now, but they tell me, up in the zodiak, that he alwus takes the most pains when he sprinkles in front ov Virgo. Thare iz a tradishun in Pordunk, that Aquarius was once a tempranse lekturer, but gitting too thin for the bizzness waz translated, and sot to sprinkling in the zodiak. Aquarius haz charge ov the leggs amung the sighns in the zodiak, and i notis that water iz better for the legs than sum other fluids i know.

Sagittarius iz the William Tell ov the zodiak. He kan hit an apple on the top ov Virgo's hed 200 paces oph, and not only halve the apple into quarters, but knock the seeds 27 different direkshuns. He wins the cigars at all the target excursions in the zodiak. In shooting at a muskeeter once who had lighted onto the tail ov Leo, he aimed a leetle too delikate, and dekapitated the dorsal extenshun ov Leo. This waz looked upon bi all the other phellows in the zodiak az a supplementary shot. Leo waz laid up in the horsepittol for 6 months, but hiz codicil gru out about 2 foot more than it waz before. Sagittarius iz the comik genius ov the zodiak, and on fourth of Julys shutes pennys oph from a stik, injun fashion. In the zodiak sighns Sagittarius oversees the thighs, but for what I dont seem tew kno.

OCTOBER MISCELLANY.

LIBRA, THE ZODIAK SCALES.

Sixteen ounces to the pound wrongs no man. I dont want enny better evidence that things are strikly on the square in the zodiak than the fakt, that they keep a pair ov skales up thare, and they are alwus level. Thare iz a grate deal ov native honesty in a pair of skales. When i begun life, i looked upon every boddy az honest az a pair ov skales, but the skales hav dropt oph from my eyes since, and i begin tew look upon things more az they am. I look upon every man now az strikly honest, who kan prove it. I want honesty weighed out to me just az i do mi sassage, 16 ounces tew the pound. Honesty that lacks an ounce in every pound aint worth a kuss. The ounce that iz lacking iz just what beats us. In the zodiak concern Libra holds the reins over the anitomikal hoss.

THINGS THAT KAN BE DID.

One ov the smartest things a man kan do, iz to drink peper sass.

One ov the safest things a man kan do, iz to ride a saw hoss.

One ov the surest things a man kan do, iz tew slip up on the ice.

One ov the lazyest things a man kan do, iz tew eat soup with a fork.

One ov the longest things a man kan do, iz to long for perfekt happiness.

One ov the handyest things a man kan do, is
to giv hiz note for 90 daze.

NOVEMBER MISCELLANY.

LEO, THE ZODIAK LION.

Leo iz the only real lion that haz been allowed tew run around loose among folks. Thus far he haz abstained from human flesh. Thare iz a report in the zodiak that he and Taurus had sum words about 15 thousand years ago, but i kant git hold ov the fakts in the case. Leo waz born in the smart little village ov Numidia in the state of Africa, ov unknown parents, and iz now 260 thousand years old. Leo will probably end hiz days in the zodiak, and i hav looked at Leo's piktur in the zodiak gallery and dont hesitate tew rekomend him az a good job for all in search ov a disinterested lion. The lion iz like an auckshioneer in one respekt, hiz grate strength lays in hiz jaw. In the sighns ov the zodiak Leo akts on the heart, and this ackounts for the human heart being so tuff. Next to the gizzard, the heart iz the tuffest piece ov meat in the whole human kriter.

I have asked several literary people if they would tell me whoze two children the Gemini waz, but they all shook their heds, and begun tew whissell. Maybe they thought i waz a kondem phool. I would just like tew know all about this. Thare iz 2 things in this life for which we are never fully prepared, and them iz twins. The zodiak twins are a kupple ov nice little phellows, if their piktur aint mistaken on the subjekt I never hav saw them only in their pikturs. Twins are two very interesting aksidents tew happen in sumboddy elses family, but one twin at a time suits me the most. In the zodiak sighns, the Gemini akt on the arms. I have alwus noticed that when a person haz twins the sighns are in the arms.

He waz born, az near as i kan figger, about the year 1200, more or less. Hiz temper iz represented az being az even az the figger 2. Hiz habits were az pure az the mountain dew; he never drinkt enny spiritous rum, nor root elevators. He went barefutt untill hiz 32d year, and ever afterwards

luved the naked futt. He waz a good danser, and realized thozе blessed old shake downs, now gone and fled. He waz named after the original Adam, and iz sed, bi them who remember them both, tew resembel him mutch in the kast ov hiz face. He waz too fond ov the marvelous, he wouldn't tell a lie exackly, but he could cum az near tew it, az a swallo kan to a frog's noze, when they skim a mud puddle. Adam Billings iz now ded, i beleave, but if he aint, and this should meet hiz eye, he kant, i think, but admire the square manner in which his lovely relik haz handled his case. Adam Billings didn't leave much reputashun behind him, but what he did leave, is fair tew middling. We nee'r shall see him more. Probably not. Too true. Rather melankolly than otherwise.

ZEPHENIAH BILLINGS.

HIZ MEMORANDUM.

Zepheniah Billings waz a phiddler bi birth and purswashun. He also had another natral gift, and that waz tew owe everyboddy. Late in life he quit phiddling, and took up shumaking; but the world lost a good phidler bi the operashun, and got a kussid poor shumaker. Oh! 'tis ever thus. At hiz final deth he owed upwards ov 70 dollars, and hiz leavings konsisted ov one old phiddle, and a pint ov bass wood shupeg. He would travel on foot 7 miles tew a kuntry tavern, and phiddle all nite at a kuntry bawl for 75 cents, and owe the landlord two dollars and a half nex morning for vittles and drink. Zeph' was an unprofitable man to know, for he couldn't tend an evening meeting, on sunday, without running into det to sumboddy. It waz sed ov him, that he waz never known tew shed a tear or pa a det. He died finally, and i presume he was saved; but he may hav bin lost, for accidents will happen in the uppermost familys. He had a cool hed, and a warm harte. Bless Zepheniah Billings, he was a ripe skollar on the phiddle, and could pla "*Tare her down Sal*," and sich dear old sweet-savoured things, klean up tew perfekshun. He haz gone now, allass! allass! but i am prepared tew say, in the language ov another, "Bully for yu, Zepheniah!" All flesh iz grass. So iv'e bin told. Funny. Mutch.

JEHOSSAPHATT BILLINGS.

HIS MEMORANDUM.

Jehossiphath Billings waz a very kluss man; he never waz known tew waste ennything, by giving it away. The grate extravaganse ov hiz life, and the one he never forgot tew speak ov, waz giving 3 dollars towards bilding the Pordunk meetin hous. After he giv the munny, he took such a deep interest in the work on the metin house, that the kommitty waz obliged tew giv him bak the munny to git shut ov him. He swore he'd sue them for the interest on the munny, but he never did. Jehoss' Billings waz one ov them kind ov men who mistake avarice for ekonemy. He died at the age of 63, if i hav sarched right, from an overdose ov klam chowder drank at a free lunch. Jehossiphatt Billings had his phailings, but rekless extravaganse want amung the lot, he also had his virtueus, but blind and irrepressible generosity want among this lot neither. He waz buried, without eny fuss, in the year 1286. What has bekum ov him I kant state. Sleep on, Jehossiphath, in thi slumbers. I would like tew say sum more about Jehoss', but i kant without telling the truth. Truth iz sumtimes like a hot pertato, the only way tew handle it eazy, is tew drop it. I will dri up here. The end. Hush! Lay low.

MORAL.

The klusset man i ever knu,
Waz Deakon Erastus Meggs,
Tew save expense, he oft

MELKISIDEK BILLINGS.

HIZ MEMORANDUM.

Melkasidek Billings waz a dandy ov the old skool, and also a lover. He loved the whole entire femail populashun. He parted hiz hare in the middle, and did it unkommon even. He had one grate weakness which grew on him, and that waz the length ov hiz little finger-nale. Historians say that this finger-nale gru tew be a yard in length, but it strikes me that this must be a profound lie. He waz a very punktillious man, in hiz every-day wear, and drest chuck up tew the fashun. Melkasidek hadn't mutch branes, but he didn't need much, for hiz bizzness thru life waz the lover bizzness. Just before he died he marrid, and left one dauter, a sentimental offspring, who afterwards run away, at the age ov 16, with a dansing master. Mel' Billings waz ov the nuter jender, he hadn't karakter enuff to do enny hurt, and ov kourse kouldn't do enny good. He died about the right time, anno dominoze, 1695, and waz buried comfortably in the grave yard, at lower Pordunk town. Melkasidek Billings waz mi ansesstor, and that waz kind in him. He had an epitaff on hiz stone which i dont rekolekt ov ever seeing in print before, and for the benefit ov those who studdy theze memorandums i will translate it. SOLOMAN BILLINGS.

HIZ MEMORANDUM.

Soloman Billings waz born the 26th ov May, 1322, old stile. He waz knone fur and near for hiz chunks ov wisdum, but, like Soloman ov old, he could talk wisdum better than he could do it. This iz the way with all the wize men i hav met lately. Soloman Billings waz a leetle slippery, but he managed tew git thru life without slipping down mutch, and died reazonably well. He waz sed, bi all who knu him, tew be chuk full ov wisdum; he could tell, bi looking at the egg, how mutch a goslin would weigh before it waz born, and when the best time waz tew set a hen or a gate-post. Sol's mouth waz full ov wisdum; litening couldn't strike a tree, just for fun, but what he would preach a moral sermon from the tex. He waz dredful certain ov what he did kno, and want the least bit unsertain ov what he didn't kno. I find in digging down tew the hard pan ov Soloman, mi ansesstor, that he had a grate deal ov vanity, a large amount ov impudense, a good supply ov inkredulity, just the things, for all the world, tew make a wize phool out of. He died az aforesed, and i look bak upon him az one who haz departed this life. Adew, Soloman, mi ansesstor. Deth iz tuff. Sumwhat! I will add, quite.

DUTERONOMY BILLINGS.

HIZ MEMORANDUM.

Duteronomy Billings waz a square man. He waz az square az the bloks on a checker-board. He waz just the same kind ov a man in the fall, az he waz in the spring ov the year; yu didn't hav tew winter him tew find out who he waz. He alwus did az he agreed, but waz dredful bakward about agreeing. Duteronomy waz immense in one thing, and that waz the length ov hiz noze. He had more noze ackordin, than enny man in history. One writer ov the eleventh sentury, sez hiz noze waz 8 inches in length, and another makes it a frackshun over 10 inches; i will split the difference, and call it 7. If Dute' waz alive now, i think he would sustain mi figgures. In writing theze details ov mi ansesstors, i am guided bi a luv tew do a square thing, and if i er, it will be all owing tew mi luk. I never waz right lucky since I had the meazles. They took place in the 14th year ov mi age, when i lived with mi unkle. I had them too thik. Duteronomy Billings waz named after old Duteronomy ov bible times, and az ansesstors run, he waz a very good kind ov a one tew hav. He died az he had lived, exackly square. In konklushun i will say lie still dear Dute', yu hav got a square thing. Thare iz force in the idee. I may add, grate force. Very. Indeed.

MORAL.

PORKANBEANS BILLINGS.

HIZ MEMORANDUM.

Porkanbeans Billings lived and throve in the 16th sentury. He loved a horse with grate power. He could swop a horse clusser than enny man that imparshall history tells ov. He iz sed tew have swopped Deakon Absolem Featherweight, klean out ov a 5 year old sorrel horse, at one swop, and the deakon waz looked upon az almost insurmountable in a dikker. Not tew disguise the fakt, Porky Billings waz a hoss jockey ov the anshunt daze, one who hung around the village tavern, and alwuss had on hand an old flag-tailed pelter, with a glass eye, tew trade with ennyboddy. I dont feal like bragging ov Porkanbeans az an ansesstor, but i must say, az a horse jockey, (if all reports are trew) i feal proud ov him. I forgot tew state, that Porky left no property. Thare iz a grate deal ov genius in the horse-swop bizzness but fu assetts. Porkanbeans died instantly, sumwhare about the fust ov the 17th sentury. He waz struk bi the hind feet ov a mule. Moral karakter even wont save a phello-being from dissolushun, when a mule goes for him with both hind feet at once. Sich iz life. Sich iz the mule. Porkanbeans haz my sympathy, he also haz mi tears, but i dont serpose they will be worth mutch tew him now, he iz too ded. Fairwell old phello-being, fairwell mi ansesstor. Deth iz our porshun. I think i kan say this without making a phool ov miself. Undoubtedly. Yes. Jiss so.

JAMAICA BILLINGS.

HIZ MEMORANDUM.

Jamaika Billings waz sed bi good judges ov the artikle, tew be the laziest man that ever visited this world. At the age ov 14 he waz pronounced bi the doktors too lazy tew ketch flies. He waz named after hiz unkle who had a grate speshiality in the jamaika-rum line, and who could float more ardent speerits, on an evenner keel, than enny human kraft in thozе daze. Jamaika lived tew a grate extent; sum say that he waz 160 when he died, and sum put it at 142, but all giv in that he didn't di from enny disseaze, but kind ov lazyed tew deth. He waz born tired, and never outgru it. He marrid at 37, but hiz wife left him at the end ov the fust month ov their nupshalls, taking with her all the pussonell affekts, whitch were a kupple ov cedar wash-tubs, and a seckond-hand buggy harness, brass-mounted. Her fust name waz Polly Ann. They never met afterwards, if they did, history dont kno it. Jamak'e Billings didn't hav enny vice tew speak ov, he waz even too lazy for that. He seems tew hav spent hiz life in hanging around places, keeping ragged and phatt on nothing. He died in Old Pordunk, and i suppoze waz burried, but history dont say so, in jiss so menney words. He waz mi ansesstor, but i kant help it. Can I? I hav bin told not. Queer.

MORAL.

EKLEEZIASTIKS BILLINGS.

HIZ MEMORANDUM.

Ekleeziastiks Billings waz a Puritan bi natur and occupashun. He waz az puritan az spring lam soaked in mint saus. Sum ov the most kold and thawless stok in all Nu England oozed from Ekleeze' Billings. He waz kreated nominally in the year 1570, and had hiz trunk packed tew cum over in the May Flower, but didn't cum. He cum over the nex fall, and went immejiately into the pilgrim bizzness. Ekleeziastiks kept a grocery store, and never sanded hiz sugar, nor watered hiz Nu England rum without fust asking tew be forgiv for it. How pure! how lam like! Ekleeziastiks waz very tall, but then he waz very thin; he waz over 6 feet perpendiklar, and not quite 7 inches thru. He weighed 146 with hiz winter clothes and cowhide boots on. He preserved hiz thinity unto deth. He died from eating too mutch garden-truk. How sad! how disinterested! Ekleesiastiks had one virtew which shines tew this day, he waz very saving ov hiz clothes. Hiz best blu koat, with brass buttons on, and a sharp tail tew it, he wore for 18 years, and then kut oph the buttons and had it prest out, and sent it tew the heathen. Ekleeze' waz both a saving and a libral kuss. He lived tew be over 90, and then died game; he wouldn't hav enny doktor. He dispized doktors bills. How touching! Truly. How touchful! Really.

LUKE BILLINGS.

HIZ MEMORANDUM.

Luke Billings waz a skool-master ov the Nu England type and shaddo. He waz an uprite and an austere man, az uprite az a sperm kandle, and az austere az hoss-radish. I look bak onto Luke's memoirs and pitty him, for i pitty awl distrikt-skool masters, all mothers-in-law, and all grass widders. Luke Billings spent hiz whole life in the distrik-skool spekulashun, and died az poor az a salt kodfish. Hiz assetts konsisted ov a pocket-komb and a nu testament. He used tew board round the naborhood, and waz alwuss az hungry az a pikrel. He never had enny friends, nor enny enemys; he waz like a gide-board in this respek. Luke Billings never got marrid, he hadn't the time tew spare. He waz severely engaged, for 26 years, tew Nancy Burbanks, but they both died intestate. They sleep cluss together, in the old grave-yard, at lower Pordunk. Sleep on! sleep on! dear old virgin couple, and pay no attenshun tew noboddy. Lukey wore hiz hare long behind, and kept a distrik skool 34 years 6 months and 17 daze. Oh, dear! oh, dear! Luke i pitty yu. Luke Billings iz an ansesstor that i look bak upon every now and then with my memory, and want tew fite sumboddy on hiz ackount. Fairwell, lovely Luke. Fairwell Lukey. Fairwell. Enuff sed.

MORAL.

From keeping skool, and the
pay,
Two things pestiverous,
I feel az tho' I'd like to say,
Good Lord! deliver us.

NEBUDKENNEZZAR BILLINGS.

HIZ MEMORANDUM.

Nebudkennezzar Billings waz an orphan bi birth, and kept a hotel, he did. When yu got fride pork at hiz house, it waz fride pork, it waz. Yu didn't hav a bill ov fare tew tell what it waz, yu didn't. Hiz wife waz smarter than chane litening, and kleaner than a ghost, she waz. Her hash didn't hav enny paving-stuns, nor kart-wheels in it, it didn't. Yu mite az well hunt for the lost tribes ov Izrael on her premises, az to hunt for a kokroach, yu mite. Neb's wife had red hare, and waz bony put together, and could fri pork, tend bar, harness a hoss, trade with a peddlar, and make a gin-sling that could almost talk, she could. Nebudkennezzar Billings waz a pollytishioner, and run hard for konstable in old Pordunk, for menney times, he did. It iz justiss tew hiz memoirs tew state, that tho he run well, the offiss alwuss beat him, it did. He never got elekted, he didn't. How prekarious! how impekunious! how transhunt! Alass! alass! Neb' waz kreated in 1502, and dissoluted in 1569, and spent hiz whole life in the hash bizzness, he did. Hiz wife waz boss while here on earth, and will undertake tew be hereafter, she will. But she kant, kan she? She kant. Happy it iz that thare iz a thussness in theze things. Thrice happy. Even nobby. That's so.

MORAL.

Every man thinks he kan keep a
hotel,
But O! how delusiv and rash,
For thare aint no kind ov bizzness
so mixt,

Az doing a klean job in hash.

MUSHANMILK BILLINGS.

HIS MEMORANDUM.

Mushanmilk Billings waz one ov mi earliest efforts in the way ov ansesstors. He was begot during the 11th or 12th sentury, or thareabouts. He derived hiz name from hiz grate ability tew conquer mush and milk. Titus Odistes, a celebrated writer in thoze days, sez he haz known him tew eat a potash kittle ov puddin and milk, at one sitting. I kant state whether this iz sutch or not, for i never met Mushanmilk personally. He died previous tew mi birth. Titus Odistes also sez, that Mushanmilk had a very sweet disposishun, how sweet, he dont tell us, but from what i kno ov the latter-day saints, amung the Billings family, it couldn't hav bin quite up tew the best brand ov Nu Orleans mollassiss. He waz sed tew be number One in modesty, and sitch like, but this dont exackly conspire with what i know ov the Billings'es. Cheeck haz alwus been reckoned amung our virtews. In taking a square look bak upon mi ansesstors, i find that they were rather a thin set. I find that their *ambishun* waz the result ov *vanity*. Their *honesty* the effekt ov *edukashun*. Their *charity*, the luv ov *novelty*. Their *philosophy*, able tew bear the stummuk-ake ov others with heroik fortitude, but not worth a kuss in their own; and their *virteus* generally, more the growth ov their *pride* than ov their *humility*. What a pitty! Echo answers, "Jiss so." Man iz an angleworm. He iz. Verily.

HEAR THE PAPERS TALK!

We would rather be the author of Josh Billings' Farmer's Allminax for 1875, than be elected captain of a militia company.

Coonhollow Demokrat.

Josh Billings' Farmer's Allminax for the year 1875, is just hatched out; it is like a Thanksgiving pudding, full of rich things; buy it, and set down in a corner, and read, and be happy once, if you never are again.

Boston Pilgrim.

We have a copy of Josh Billings' Allminax on tap, and draw sweet liquor from it each hour; no man can buy our copy, no man can borrow it, and he who steals it, will finally die.

New Orleans Budget.

Saw my right leg off, lift my scalp up, inoculate me with the contents of a six shooter, if Josh Billings' Farmer's Allminax for 1875 aint the bullyest brick the civilized world has ever laid eyes on.

Texas Daily Bandit.

Josh Billings' Farmer's Allminax is once more in our midst; like an oyster on the half shell, it can be took standing, sitting down, or on the run.

Miss Matilda Ann Brown.

HONESTY.

Honesty iz like munny, a man haz got to work hard to get it, and then haz got to work harder to keep it. Honesty iz the best kard in the pak; it iz allwuss trumps, and thare iz no man big phool enuff but what he kan play it right every time. Honesty haz been praised more, and praktised less, than enny ov the virtews, but it stands in need ov no ones praise, and fears no

ones rebuke. Honesty iz all the virtew that a man needs, and all that an angell haz. Honest men are skarse, and what i am afrade ov now iz, they are going to be skarser. From Adam's day to ours, and from now untill the judgement time, an *Honest man* haz been, and will be, "*The noblest work of God.*" Pope's deskripshun ov an honest man iz the simplest, and yet the strongest language, that ever haz been used.

A KARD.

A bizzy-body iz like a ritch cheeze,—full ov little things.

When a man aint good for ennything else, he iz just right to sett on a jury.

GRIT.

Grit iz a good thing to hav, but yu dont want too mutch ov it. I hav known folks who had so mutch grit, that they didn't kno when they waz whipt. This dont pay. I like to see a man who aint afrade to fite a wind-mill, when she iz in phull blast, but i dont kare to see him do it, for a wind-mill iz a hard job to thrash, and they dont kno neither when they hav got enuff. Grit and spunk, are two twins, and their mother iz Courage, and their father iz Bravery. I have seen grit, and spunk, and even courage, that didn't hav a bit ov bravery in them. Bravery allwuss ackts from a principle. Grit may be rite, and may be rong. It aint very certain, or partiklar whitch. Gritty men aint allwuss luvly, they are too mutch like sandpaper to handle, allwuss reddy for a skratch. I like grit in everything, except mi hash, thare iz when i kant bear it. Giv every man yu meet a good big haff ov the turnpike, but if he insists upon the whole ov it, the religion ov the Billings family iz to arbitrate the kase at onst. If a man smotes yu on one cheek, turn him the other one if yu like, but dont let him smote that. This aint fair.

ARGUMENTS.

It iz az diffikult to define a sukcess, az it iz to ackount for the meazles.

Coquets make better wives than Prudes do, but thank the Lord, thare iz better ones in market than either ov them.

CHARITY.

Charity iz a blessed privilege; it lifts poor human natur up to the level ov the angells, and sheds the lite ov heaven on our pathway. It iz the most butiful ov all the impulses ov the heart, and the eazyest to execute. Thare iz not a thought that goes out kindly to welkum a child ov sorrow, but what iz kredited in the grate book ov everlasting life, under the head ov Charity. Thare iz not a gift, not even a kup of kold water, thare iz not a self sakrafice ov enny kind, thare iz not a virtewous wish, nor a kind hope, but what kan be kounted among the jewels ov charity. Charity hath no markit-price here, nor hereafter, thare iz menmy a penny in the grate box that will kount out brighter, at the last day, than enny dollar that iz thare. But thozе people who are the soonest to melt with charity, are often the soonest to freeze up,—i have seen them so fastidious that they couldn't meet an objikt ov charity, without plunging their hand into one pocket, and taking out a ten cent piece, put it right bak into the other, thus satisfying their charity, and saving their munny at the same time.

A pedant iz one who over-
estimates whatever he haz got,
whether it be learning, munny,
dri goods, or the rumatism.

I dont reckolekt ov ever doing
ennynthing that i waz just a little
ashamed ov, but what sum one
waz sure to remember it, and
every once in a while put me in
mind ov it.

The most bitter kriticks we hav
are those who hav failed them-
self to write ennything worth
reading.

He who haz got nothing to do
in this world but amuze himself,
haz got the hardest job on hand i
kno ov.

FUN.

Fun is the cheapest fisick that haz bin diskovered yet, and the eazyest to take. Fun pills are sugar coated, and no change ov diet iz necessary while taking them. A little fun will sumtimes go a grate ways, i hav known men to liv to a good old age on one joke, which they managed to tell az often az once a day, and do all the laffing themselves besides that waz done. But thare iz lots ov pholks who kant see enny phun in enny thing, yu couldn't fire a joke into them with a double barrell gun, 10 paces off, they go thru life az sollum az a cow. Menny people think it iz beneath their dignity to relish a joke, sutch people are simply fools, and dont seem to kno it. The Billings family are allwuss on the lookout for fun, it iz sed ov Dexter Billings, one ov our pristines, that he had to be kept under 500 dollar bonds all the time, to keep him from laffing in church. Ackordin to all ackounts this Dexter Billings waz a cuss. Fun iz the pepper and salt ov every day life, and all he really wiz men who hav ever lived, hav used it freely for seazoning.

HEAR YEE.

The man who kan set himself to work, at enny thing, on 5 minnits notiss, haz got one of the best trades i kno ov.

Virtew that kant whip Vice, in a fair stand up fite, enny time, aint worth having.

EAZY BOOTS.

One ov the eazyest things in this world iz a loose boot, it iz just az eazy az falling oph from a log, when yu are fast asleep. The man who fust invented tite boots committed suicide, so i hav been told, this waz kind in the phellow. But if he had committed suicide before he had been born, it would hav been kinder still. Eazy boots are one ov the luxurys ov life, what the other luxurys are i dont kno, and dont kare. Enney man who kan wear a tite boot, and enjoy it, iz either a martyr, or a phool, it makes but little difference which. Tite boots produce korns, bunyons, and swareing, and thare iz only one thing kan be said in their favour, they make a man forgit all hiz other sorrows. An eazy boot will humanize a sinner faster than two mishionary kan. Vanity iz the Godfather ov tite boots, and just so long az men mistake a number eleven foot, for a number nine boot, just so long we shall see them limping around, with boots on two sizes too small. Next to a klear conshience, for solid cumfort, and every day wear, cums an eazy boot.

HITS.

After trieing for more than 35 years to hav mi own way in all things, i have finally cum to the konklushun, to split the difference.

Everyboddy seems to konsider himself a kind ov moral half bushel, to meazzure the worlds frailtys in.

WOMAN.

Woman iz the glass ware ov kreashun. She iz luvly, and brittle, but she haz run up everything we really enjoy in this life from 25 cents on the dollar to par. Adam, without Eve, would hav been az stupid a game az playing checkures alone. Thare haz been more butiful things sed in her praze than thare haz ov enny other animate thing, and she is worthy ov them all. She is not an angell tho, and i hope she wont never go into the angell bizzness. Angells on earth dont pay. The only mistake that woman haz ever made iz to think she iz a better man than Adam.

Adam iz captin, and i am reddly to admit, that he iz often a dreadphull poor one too. Woman iz the power behind the throne, she holds all the best playing kards in the pak, and her own good sense ought to teach her not to be in enny hurry to play them. I hav allwus sed, and i beleaf it still, that the time to be karfullest iz when you hav a hand phull ov trumps.

PRIVATE SENTIMENTS.

If i had 75 children i would be sure and learn 60 ov them to allwus shut the door after them when they went out, and i wouldn't kare whether the other 15 ever learnt mutch or not.

Yung man, yu better be honest than cunning, and it iz hard work to be both.

POLITENESS.

What a man kant win in this world bi politeness aint worth having. Politeness iz just as natrul az fun iz, and iz the cheapest way to git a living i kno ov. It haz made more friends than enny thing else ever haz, and haz kept them longer. It dont kost enny more to be polite than it duz to be happy, and enny man iz a phool who kant be either, if he iz a mind to. I hav known it to sukceed whare every thing else had failed, and i never knu it to fail, whare it undertook to sukceed. It iz az eazy to apply az the "poor mans plaster," and it will allwus stik whare it iz stuk. Next to honesty, politeness iz queen bee in the hive, and the man who iz thoroly honest and thoroly polite, haz nothing to fear, or hope for. Politeness, without honesty, iz a good deal risky, but sumtimes the wust we kan call it iz, "a pleazant fraud."

EGG NOGG.

Thare iz no fluid known to mortal man, that haz got more bakbone, and less tangle leg, in a quart ov it, than good, old 1776, Egg Nogg. Our grand dads drank it fluently, and thankd the Lord, az it meandered sloly down their thruts. It iz bilt out ov sider, and fresh egg, and iz az phull ov fun, and innosense, az a kittens tail. Enny man who haz moral skruples about drinking a glass ov fresh made egg nogg, had better git hiz morality insured against acksidents at once, for he iz in danger ov having hiz morality kompletely eradikated from the face ov the earth. Morality that kant stand egg nogg, iz a weak sister. I luv egg nogg, and hope i allwuss shall. I kant tell yu now when egg nogg waz fust diskovered, nor who the lucky kritter waz who fust found it out, but i would giv 15 dollars at least to know that it waz one ov mi ansesstors. I am orphull proud ov the anshunt Billing'es and enny glory that fluktuates around them, kind ov circumambiates around me. This may look like weakness in me, but it iz natur, and i dont beleav in allwuss snubbing natur. I say let yure natur kind ov go it, onst in a while.

FAITH.

Faith iz the right bower ov hope. If it want for faith thare would be no living in this world, we couldn't even eat hash with enny safety. Human knolledge iz very short, and dont reach but a little ways, and even that little ways iz twilite, but faith lightens up the road, so that we kan see to read the letterings on the mile stuns az we travel. Faith has won more viktorys than all the other pashuns ov the harte put together, for faith iz one ov them kind ov warriors that dont kno when she is whipt. But faith iz no milk sop, but a live fighter, she dont set down and gro stupid with resignashun, and git weak with the buty ov her attributes, but she is the heroine ov a forlorn hope. I think now if i couldn't hav but one ov the moral attributes i would take it all in Faith, and tho i mite make sum fust rate blunders, i would do a rushing bizzness among the various kinds ov dri bones that iz lieing around loose in the world. Faith haz allwus been one ov the best holts ov the Billings family, from the daze ov Noah, down to now.

HOW IZ THIS?

Experience ackts on sum pholks vitals just az it duz on a bull tarrier, he dont fairly git over one whipping before he begins to look around for another.

EKONEMY.

Ekonomy iz the art ov allwuss gitting the worth ov yure munny, and gitting the right change bak, and it iz also the art ov making 10 cents, once in a while, go az fur az a shilling. It iz like an ear fur musik, it has got to be born the same time yu are, or not at all. Yu kant larn an extravagant person to be ekonomikal enny more than yu kan learn a muskeeter to quit eating, when he haz got enuff. Thiz iz funny, but it iz too true to laff at. Ekonomy iz the mother-in-law ov Prosperity, and she iz one ov them kind ov mother-in-laws that never made enny disturbanse in the family. Ekonomy haz made more munny in this world than spekulashun ever haz, and thare iz another thing about it, she allwuss hangs on to it. Thare iz only one trubble about ekonomy, it sumtimes runs into avarice, and then all itz buty iz destroyed. It iz better to be a spendthrift, than a mizer. The Billings family hav allwuss bin noticed in history for their ekonomy. Jericho Billings, one ov our primevals, kept the same pair ov boots 26 years, but he wore out 9 souls, and 5 pairs ov upper leathers in the meantime.

HAM, AND EGG.

There are certain things in this world that seem just as though they were born for each other, and ham, and egg, are two of them things. Although they come from quite different localities, they must be twins, for they are so often seen together. If I can have all the ham, and egg I want, kodphish bawls may take a back seat for the present. Vittles and drink have always been a staple article with human nature, and when they play out, I am ready to quit. Some folks are so ethereal that they can live on the smell of baked cabbage, but I must have a chunk of the cabbage. Folks may talk about ambrosial nectar as much as they please, they can't fool me with any of those kind of essences, for I have lived just long enough to find out, that the best of society, have got to have their baked vittles, kind of regular, even if they take them on the sly, or they will soon peg out. Nature is nature, and she will have her ham, and egg. Nature is a little raw once in a while, but she always stands up for her rights, and though you may defraud her, you can't compromise with her. Ham, and egg, was a beverage long before Noah's freshet.

TAKE NOTICE.

Good breeding makes all conditions of life equal.

Anger always hurts us more than it does the other fellow which we get mad at.

THE PISSMIRE.

The pissmire iz a blak bugg about 23 times az big az the ant, and az phull ov important bizzness az the chairman ov a wimmins rights convenshun. They hav thirteen konsekutive leggs on each side ov their boddys, and allwuss travel on the run. They are like sum men, ever hunting for sumthing to do, but never was known to find it. I hav seen them travel for two hours, bakwards, and forwards, and not git 3 feet from whare they started from, stopping every now and then to listen. The pissmire iz the loafer amung bugs, and like other loafers, livs from hand to mouth. Their home iz a hole in the ground, but call on them az often az yu pleze, yu will never find them in. They git up late, and go to bed late, and are allwuss hungry, and hollow. They are az lazy az mollassis in the month ov Febuary, and az useless az an extra dog in a family. Pissmires are a poor speculashun, i wouldn't giv 50 cents for the whole krop.

REFLECKSHUNS.

If yu are going to giv a man enny thing giv it to him cheerfully, and quick, dont make him git down on hiz kneeze in front ov yu, and listen to the 10 commandments, and then yu giv him 5 cents.

The man who is allwuss confessing hiz sins, and never quitting them, iz the most onsartin sinner i kno ov.

THE DONKEY.

I hav watched the donkey with a grate deal ov pashunt anxiety. They are about 3 foot hi, and sumthing like three foot six inches lengthwize. They hav a normal appetight, and will eat all the time, and more too. They aint partikular about their vittles, and will tri hard to swallo a hoss shu, but they kant do it. The donkey iz one ov naturs jokes, a sort ov pun on a horse, which i could never see the point to. They are az sett in their ways, az a gate post, and are the only live things that are too mutch for a klub. They will stand more pounding than a sheaf ov wet oats, without shelling out. The donkey haz 2 ears, and only 1 tale, and the ears are to the rest ov their boddy, like two steeples to a church. The donkey iz a sober, and misterious kuss. Fairwell yu sad, and thinking kritter, i may never again rite yure memoirs, but whether I dont, or do, I shall allways respekt yu, az a donkey, that's all. Az a cluss studdy, the donkey iz az full ov interest, az a mile stun, with the letterings all worn oph. Donkeys will liv forever, or thareabouts, and retain their buty, and intelligence to the last. Adew you graven image, you solid one, adew!

THE VEGATABEL BITTERS MAN.

Whenever a man gits ded broke, and kant think ov nothing to raze a breeze with, and hiz uncle wont hav him boarding at hiz house enny more, and the heels ov hiz boots hav knawed the bottom ov his pantaloons all off, he takes rubarb root, and a fu katnip blossoms, and sum tan bark, and sokes them for 14 hours in sum cheap whiskey, and goes hedlong into the liver renovating bizzness. He plasters every fence, saw mill log, stun wall, and cow's back, from Portland Maine to Stockton Californy, with red, and yello hand bills, offering to heal the halt, make the blind talk, and the deaf see, and renew the inside, and outside, ov all kreashun, for a dollar and twenty five cents a bottle. He takes rooms at sum fust klass hotel, drives 8 in hand, and never iz seen, only on the jump. He iz az full ov bizzness az a deputy superintendant ov a Sunday skool, on a piknik day, and call on him when yu will, to kollekt yure little bill ov 7 dollars, he haz just left for Baltimore, or wont be home from Nu Orleans, untill week after next. Theze men are not all ov them unskrupulous, they are kunning kritters, who hav found out, that mankind to be happy, must be cheated.

THE KROW.

I hav written sevrал very poplar obituary notisses ov the krow, but find that i hav stated a good deal about them that wazn't jist so, and left unused mutch that waz true. The krow iz az cunning az a Tombs lawyer, and just about az mutch ov a ded beat. Yu kant ketch one in a trap, and if you should, yu could not bile one in a pot, soft enuff to eat, in 3 weeks. A tame krow, and a civilized injun, may be a moral triumph on the face ov it, but when yu cum to examine the other side ov it, yu will find that yu hav overdid the bizzness. If all the krows, and injuns, in this world were tame and, civilized, yu could bid fairwell to all other manuel, and mental labor, and spend all yure time, and talents, studying the pesky, infernal kritters. Krows assemble in the fall ov the year, 30 thousand ov them, or more, in council, and appoint their deakons for the following year. At this grate kawkuss, rezolushuns ov a inflamitory natur are passed, daming the farmers for putting up skare krows in the kornfields, plans are laid for next years stealings, and each krow swopping wives, the meeting disseminates, and the krows fli away.

HOLD!

Dont keep but one dog, no one but a pauper
kan afford to keep three.

If yu are going to make amuzements a stiddy
bizzness, ketching flies iz az good az enny.

THE KROTON BUG.

The krotón bug are dirty blak kusses, without enny pedigree, and ov no more use than an extra fli in a plate ov soup. They hang around wet and damp places, and are all the time either going in, or comeing out, ov every krak in that naborhood. Thare iz no begining, nor end, to their number, and if yu bore a hole with a gimblet, enny whare near a plug basin, the next day the krotóns will be az thick around it, az tho a nu 3 cent gin mill had just been opened thare. What they liv on no naturalist knows, or dassent tell, and yu kant git rid ov them, enny more than you kan skare the flies out ov a sugar hogshed, by hollering at them. They are allwuss on the move like a grasshopper, but what they are about, or would like to hav, they kant even tell them selfs. Thare iz a powder advertized which they say will klean the krotón bugs all out ov the house in 4 days. I am no gambler, but i will give the powder 7 days the start, and then bet on the bugs. Thare is only one sure way to git the krotóns out ov a house, burn up the house and let a strong east wind blo the ashes away.

THE KUNTRY SKOOL MOM.

The kuntry skool mom iz allwuss about 23 years, and six months old, and remains rite thare for a term ov years. She wears her hair either kut short, or hanging around in ringlets, and iz az precise in every thing, az a pair ov Fairbanks' improved platform skales. She never laffs out loud, and seldum even smiles, but when she duz, she duz it ackording to the rules laid down by Murray, for speaking, and pronouncing, the English language properly. She iz the very oil ov propriety, and would rather be four years behind the fashions in bonnetts, than to spell a word wrong, or parse a sentence inkorrektly. The kuntry skool mom seldum dies an old maid, she gits marrid to sum man who haz less larning than she haz, and he thinks (az he ought to) that thare aint another sutch a larnt woman az hiz wife iz, in all kreashun. With all her precise foolishness i luv, and respekt, the kuntry skool mom, she taut me mi letters, and larnt me how to spel, she waz pashunt while i waz stupid, she soothed me when i waz frackshus, and she often (good soul) giv me a titbit from her luncheon at noon time. May Heaven bless, and comfort her, for she iz poorly paid, and iz stepmother to every boddys yung ones.

THE RED CURRANT

Next to the apple, for every day wear, cums the red currant. They are allmost az necessary, and common, for sweetmeats, in all well regulated familys, az hash iz for brekfasst. They gro on a low bush, and they gro so thick, that yu couldn't stik another one on, without knocking off two. They are about the size ov a dubble B shot, and when they are ripe, are az red az the eye of a wild pigeon. They are az sour az the blood ov a lemon, but plenty ov sugar kures them ov this malady. Currants are good green, ripe, and haff ripe, and are cheaper than herring, and not haff so full of bones. Thare iz a grate menmy things i had rather do, in a hot day, than pik currants but i hav dun it all day, when i waz a boy, and got a ninepence at night for the job. I am more than haff a century old now, but i kan look bak and see just how brite, and how big, one ov them ninepences used to be. A hundred dollars aint haff so mutch munny now, az they waz then. I wish i waz a boy agin, and knu ov life what i kno now, i would bind miself, if I could allwuss be a boy, to pik currants for a ninepence a day, az long az the currants held out.

THE LITENING ROD MAN.

Ever since Adam waz ordered to root, or perish, thare haz been an endless lot ov labor saving masheens, invented, az plenty, and menny ov them az useless, az tudstools in an old meadow. Theze invenshuns are generally pattented, and to be a good pattent rite vender, and sell a man an injun rubber litening rod, who haz allreddy got two, requires more genius, than to be consul to the Azore Islands. I have seen theze litening rod fellows sell a man a rod who wouldn't hav one at enny price, and after they had got hiz house all covered over with one, and got the munny for it, git one onto hiz barn, and pig pen, and git hiz note for them, with his nabors endorsement, for 9 months, with 7 per cent interest from date. I should be a miserable hand to sell a pattent rite miself, but just the rite kind ov a man to buy one. It iz a grate wonder that I dont own a dozen now, that would be az useless to enny boddy az a pair ov pattent crutches would be to a lame grasshopper. I hav got a grate deal ov pattent rite kuriosity in my compound, and am allways hanging around things that hav got a little mistery in them, but i suppoze i hav got a grate deal ov caushun too. But now I think ov it, kuriosity, and caushun, well mixt, are a hard thing to sell a pattent rite to.

ESPOUSE.

The fust 3 notes i endorsed i had to pay, and i hope it will be jiss so with the next 3.

It aint no kredit for enny man, to work for nothing, and board himself.

RIGHT BOWERS.

Luv is the strongest pashun ov
a woman's harte, she has got to
luv sumthing, either a baby, a
nu bonnet, a lap dog, or the
heathen.

I am allwuss more than haff
afraid ov the man, who kant talk
5 minnits with me, on enny sub-
jekt, without expressing grate
anxiety about my soul.

Go slo yung man, if yu tap
both ends ov yure cider barrell
at once, and draw out ov the
bung hole besides; yure cider
aint a going to hold out long.

Eat hash washing days, and be
thankfull for it, even if yu hav
to shut both eyes to do it.

THE PEACH.

Peaches and kream will convert enny man who iz worth saving. The peach haz a doun on them, like the doun on a maiden's cheek, but it aint haff so plezant to git onto the lips. Peach brandy iz made out ov the peach, this licker haz been called mellow, but like all other licker that i hav tried, it will lay out a saint, just az flatt az it will a sinner. The fakt ov it iz, thare aint no kind ov ardent rum, i dont kare how artless, and gentle the name ov it iz, or how ritch, and mello yu may call it, but what will throw him who wrassells with it, be he phool, or be he philospher. Thare iz only one piece ov humanity that kan stand ardent speerits, and he iz an injun, and he kant stand it, only just long enuff to git civilized. When peach brandy is fust made it iz az hot az a streak ov litening, and just about az sudden. I once drank a tea spoon full ov it warm from the still, and it waz 20 minnits be fore i could draw a long breath. I waz az hot inside az a chimney on fire. I thought it would brake out and blaze sum whare, but it didn't happen to.

DIGEST.

I konsider all profeshions that are honest, honorabell enuff, but i hav thought, that a travelling korn doktor, waz the last one i should adopt, just for the sake ov glory.

Thare iz one thing about a mule that i allwuss did like, the minnitt that you begin to flatter them, then they begin to kik.

THE BUMBLE BEE.

The bumble bee iz a kind ov big fly who goes muttering, and swareing around the lots, during the summer, looking after little boys to sting them, and stealing hunny out ov the dandylions, and thissells. He iz mad all the time about sumthing, and dont seem to kare a kuss what people think ov him. A skool boy will studdy harder enny time to find a bumble bees nest than he will to git hiz lesson in arithmetik, and when he haz found it, and got the hunny out ov it, and got badly stung into the bargain, he finds thare aint mutch margin in it. Next to poor mollassis, bumble bee hunny iz the poorest kind ov sweetmeats in market. Bumble bees hav allwuss been in fashion, and probably allwuss will be, but whare the fun, or proffit lays in them, i never could cypher out. The proffit dont seem to be in the hunny, nor in the bumble bee neither. They bild their nest in the ground, or enny whare else they take a noshun too, and aint afrade to fite a whole distrikt skool, if they meddle with them. I dont blame the bumble bee, nor enny other fellow, for defending hiz sugar, it iz the fust, and last Law ov natur, and i hope the law wont never run out. The smartest thing about the bumble bee iz their stinger.

THE YELLO JACKET.

The yello jacket iz ov the wasp purswashun, and iz about one size smaller than the common blak hornet, and iz az mutch hotter, in hiz coolest moments, than enny other bug, az jersey litening iz hotter than ice kream. They are the most krewel fighters in existence, and will hit a man, or beast, four times in a seckond, in the same spot. They are az yello az gold, and when they are good mad, they blaze like a kandle. When a yello jacket gits mad all the way through, he will fite a brush heap on fire, just az quick az he will a mile stun. I hav seen them pitch on to each other, and having killed their man, close up the fite by stinging themselves to death. Dont go near a yellow jacket's nest in the month of August, unless yure life iz insured, not even a hard shell Baptist, or a missionary, would be safe in that naborhood. They kant tell a friend from a foe, and I think would sting a potash kittle, a dozen times, and not mistrust it waz iron. They make homes for themselves out in the lots amungst the ploughed ground, and i hav seen them bile out ov their nests like a distrikt skool let out for noon, or a smothered fire, and pitching into the oxen, farmer, and plough, drive the whole party, on the jump, off from the premises.

THE YANKEE PEDLAR.

Probably the sharpest man that the world haz been blest with thus far iz the natral born Yankee pedlar. He takes to the bizzness just az handy az a yung duk takes to the water, who haz been hatched out by mistake amung a lot ov hen's eggs. He kan see just whare the proffit lies in a dicker, and aint afrade to invest hiz whole pile, at a minnitt's notiss, in an assorted lot ov goose yokes. He begins life yung, and like the bizzzy ant, gits up arly, and eats on the run. Az long az he keeps honest he iz sure to sukceed, but sumtimes hiz genius iz too mutch for hiz integrity, and every boddy gits to be az frade ov him, az they are ov a hornet. The hornet iz the smartest bug in kreashun, but haint got no friends. The world luvs to be cheated, but they want to hav it dun bi an honest man, and not bi a hornet, and then they never seem to git tired ov it. I hav seen Yankee pedlars who allwus cheated every boddy they traded with, but they allwuss did it so honest, and square, that every boddy seemed to be happy when their turn cum. But the old fashioned Yankee pedlar, with his little red painted kart, and bobtail pony, like the letterings on the mile stuns, iz fast fading away.

SEIZE.

Stik and hang yung man, it iz the last six inches in a race that allwuss wins the munny.

If yu want to find out just how mean, and dishonest, yu hav allwuss been, git a nominashun, and run for sum offiss.

Thoze who are too proud to enquire what a thing kosts when they buy it, are the fust ones to find fault when they cum to pay for it.

If a man writes for fame, the less he writes, the better.

When a man meazzures out glory for himself, he allwuss heaps the haff bushel.

THE KUNTRY HOSS JOCKEY.

For a red hot speciality, yu hav got to hunt kreashun cluss, to find an equal, to the kuntry hoss jockey. He iz allwuss a man ov plezant temperament, vain ov hiz opinyuns, often ov more fancy than judgement, and quik to decide. He haz but little real affecksun for a hoss, and only luvs him, for the cheat that iz in him. He iz allwuss reddy to trade for enny thing, from a yerling kolt, to the kavalry hoss that Gen Butler rode, at the battle ov Brandywine. He never knows when he gits cheated, and ever thinks, that the last nag he got, iz the best one he ever owned. He iz not bothered with too mutch conscience, and would az soon lay out a travelling preacher in a swop, az hiz own father-in-law, and do it without enny malice, but just for the honor ov the profeshun. I dont kno whi it iz, that a man kan trade cows and be pious, or swop oxen, and be a good deakon, or even negoshiate dogs, and be lookt upon favourably, but when he goes into the hoss trading enterprize, if he kant cheat, he haz mistaken hiz calling, and aint happy. The hoss jockey iz sumtimes honest from policy, and the man who iz simply honest from policy, needs az mutch watching az a hive ov bees do, who are just gitting reddy to swarm.

SUM ABRUPT LETTERS.

Dear Bob.—The most disgusting kritter to me, in the whole ov the United States ov Amerika, iz an overgrown boy, ov about fifteen summers, who haz bekum the terror ov the whole family, and spends hiz spare time hammering the cow, and stirring up the pig, and chickens. If the father, or father-in-law, ov one ov these youths, will lend him to me, if i dont civilize him, or kill him in ninety days, i will agree to forfit 50 dollars, and the cloth for a new alpacka dress.

P. S.—Send on the boy at once, at mi expense, i am just now out ov a job.—
J. B.

Dear Steve.—It iz hard work to be in luv and not akt phoolish, but luv iz the only thing i kno ov that makes pholly excusable. Luv haz made sum kind ov a phool ov every man it haz attacked since the days ov Adam, and it made the biggest kind ov a phool ov him. Wisdum, and ambishun iz no protekshun against the disseaze, for Soloman evaporated before it like the dew before the morning sun, and even good old David wilted like the hewn grass.

Dear Hank.—When yu strike ile pull out yure auger at onst, and begin to barrell the ile, menney a man haz kept on untill he bored klean thru and sum other phellow kaught the grease at the bottom.

BULBS.

Ministers often point out to us, poor sinners, the strate, and narrow gauge, az the only way to git to heaven, while they hav got a private turnpike ov their own that 2.40 kan be made on.

Waiting to be whipt iz the most uninteresting

THE ALLIGATOR.

The alligator iz an original kritter, a chip of the old block, and az ugly to kontemplate az a congo darkey. They are residents ov Florida, and gro 12 feet, and nine inches and then halt. Their teeth are all tushes, and their mouth iz az full ov them az a buzz saw iz. Their eys are sot up, and down, in their hed like a chinamans, and they hav an appetight equal to 18 distrikt skool masters. They are the krokerdiles ov Amerika, and lay eggs az eazy az a hen duz, but dont kackle when they cum oph from the nest. They are grate cowards but aint afrade ov yung pork, or little darkeys, and kan eat all the time, or go without eating, az long az a gold fish kan. The alligator waz made for sum usefull purpose, but like the muskeeter, the bedbugg, and the kokroach, their usefullness haz been karephully hid from us. Yu kan shoot a hundred alligators a day on the St. Johns river, but you kant bag one, and thare aint enny more game in them, than thare iz in a rotten log. They are long lived, and liv, if mi memory serves me right, 4 thousand years, and their grate strength lays in their tails. They hiss when they are angry like a tea kittle, and want az mutch room to turn round in az a fore and aft skooner.

THE LOAFER.

The loafer iz a thing who iz willing to be dispized for the privilege ov abusing others. He occupys all grades in sosiety from the judge on the bench clear down to the ragged kritter who leans against the lamp posts, and fites flies in August. He haz no pride that iz worthy, and no delikasy that enny boddy kan hurt. During his boyhood he kills kats, and robs all the hens nests in the naborhood. During hiz middle life he begs all the tobacco he uses, and drinks all the cheap whiskey he kan at sumboddy else's expense. During hiz old age he winters in the alms houses, and summers in the sugar hogsheds, and when he cums to die, he iz buried in a dich, like an omnibuss horse, with hiz old shuze on. The loafer cares nothing for publik opinyun, and this alone, will make enny man a loafer. The loafer rather covets disgrase, and when a man gits az low down az this, he haz got az low down az he kan git in this world without digging. We hav no reliable ackount ov the fust loafer, and probably shant hav ov the last one, but in mi opinyun, they hav existed just about az long az man haz. If Cain want a loafer, pray what waz he?

ARTIKLES OV FAITH.

Heaven bless the stummuk ake, if it want for this, menny ov us deakons wouldn't hav no good excuse for hot rum.

The saddest ov all sights sad in this world, iz a child with a broken spirit.

Man kant make cirkumstances, but he kan take them bi the horns, insted ov the tale.

Dont parade yure sorrows before the world, but bury them az the dogs do their old bones, and then growl if enny boddy offers to dig them up.

Klubs are a place whare most people go to git rid ov themselves.

SHORT REPLYs.

Dear Luke.—I kant bear to see enny man strike a dog, i kno dogs are full ov fleas, but i kno they are full ov affeckshun too. I am very sad when i think that affeckshun iz no protekshun to man, nor kriter in this kold, and ironklad world. It would seem that a lamb ought to git along thru life more fluently than a hornet duz, but they duzzent, and i also notiss that the most suckcessful hornets are thozе who are bilt with a stinger on both ends ov them. I love the lambs, but respekt the hornets.

Dear Mose.—All the humorist that i am acquainted with are sad, and sober kusses. I never knu a fust rate humorist who waz a good laffer, they are willing to make other people laff, but prefer themselves to stand by and look on. If Mark Twain should be kaught laffing, hiz friends would immejately put him to bed and send for hiz family physician. Nasby, the grate politikal satirist, waz never known to smile but once, and then he, and Pogram, were in the bak end ov the groserу at the crossroads, but the cauze ov hiz mirth iz a profound sekret to this day. The best laffers i hav ever knu, whare thozе who lafft at their own jokes.

THE SPIDER.

One ov the most ingenious, and hardest workers among the whole lot ov little bugs in kreashun iz the common spider. They will do more work on a web, in six hours, than a man could do in his whole life time, and do a mutch better job into the bargain. Spiders are the meanest reptiles that hang around the footstool, for they are the only ones that i kan think ov now, that set traps for their viktimes. They are az mean az a man in this respekt. Thare iz no fun in a spider, he iz az lonesum az a mizer, he spends hiz whole life making webs, and watching them, and allways lays at the mouth ov hiz hole, reddy to back in out ov danger. A man will go out ov hiz way rather than step on a kricket, and would rather skare a fly than kill him, az sazzzy az he iz, but he goes for a spider with both feet, and seems to feel melankolly if he happens to miss him. Spiders hav no friends in this world, and the reazon must be bekauze their naturs are viscious, and cunning. Theze two traits will make even man an outlaw, and they akt just the same way on the spider. I dispize the spider, and aint afraid to tell him so.

DREGS.

Every man thinks he iz the principal bull frog in the puddle, and rather than argy the case, i am willing to think so too.

Mizery luvs company but iz allwuss jealous, —there never waz a man yet but what thought hiz lame back was a good deal lamer than hiz nabors.

THE MILKSOP.

The milksop iz a human being who has not the stamina ov a man, nor the weakness ov a woman. He iz a hibrid ov the nuter gender, without karakter enuff to make him respekted, or dispized. These kind ov pholks are innosent enuff if they are well watched, but they need az mutch watching az a blind baby duz. They occupy quarters about haff way between a phool, and an ideot. If milksops would only keep still but few would suspekt them, but how strange it iz, that the thinner a man iz, the more anxious he iz to get into a strong light.

THE MIZER.

The mizer digs hiz heart out hollow to stow away hiz munny in. He akumulates bi littles, and never opens hiz harte, only on a krak, to let another shilling in. An old mizer iz a sad sight enuff, but next to an ideot, a yung mizer iz the most revolting thing on earth. Mizers enjoy what they dont use, looze what they save, and die possessed ov the only treasure that iz ov no use to them. The most terrible sarkasm iz a mizers phuneral, the heir often makes it gorgeous, and expensiv, and then pitches hedlong into the pile the old phool haz left.

CHALK MARKS.

Advice iz generally like the bred and cheese we giv to beggars, thrown over into the fust vacant lot they cum to.

Bigots, enthusiasts, and clothes pins, all hav
the same sized heds on them.

klean up to the muzzle to kill
a chipping bird with, and git
knokt hed over heels when the
gun went off, and miss the bird
besides.

The man who livs the life
ov a toadey iz a kind ov human
spit box.

Yu will find plenty ov folks
who are red hott to hunt tigers
and wild kats, only muzzle the
kussid krittters, and put them 10
or fifteen miles off.

The man who haz got nothing
but the truth to tell allwuss uses
the fust words he kan lay hiz
hands on.

LAZYNESS.

Lazyness seems to be az natral az onions, and just about az helthy too. The lame, and the lazy, hav allwuss been provided for, sumboddy haz allwuss waited on them, and sumboddy allwuss will. I dont luv lazy pholks, i dont even respekt them, but i kant help but admire the way they eat. I never knu a lazy man that didn't hav a good appetight and a square digestion. Lazyness iz the fust law ov natur, and for that reazon is entitled to sum respekt. Lazy folks are allwuss good natured, i hav seen them so docile that they wouldn't fite flies. Lazyness iz often mistaken for shifflessness, but thare iz az much diffrence az thare iz between a hornet, and a fly. I had rather watch two raskalls than one shiftless kuss. Thare are sum things that will hurry lazyness, but death is the only sure kure for shifflessnes.

LAFFTER.

Laffter iz the joy ov the soul comeing to the surface to hav a good time. The mule kant laff, and the devil wont. Laffing iz az natral az the meazles, and allmost as ketching, but the man who will laff when he dont feel like it, iz a grate koward to say the least, and may be a grate villain. Next to logick, to prove things, cums laffing, and the hardest man for ennyboddy, or enny thing, to beat, iz he who laffs at every thing.

GIMBLETS.

I hav figgered onto it, and find that civilizashun kosts about 90 cents on the dollar.

One quarrellsum dog will demoralize all the
curs in hiz naborhood.

MISFITS.

Thare are two kinds of men that fear makes phools ov, them who are afrade of nothing, and them who are afrade of everything.

I would respekfully say to all that klass, "*who want to be an angell, and with the angels dwell,*" please drop that noshun, and go at sumthing usefull, if the Lord wants enny more angels, he will let yu kno in due time.

Civil war iz like a fite in the family, it seldum, if ever, waz known to be healed.

If thare iz no hereafter, kats and dogs are better off than we are.

THE DUK.

The duk iz a foul, naturalists say so, and common sense teaches it. Wild duks are very good shooting, and very good missing too, unless you understand the bizzness. I hav shot at them all day, and got nothing but a few tale feathers, but that satisfied me, for i am crazy for all kinds ov sport, you know. There are sum kind ov duks that are very hard to git even if you do kill them. I shot one whole afternoon, three years ago, at sum dekoy duks, and never got one ov them. I never hav told even mi wife ov this, and hope no one will repeat it.

THE SANDY HILL CRANE.

The crane iz neither flesh, nor foul, but a sad mixtur ov theze two things. He mopes along the banks ov kreeks, and wet places, looking for sumthing he haz lost. He haz a long bill, long wings, long legs, and iz long all over. He livs upon lizzards, and frogs, and sleeps standing on one leg, like a gide board. Sumtimes he tips over in hiz dreams, and then hiz bill enters the ground like a pikax. When he flies thru the air he iz az gracephull az a wind mill that haz broke away from its fastenings. Cranes are not very plenty on this earth, but at the last quotations, the supply just about equals the demand.

BLOSSOMS.

who work for the devil all the time, and then
look to the lord for their pay.

AN EPISTOL.

Dear Snyder.—Yu tell me that yu hav got the blues, and want to kno how to git shut of them. The following resipees will heal yu in 90 days if yu stik to them klussly. To wit, marry sum delikate only dauter of 22 summers (more or less) and take yure mother in law home with yu to board, this will oil the pores of the sitem, and the blues will eskape like steam out of the noze of a tea kittle. Once more, hire out to keep a distrikt skool for 9 dollars per month, and hash around the naborhood, or take a 3 year old kiking heifer to brake to milk, this will open yure swareing valves, and so hurry the blood, that the blues will leave yu in disgust, and fasten their fangs on to sum other phellow. Againly, go down into sum marsh in the kingdum ov Nu Jersey fishing for frogs in the month ov August, and fish with one hand, and slap muskeeters with the other, and the blues will take the hint and vacate yure natur like a shooting-star. Try either ov the abuv alteratives, dear Snyder, and if they dont work, go into the bak yard of sum Irish woman and kut her clothes line when it iz filled with the weeks washing, and if yu dont git the blues taken out ov yu, and a good deal else besides, yu are a morbid kuss and wont pay for experimenting on.

BUBBLES.

Hero's are skarse, but the man who kan make poverty respektable, is one ov them.

If yu would eskape envy, abuse, and taxes, yu must liv in a deep well, and only cum out in the nite time.

THE OWL.

The owl iz a grizzly grey package, and haz a grate round face az sober, and intelligent az a cheshire cheese. They kant see bi dalite, but can see by starlite to pik up a pin. They hunt for a living, and are very smart, and sudden, on a field mouse, or a meddo mole. The most wonderphull thing about an owl iz the sollum importanse ov the whole kritter, az he sits on hiz perch, looking over kreashun, just az tho he owned the whole ov it. Next to a newly elekted Justiss ov the Peace, seated on hiz throne, with a poor devil before him charged with the emoshional krime ov stealing a string ov onions, the owl haz more rare, and unfathomable wisdum in hiz face than enny thing on earth. I hav looked at them for haff an hour stiddy, in a shop window, to see if they winkt, untill i waz ashamed ov mi impudense, but theze owls, i found out afterwards, waz stuffed. I would thank enny one to tell me if an owl ever duz wink, and if so, how often. Owls liv to a good old age, but are not good for diet, they are one ov the fu things we kno ov, that the more yu bile them, the tuffer they gro. Biled owl iz the most ungratefull vittles that enny man ever sot in front ov. I never et enny biled owl but once, and that waz 40 years ago, and i kan taste it now, every time i think ov it.

THE CUCKOO, AND THE JACKDAW.

The cuckoo iz about the size ov four small robins, and iz one ov the fust birds to tell us that spring haz fairly cum. This iz kind in the cuckoo, and they ought to hav a vote ov thanks, and a gold medal besides. Their song iz a good deal like the song ov a tin whissell, all in one key, but enny kind ov a song, from enny living kreature, iz acceptable. These birds hav one spot in their naturs entirely diffrent from enny animate thing I kno ov, they dont seem to possess the least particle ov affeckshun for their little cuckoos. They never bild enny nests, but lay their eggs in other birds nests, and let them do the hatching. This would be called smart in a man, but seems to me, iz darn mean in a bird. I wonder whare they lernt this trick.

THE JACKDAW.

The jackdaw, like the raven, iz born ov blak parents, and iz about one quarter the size ov the common krow. Their food seems to konsist ov enny thing, and their appetights are az klamarous az a distrikt skool just let out to play, at lunch time. They lay two eggs, and both eggs would probberly hatch out if they waz solid, for the Jackdaw iz bound to liv, and prosper. They luv man, and his ways, and are allwuss found az kluss to him az they kan git.

CHIPS.

The best relief for the rumatiz, that haz been diskovered yet, iz to find sum phellow who haz got the gout bad, and then pitty him.

About the time a man haz got old enuff to
travel a good gait on hiz experience, death
taps him on the shoulder, and wants him just
around the corner.

THE CENTAUR.

The centaur iz not an Amerikan, but blooms in the land far away to the eastward, whare the muskeeto iz unknown, and whare the pensiv kokroach putteth in no appearance. He is haff horse, and haff sum other phellow, and hunts for fun, and sumthing to eat. He haz got a hed on him like Demostheneze ov old, and wears hiz hair short in front, but flooded down on hiz nek, and over hiz shoulders, like a growth ov yung hop vines, in a hot house. Hiz instrument iz a bo, and arro, and he kan assassinate the stupendous elephant 440 yards distant, or pik a single feather off from the top ov a humming birds hed on the fly The centaur allwuss hunts on horsebak, and leads a free and cheap life. When in the ackt ov shooting the vast elephant, or the remorseless tiger, hiz hed iz thrown finely bak, hiz eye gleams like a lost jewell, hiz hair quivers like an aspen leaf, courage smiles in hiz face, hiz breast grows wider, and the muscles in hiz arm hang down like hornets' nests, hiz tale whips the air, and hiz hooffs ov steel ring on the turf. I hav et plain hash untill i am tired ov it, and would like no better phun than to mount a centaur, without enny bridle on him, and with a mermaid in front ov me, and a ghost behind, take a free, and rekless ride, a ride ov genius, to the ends ov the earth. But I suppoze I should git sik ov this, in a day, or two, and want to ride sumthing else.

Poverty haz been called safe, but poverty even, haz got to lock up its mouldy bread, and cheeze, or loze it.

Honesty iz the rarerest welth enny one kan possess, and yet all the honesty in the world, aint lawful tender for a loaf ov bread.

THE AUCKSHIONEER.

The auckshioneer iz an unfortunate individual who duz other peoples lieing for 10 dollars a day, and boards himself. He haz got az mutch jaw az a wolf trap, and as mutch cheeck az a 10 year old mule. He takes up the profeshun quite often on the same principle that a horse doktor duz hiz, not bekause he iz fit for the bizzness, but just to hav one in the naborhood. His gratest pride iz to mingle what he calls humor with hiz talk when he iz on the block, but hiz jokes are gennerally az level az a kold slapjax. He iz at the hight ov hiz ambishun when he haz worried a laff out ov the bisters, and uses the same rhetorick, and similees, when he sells out a line ov bank securitys, that he duz, when he closes out an old one-eyed pelter, under a chattell mortgage, in frunt ov the kourt house. A kuntry auckshioneer, and a kuntry horse jockey, are two wonderphull cusses, in the rural deestrikts. I hav been an auckshioneer and kno what i am talking about.

THE OLD MAID.

The old maid iz the last gooseberry left on the bush, ded ripe, and reddy to fall off at the fust good shake. She iz sumtimes a leetle hard to suit, but iz quite often the most charming relick in the naborhood. Next to mothers in law, old maids hav been abuzed more than enny thing human, but they all ov them hav a warm spot in their hearts, that enny decent person iz welkum to krawl into, and sun themselves.

BLISTERS.

Too mutch attenshun to little things spiles a man for bigger ones, I kno a fellow who kan make a fust rate whissell out ov a pigs tail, and this iz all he kan do.

INDISKRIMINATE HINTS.

I receaved a circular yesterday inviting me to buy a ticket in a gift distrubiting skeme, i didn't invest, i hav often bought into theze magnificent chances, and all that i hav ever drawed yet, waz the wool over mi eyes. A cow that will leak 18 quarts of milk per diem iz a good one, but one that will flow 30, iz better. This may look like an assershun ov mine, but the more yu look into it, the more milk yu will diskover. Thare aint but fu cows that will giv 30 quarts ov milk a day unless yu irrigate it well. I kant say if it will pay yu to keep a cow, or not, yu kan buy a "*Readdy Reckoner*," at enny ov the book stores, for 75 cents, and they tell all about theze things. If i waz called upon to advise a Mother in law, i should tell her never to suggest enny thing in the family at all, if she sees the babys stockings agin the stove, burning up, let them burn, if she sees the kat stealing kream, off from the top ov the milk kans, let her steal, if thare iz enny thing lost, and the whole household are hunting for it, and she knows right whare it iz, keep mum, and let them hunt. I kant tell whitch iz the best breed ov lap dogs, all i kno about the diffrent breeds iz that the whole lot are a kussid shame, and noosance. Rats are very growthy, so growthy, that yu dont need but one good helthy rat to commence operations with, and in three years, yu will hav rats to spare.

TWO LETTERS.

Dear Laubenhimer.—I dont know who writ "*Babes in the Woods*," but who ever did, hit natur. I hav forgot now the diagnosis ov the book, all i kan remember iz, i red it when i waz a boy, and i bought one 25 years after that for mi son, and only last week, bought another for mi grandson, and when he grows up to be a man, and iz wed, and haz results, he will buy it for hiz children. Robinson Kruso, Jak the Giant Killer, and babes in the woods, will wear az long az allminaxes will. I dont kno az thare iz a partikle ov bible truth in them, but they are so wonderphull, that if they didn't never cum to pass, it seems az tho they ought to.

Dear Onderdonk.—Thare iz only one way to brake a kiking heifer, and that iz, to stop her growth bi deth. When a heifer gits to kiking, the smartest mishionary in the world kant console her, she will kik over her own mother, just az liberally az she will a perfekt stranger.

They will allways manage to stand middling still untill yu git the pail just about full, and then for fear they wont hit it, they will kik with both feet to oust, and squeal into the bargain. After they hav kikt the milk over, they are perfektly resighned, and will stand and chew their kud, and let yu milk them for two hours if yu want to.

BUOYS.

The fust man that waz murdered in this world waz the only pure one living at that time.

I like to see all things true to natur, even a hornet that kant sting, is a melankolly failure.

THE RHINOSSEROSS AND THE VIOLET.

The rhinosserrass iz strikly a forrin invenshun, and i am glad ov it. They are a one horned experiment, and that horn grows on the tip ov their nose. If they are haff az unhappy az they look, they are the most miserable kritters ever invented. Their great value is in their skarsity, if they waz az plenty az organ grinders, they wouldn't be enny more of a luxury. If i waz offered mi choice between a rhinosserrass, and an anakondy, i should figger on them cluss, for a fortnight, and then refuse to take either.

THE VIOLET.

Little blu eyed innocent, i saw yu one year ago, this very day, in this same cold, and sunless spot, (perhaps it mite hav been yure sister) far away from human eyes, or human footsteps. It waz winter then, so it iz now, but they call it spring. Yu are too gentle for this cheerless place, do the fairys visit yu, and whisper words ov luv and hope. Yu need'nt hang yure hed and tremble, i wont hurt yu, gladly would i swop places with yu, neglected az yu are, yu kant be lost, i may be. Stay right whare yu are little innosent, the fust luv sik maiden i kum akrost, i will send to keep yu company, she will hav a lot ov silly, and soft things, to tell yu.

THE GRASSHOPPER IZ A BURDEN

The grasshopp iz a flippant bug. He iz likewise a kuss. He iz green for color, and haz several leggs, or more, i disremember witch. They kan fli, hop, walk, sit still, or run, and are born ov eggs, a dozen from each egg, proberbly. They are an inch and a quarter in length, and are sumtimes a frackshun over. They are laid, hatchid out, git their manhood, and die off in 75 days, this iz aktual bizzness, and shows enterprize, in a lofty degree. What they are good for, haz been concealed from us, for wize reazons, but the evil they kan commit, iz sumtimes equal to a famine. I hav seen every green thing, on the flatt ov the earth, for 50 miles in diameter, et up bi them, and millyuns ov them besides starving to deth. I have seen the air filled with them like a shower ov sand, and nothing but stone fences, and McAdam roads, proof against their appetights. To be et up bi grasshopps, to be consumed bi muskeeters, or mangled bi a mule, hav allways been the three deaths that i hav voted against. But az mutch az i fear the dedly hopper, i had rather face a mile square ov them, all alone, in the month ov August, or i had rather cross the Newark marshes, bi moonlite, in Juli, when muskeeters are in their consumate glory, or even fondle the sportive mule, than to hav a *nusepaper kritick*, who writes for 8 dollars a week, git after me.

THE APPLE.

The apple iz the oldest fruit on reckord, and one ov the best. The fust ackount we hav ov it, was in the gardin ov Eden. Eve iz sed to hav et the fust one, and pronounced it good, and made Adam take a bight. The eating ov this apple never has been konsidered mutch ov a hit for the rest ov us. The apple will keep longer than enny other fruit, if it aint eaten, and kan be workt up into apple sass, and dumplings, with grate suckcess.

I kan tell a mans tru karakter, bi what he eats, or drinks, clusser than i kan to hear him deliver a tempranse lektur. Talk of all kinds iz artyfishall, but vittles, and drinks, iz natur. Whenever yu see a man cussing, and swareing at apple sass, and good light dumplings, yu can bet 10 dollars, on mi ackount, that he aint a good fireside man. Apples also, when they are well squeezed, produce cider, which iz next to milk, az a fertilizer. Egnogg owes most ov its glory unto cider. Champagne wine would be dredphull skarse in market if it want for cider, and good sharp vinegar would be az unkommon az piety, or tru affeckshun, if it wazn't for cider. Jersey lightning also kums from cider, this iz the only wicked thing i ever knu cider to do. Jersey lightning haz scalded more people than hot water ever haz, and killed more than Minnie rifles.

THE AVERAGE BOARDING HOUSE.

I hav lived in boarding houses long enuff to decide, that most ov them are the most cheerless, and unfriendly places on earth. The alms house, or the hospital, iz a more luvly spot to liv in, than the average boarding house. They are kept bi females, gennerally about 45, or 46, years old, and never gits enny older, who wears a blak allpacka dress, az slippery, and shiny, as a piece ov pattent leather, and who kan blo a butcher klean out ov hiz stall, or lift the false hair oph from the heds, ov one ov her Bridgets, when she gets to argueing the case hot.

Her house iz furnished from top to bottom with faded furniture, the spoils ov a thousand aukshun sales, which iz the only place she visits, except the meat, and vegetable markets Everything on the table, and about the house, inkluding attendance, iz meazzured out at the rate ov about nine ounces to the pound, and the whole thing runs dry, and squeaking like the axles ov a waggon, in want ov grease. Thare iz not one solitary, genuine cumfort, in theze concerns, and men, and wimmin, liv, year after year, in theze hash asylums, cursing them every day, and without the moral force to desert them.

I was once told ov one landlady who kept a party ov four young fellows in her house, two months longer than they wanted to stay, bi putting a ten cent stamp into the hash every morning. The landlady dealt out the hash, and managed to get the stamp every time.

THE BOOK CANVASSER.

The book canvasser iz a red hot being, az untiring az a fox hound, and az free from diffidence az a fish pedlar. He works hiz way into every spot in kreashun, and will often sell a book to a man, for hiz own price, who swore at first that he wouldn't take it az a gift. He will travel more miles in a day, on less hash, than a stage horse, and kan stand more abuse than a chinaman. The book canvasser haz bekum the terror of the land, and mankind hide from him az they would from the taxgatherer, or a case ov the small pox. I rather like the book canvasser, when a man pitches into me, and offers to sell me 650 pages ov "*Doktor John Hirsute's modified diagnosis ov the cappilliary attrakshun*," and stiks to it untill he gits the book onto me, i am delighted with the man, and proud ov miself. It takes genius to do theze things, and i luv genius in all shapes, whether it appears az the author ov a dikshionary, or the pattentee of bar soap, warrented to take the letterings off from a mile stone in three washings. The book canvasser haz mi hottest prayers for hiz sukcess, and tho i never ov late subskribe for enny thing, not even to buy the new klergyman an independant seckond hand trotting kronometor, still i am allwus reddy to reckomend him to mi nabors.

THE CHIPMUNK.

The chipmunk iz the smallest of the squirrell tribe. They are striped goods, having three blak lines wove into them, running the same way the squirrell duz. Az a spekulator in corn the chipmunk stands at the hed ov all the small operators, beating the blujay, in hiz yearly operashuns about a quart. The chipmunk carrys hiz corn in hiz mouth, and when he cums out ov a cornfield loaded with the cereal, his cheeks stik out like a duch baby's. Sumtimes the chipmunk iz kaught and kept in a cage, and iz made to turn a wheel for a living, this iz the only usefull work they hav ever been known to do. I hav often lookt at them at work in their wheels, and dont kno which i pitty the most, the chipmunk, or the party who has to tend them, both of them mite be in better bizzness. They are the only insekt who dig their holes and sho no pile ov dirt at the entrance. I hav asked sevral smart men what bekums ov the dirt, but they all shook their heds and lookt awfull wize. When i waz a boy i used to ketch chipmunks bi running away from skool, and the day that I brought in two ov them waz a big day for me.

REMARKS.

Three kard monte iz a game ov chance, the chance iz, that yu will git badly beat, unless yu play it alone. When thare iz 2 plays the game, sumbody iz bound to git hurt. Girls are a more risky crop to raize than boys, if a boy makes a bad blunder, he kan wipe out the slate once, or even twice, and begin again, but a girl kant. I kant tell who old Probabilitiz iz, but he iz a smart kuss, aint he? Whiskee iz one ov the tonicks, i think, but i aint sure, i kno it iz one ov the tanglelegs, for I hav seen it tried often. Yu kan sell a fast horse in Nu York at yure own price, provided he iz fast enuff. But dont bring enny 3 minnitt kattle to Nu York, the ice kream, and the milk men, drive faster than that. Our old fellows, in Nu York, menny ov them who hav seen 70 years, when they go out onto the hard roads, dont take enny but 2.25 dust. Speaking ov kats mi opinyun remains unchanged, they are az full ov flaws, az a March wind iz. Yu kan make a lawyer, or a minister ov your son, either ov them are decent callings enuff, but neither ov them will make him respektabel, unless they are well filled Nuzepaper hacks are harder workt, and poorer fed, than livery stable horses. Authors, and skribblers, az a klass, are a self konsaited, and seedy set, and I believe a literary man, when he gits poor, and shiny, iz the poorest looking kritter on the footstool.

THE MUSKEETER.

Muskeeters are a game bug, but they wont bite at a hook. Thare iz millyuns ov them kaught every year, but not with a hook, this makes the market for them unstiddy, the supply allways exceeding the demand. The muskeeto iz born on the sly, and cums to maturity quicker than enny other ov the domestik animiles. A muskeeter at 3 hours old iz just az reddy, and anxious, to go into bizzness for himself, az ever he iz, and bites the fust time az sharp, and natral, az red pepper duz. The muskeeter haz a good ear for musik, and sings without notes. The song ov the musketo iz monotonous to sum folks, but in me it stirs up the memorys ov other days. I hav lade awake, all nite long, menny a time and listened to the sweet anthems ov the muskeeter. I am satisfied that thare want nothing made in vain, but i kant help thinking how mighty kluss the musketoze kum to it. The muskeeter haz inhabited this world since its kreashun, and will probably hang around here until bizzness closes. Whare the muskeeter goes to in the winter iz a standing konumdrum, which all the naturalists hav giv up, but we kno he dont go far, for he iz on hand early each year with hiz probe fresh ground, and polished. Muskeeters must be one ov the luxurys ov life, they certainly aint one ov the necessarys, not if we kno ourselves.

THE BEAN.

Next to rhy bread, beans hav been called by the poets, and philosiphers the cumfort, and staff ov life. The bean iz all food, thare iz no more waste in them, than thare iz in a pint ov cold water, when a man iz auphull dry. Beans are all colors, and most shapes, flat, round, oblong, square, and 3 cornered, and a quart ov them put into a pot, and biled 2 hours, will meazzure a gallon, and a haff, when they cum out. This makes them a better dividend paying seed than enny thing we kno ov. Beans are az old az Esau, he sold out for bean porridge. Beans gro on the jump, and thare aint but phew things that kan beat a bean klimbing a pole. I luv beans, but dont hanker for them. But beans, and me wont quarrell. Baked beans are a grate necessity in Nu England, and not to hav a platter ov them for Sunday dinner, iz lookt upon thare az being stuck-up to the neighbors. One ov the old blue laws ov Massachusetts waz, "*thou shalt eat baked beans on Sunday.*" I kan remember now ov eating baked beans, and rhy, and injun bread every Sunday, when i waz a boy, and luvng it, bekauze i waz obliged to.

THE GORRILLA.

The gorrilla iz a free-born citizen ov Western Afrika, and in point ov intilekt, averages well with the rest ov the natives. They are about 5 foot 3 in hight, and hav got a sanguine temper, wuss than a fish womans. I never saw but one gorrilla, and he waz not filled with life, but waz filled with straw. I dont want to see another, it weakens mi respekt for mi ansesstors. They are four legged, and kan walk purpendikular, or horizontal, but when they do walk uprite, they are the wust looking relashuns we hav. They liv alone, and are more terrible in a ruff and tumble fite, than enny person that livs. I hav allwuss wondered whi sum one didn't import one into this country, and match him for 2 thousand dollars to fite in a ring. I am oppozed to ring battles, but when this skirmish takes place, i want to be there, and bet my patrimony on to the gorrilla. May the best man win. The gorrilla haz a good appetight, for one that haint been kultivated, and will eat enny thing he kan ketch, from a coloured brother to an anakondy The gorrilla iz no doubt good for sumthing, but what that iz i kant tell, nor dont want to know. Farewell yu auphull, ugly, miserable kuss.

The end ov the gorrilla.

WEIGH.

The devil holds poor kards, but he allwuss plays them mighty well.

A man with a very small hed iz like a pin without enny, very apt to git into things beyond hiz depth.

THE APPLE DUMPLIN.

The dumplin are about the natral size ov yure phist, made out ov dough, and filled with apples. They are served up hot, with sum sweet-tasteing liniment on them, and are az eazy to struggle with az a sugar-plum. They aint so good kold az they ought to be. Kold dumplin, and raw potatoe, eat similar. I never et apple dumplin yet, without thanking the Lord for that one, and the Landlady for another one. Four apple dumplins, at one sitting, iz just about mi size. I wish i knu who invented theze kind-hearted balls, i would like to weep over hiz memory. Punkin pi, and apple dumplin, hav dun az mutch to civilize man az enny two missionarys that hav ever lived. Good vittles iz next to good morals enny how. Yu may talk about virtew az mutch az yu pleze, yu kant never inokulate a man with virtew fust rate on an empty stummuk. Giv a man four apple dumplin, with sum good kind ov ointment on them, and after he haz et them, and they hav settled down to hard pan, yu kan krawl up to him on either side, with a dose of morality, or even sum new kind of sope, for taking spots out ov clothes.

PUNKIN PI.

Punkin pi iz the sass ov Nu England. They are vittles and drink, they are joy on the haff-shell, they are glory enuff for one day, and are good kold or warmed up. I would like to be a boy again, just for sixty minnits, and eat miself phull ov the blessed old mixtur. Enny man who dont luv punkin pi, wants watching cluss, for he means to do sumthin mean the fust good chance he kan git. Giv me all the punkin pi i could eat, when i waz a boy, and i didn't kare whether sunday-skool kept that day or not. And now that i hav grown up to manhood, and hav run for the legislature once, and only got beat 856 votes, and am thoroly marrid, thare aint nothing i hanker for wuss, and kan bury quicker, than two-thirds ov a good old-fashioned punkin pi, an inch and a halff thik, and well smelt up, with ginger and nutmeg. Punkin pi iz the oldest Amerikan beverage i kno ov, and ought to go down to posterity with the trade mark ov our grandmothers on it; but i am afrade it wont, for it iz tuff even now to find one that tastes in the mouth at all az they did 40 years ago.

ECCENTRICITIES OF GENIUS

By Major J. B. Pond.

READ WHAT IS SAID OF IT.

"It is distinctly one of the most interesting books of the year from any point of view."—*Rochester Sunday Herald*.

"It is many a day since I have read so fascinating a book of reminiscences. Many a day—or perhaps I should have said a 'night'—for this volume has given me delight during hours, when, according to the laws of nature, I should have been asleep."—*Newell Dwight Hillis*.

"One of the most simple, naive and straightforward books ever written. It fairly reeks with personality.... No man living has had such interesting association with so many interesting people."—*Home Journal*.

"Adorned by many pictures, never before published."—*Detroit Journal*.

"Possesses unparalleled attractions."—*Boston Journal*.

"Major Pond goes deep into his subject, tarnishing pen-portraits that are admirably clear and graphic."—*The Mail and Express*.

The whole book, stuffed as it is with anecdotes and extracts from personal letters, is marvelously interesting."—*Boston Transcript*.

"All the world loves a teller of stories, and readers will surely take approvingly to the man who gives them so much of entertaining reading as is found in Major Pond's 600 pages of bright personal description."—*N. Y. Times*.

"Shining by reflected light, its pages literally teem with interesting anecdotes of many sorts."—*Chicago Evening Post*.

"Originality stamps the volume, copiously illustrated with portraits."—*The Boston Globe*.

"It has a thousand charms, and a thousand points of interest. It is full of striking gems of thought, rare descriptions of men and places, biographical bits that delight one by their variety, and the distinction of those alluded to. From a literary view it is as interesting as Disraeli's famous "Curiosities of Literature."—*Philadelphia Item*.

"If any more charming and interesting book has appeared this season, it has not come to our notice. The get-up is worthy of the matter of the book."—*Philadelphia Evening Telegraph*.

It is a handsome octavo volume, 5-3/4 x 8-3/4 inches, of 620 pages, with nearly 100 half-tone portrait illustrations. Beautifully

bound in English silk cloth, with gold stamp
on side, gilt top. At all Bookstores. \$3.50.

THE VOYAGE OF ITHOBAL

BY

SIR EDWIN ARNOLD

Ithobal was the first African explorer we know about. He was a sea captain of Tyre, who rescued and married an African Princess, and then induced the King of Egypt to put him in charge of a voyage of exploration of the wonderful land of his wife's birth.

After a voyage of fifteen thousand miles around Africa, he returns after numerous and exciting adventures, which bring out almost every feature of African life and scenery. Ithobal relates the story of his enterprise in a discourse of seven days before the throne of Pharaoh, who crowns him with honors.

SIR HENRY M. STANLEY, in a letter to the author, says of it:—"You have added greatly to the happiness of many of your race by the production of so unique a poem, so rich in the beauties of the sweet English language."

Other able critics who have read the blind poet's new epic poem unite in calling it even better than the old favorite, "The Light of Asia."

12mo, Cloth, Gilt Top. Illustrated from 36 drawings by Arthur Lumley.

EQUAL PARTNERS. By Howard Fielding.

By HOWARD FIELDING. "This is a thoroughly enjoyable detective story, written in good, crisp style, and with a decided surprise in the last pages. It is adroitly contrived that almost every character in the book shall be suspected of the crime of attempted murder before the actual culprit is discovered. The characters are excellently differentiated, and the story is vastly diverting, nor are there any repulsive features about the book. It is a stirring tale and will enliven a dull evening successfully."—*Chicago Tribune*. Illustrated. Cloth bound.

DORIS KINGSLEY, *Child and Colonist*.

By EMMA RAYNER, author of "Free to Serve," "In Castle and Colony," etc. This story of the South in the first half of the eighteenth century, opens with one of the strangest episodes in the early history of South Carolina—the pursuit and capture by the Governor of Carolina of a pirate vessel, full, not of treasure, but of English men and women; and the selling of those same unfortunate voyagers as bond servants in the colony. Doris Kingsley, a child stolen from the streets of London, is the youngest of the party, and is the heroine of the story. Doris Kingsley is a novel of absorbing interest, dramatic and historically true. Illustrated. Cloth bound.

OLD JED PROUTY (A Narrative of the Penobscot).

RICHARD GOLDEN and MARY C. FRANCIS. In "Old Jed Prouty" the reading public is presented with a New England character story of unusual interest and merit. The plot, although not an involved one, hides enough mystery to lend the spice of the unknown to the reader's zest, and the simple and

natural dénouement emphasizes the high moral ethics of the story, and throws into strong relief the deep human sentiments that dominate the tale. Standing out above all, infusing into the fiber of every chapter the rugged sincerity, the homely wit and the quaint philosophy of New England, is the central character about which the pivot of the story turns, "Old Jed Prouty," real in name and real in goodness, who at the time of his life, some thirty years since, was a landmark in the Valley of the Penobscot. Cloth bound.

A MASTER OF FORTUNE, being Further Adventures of "Captain Kettle."

By CUTCLIFFE HYNE. "It has the dash and tinge of reality that makes you feel as if you were in the midst of it all."—*Detroit Free Press*.

"The many readers who followed with bated breath the wild adventures of Captain Kettle in the book named for him, will welcome Cutcliffe Hyne's new collection of tales dealing with that remarkable sea dog. The volume is well called 'A Master of Fortune.'"—*Philadelphia Press*.

"Nobody who has followed the gallant sailor—diminutive, but oh, my!—in his previous adventures around the earth, is going to miss this red-hot volume of marvelous exploits."—*N. Y. World*. Illustrated. Cloth bound.

THE ADVENTURES OF CAPTAIN KETTLE.

By CUTCLIFFE HYNE. The best sea story since the days of Marryat. Captain Kettle is a devil-may-care sea dog, half pirate and half preacher. The author carries him through many hairbreadth escapes and makes him a character

that will live long in the annals of fiction. The success of this book is marvelous. Over 80,000 copies have been sold. Illustrated. Cloth bound.

THE MULLIGANS. A Novel.

By EDWARD HARRIGAN. The *New York World* says: "Mr. Harrigan gave to his Mulligan dramas the most distinctly typical character plays which have ever been seen on the native stage. They were studied and displayed straight from the life of New York and their popularity was unbounded.

His book is one of the most generally interesting of the new season's output."

It is a marvelously entertaining novel, possessing a keenness of wit and humor unsurpassed by any recent work. All the characters stand out, as true to life, as natural and as vivid as if portrayed by Dickens. 12mo. Cloth bound. Illustrated. Price,

NORMAN HOLT, a Story of the Army of the Cumberland.

By GENERAL (Capt.) CHARLES KING. "No more charming historic war story has ever been written. It is Captain King's best, and bearing, as it does, on the great battle of Mission Ridge, although the story is woven in fiction, it adds an invaluable record of that gigantic contest between the two great armies."

"The characters are real, their emotions natural, and the romance that is interwoven is delightful. It is wholesome and one of General King's best, if

not his best book."—*N. Y. Journal*.

"From the first chapter to the last page the interest of the reader never fags. General King has written no more brilliant or stirring novel than 'Norman Holt.'"—*N. Y. Press*.

Illustrated, cloth bound.

JOHN HENRY, (25th Thousand.)

By HUGH MCHUGH. "'John Henry' has just 'buted' its way in between the literary bars and capered over the book counters to the tune of twelve thousand copies before its publishers could recover their breath.

"Every page is as catchy as a bar from a popular song.

"The slang is as correct, original and smart as the newest handshake from London.

"In the lottery of humorous books 'John Henry' seems to approximate the capital prize."—*N. Y. Journal*.

"All who have laughed over 'Billy Baxter' will heartily enjoy this book."—*The Bookseller, Newsdealer and Stationer*.

Cloth bound.

THE KING OF HONEY ISLAND, (45th Thousand.)

By MAURICE THOMPSON, author of "Alice of Old Vincennes," etc. "'The King of Honey Island' bears quite as many marks of the genius of the author as does 'Alice of Old Vincennes,' with the additional charm, perhaps of more buoyancy and beauty of thought and expression. In 'Alice' Mr. Thompson plumed himself as a master word painter. In 'The King of Honey Island' he developed into a veritable American Ouida, for his descriptive powers are marvelous. Like the true artist that he was, he paints Nature as it looks, not as it is, so that the reader, in glimpsing the battle of New Orleans, hears, almost, the cannon's roar."—*The Topeka Capital*.

Illustrated, cloth bound.
\$1.50

JOHN WINSLOW.

By HENRY D. NORTHROP. "'John Winslow' is one of those inviting books of country life of which the best part of 'Eben Holden' has come to be the accepted type. Plenty of shrewd common sense in the chief character, a dash of love on the side, an incidental and inevitable bit of human wickedness—but everything in the picture and the framing attractive. This is a book for a wide reach among readers."—*N. Y. World*.

"Properly ranks with 'Eben Holden,' 'David Harum,' and 'Quincy Adams Sawyer.' The four may be put in a class by themselves as distinctive types of homespun Americans."—*The North American*.

"Worthy to live with 'David Harum' and 'Eben Holden.'"—*Publishers' Weekly*. 12mo, illustrated, cloth bound.

UNDER A LUCKY STAR, a New Book on Astrology.

By CHARLOTTE ABELL WALKER. Tells what occupation to adopt, and what line of life to follow, what associates and partners to choose, how to recognize the possibilities and limitations of our friends and ourselves, and of other important matters to human life, including suggestions on marriage, being mainly culled from the minds of ancient and modern philosophers. Illustrated, cloth bound.
\$1.50

THE WAY OF A MAN WITH A MAID.

By FRANCES GORDEN FANE. A clever, well-written story, full of love and pathos, and thrilling with dramatic crises. Each step of the domestic tragedy is skilfully portrayed, until the final climax is reached.

"Its author has made it a powerful, telling story to read."—*N. Y. World*.

Cloth bound.

THE CROSSROADS OF DESTINY, a Story of Chivalry in the Fifteenth Century.

By JOHN P. RITTER. Author of "The Man Who Dared." This is a wonderfully interesting story, and will find a welcome with all who love to read of deeds of chivalry.

TRANSCRIBER'S NOTES

The wayward spelling and punctuation are special features of this text. I have therefore made no attempt to correct apparent typos or missing punctuation marks, as at least SOME of the errors are intentional.

There are only three exceptions:

1. the correction of "C" to "G" in line 11 of page 36;
2. the insertion of the missing number 1 in the list on page 38;
3. the insertion of the missing number 1 in the list on page 45.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
