DITCHING PROCEDURE

1. The first series of ditching positions for the B-29 were suggested by the "BOEING AIRCRAFT COMPANY", manufacturers of the aircraft. These positions were on trial, but were as logical as could be devised without actual ditching experience. The Boeing procedure and its various modifications have all been steps in the right direction. Changes have been based on actual ditching experience and procedures set forth here are results of all ditching experiences to date. They are not to be considered permanent. As new ditching characteristics of the B-29 are learned, they will be incorporated to assure the safest procedures possible.

2. The importance of these approved methods cannot be stressed too highly. Modifications in these procedures may NOT be made at the discretion of the airplane commander.

3. Experience to date proves that ditching characteristics of the B-29 are superior to those of any other aircraft now used by the Army Air Forces. The greatest factor in ditching is the airplane's buoyancy qualities. The B-29 has demonstrated, even during mediocre ditchings, that it will stay afloat for long periods and does not sink easily. On a moderately successful ditching, the aircraft is apt to stay afloat for at least ten (10) minutes and may float for several hours.

4. Ditching impacts are severe. Every precaution must be taken to pad against impact in the ditching position. Parachute, cushions, clothing, etc., will be used for this purpose. During impact the individual's head must be well protected. The flak helmet will be worn only when the head can be braced against something substantial. In all positions, the legs should be flexed to absorb the effects of a sudden jar.

5. When injured crew members are aboard they will be put in the proper positions and/or supported between the legs of other crew position. This may be difficult, but it has proven successful on numerous occasions.

6. Ditching position practice, as a part of completed ditching drill, is a "MUST" for all combat crews. Every step in ditching procedure must be practiced and learned thoroughly by the entire crew as a unit, in order to eliminate confusion. Practice it against time until the entire process becomes second nature.

Paragraphs 7 through 91 are Ditching Procedure instructions for the various B-29 crew positions. These are reproduced separately for insertion in the applicable S.O.P.'s for these positions.

92. If time permits, take one or more parachutes from the ditched aircraft. The silk can be used to catch rain water and the shrouds have no end of use. The web belt, which supports the canteen, should be buckled on after removal of flak vests.

93. Prior to ditching all escape hatches will be jettisoned or opened to prevent jamming in the event that the fuselage accordions.

94. An important phase of crew cooperation is the estimation of time remaining aloft and the position where the ditching will take place. The most efficient Air-Sea Rescue Agency is only as efficient as the cooperation it receives from crews in distress. The rescue agency must get notification of the ditching and the position. Crews must practice transmitting procedure until it becomes S.O.P. The engineer, with the information available, will make an estimate as to the time remaining aloft. This information will be passed to the navigator, who, on the basis of the information supplied, will estimate the position of ditching. The position will be given to the radio operator who will transmit the information to personnel who can effect a rescue.

95. This system of cooperation will not always be applicable, but it is a framework for crew cooperation.

EQUIPMENT:

96. Combat crews are subject to last-minute changes in aircraft. Therefore, it is essential to standardize the location of emergency

equipment within the aircraft. Individual responsibility for the removal of this equipment must also be fixed.

97. The locations of the emergency equipment are based on their accessibility for the crews when in ditching position.

98. The later B-29 aircraft are equipped with the new modified E-2 raft. This raft has its accessory kit lashed to the raft itself. The older type utilizes the A-3 raft which stows the accessory kit in the airplane proper.

CHANGES:

99. As new developments are made in the Air-Sea Rescue field, existing procedures and equipment will be modified. Research in this field is being conducted in the United States as well as in the theatres of operation. The new information, as it becomes available, will be disseminated to the units of the command via publications and by Personal Equipment Officers.

-----END-----

100. A combat crew thoroughly trained in procedures and equipment is a crew with plenty of life assurance which may, one day, pay the largest kind of dividend----HUMAN LIFE-----.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
