Introduction

Ability to draw easily and well on the blackboard is a power which every teacher of children covets. Such drawing is a language which never fails to hold attention and awaken delighted interest.

It has been considered impossible for most of us, because we have never done it. It has been strongly recommended, but no one has really shown us how.

A book like this which does show how, step by step, from the first practice strokes to completed and effective sketches, will be everywhere welcome. No one can follow the plain suggestions given without appreciating the possibilities of chalk and charcoal for ordinary school-room illustration, and finding in himself a steady development of power to sketch on the blackboard.

The book is not the product of theories about drawing, but the fruit of long experience of one who has drawn with and for children and students and teachers, and has been more successful than any one I know in inspiring them by that means. I welcome the book and predict for it a potent influence for increasing and improving blackboard drawing throughout the schools of the land.

WALTER SARGENT.

North Scituate, Mass.

Author's Introduction

This collection of blackboard sketches and the accompanying text has been planned at the request of many teachers and pupils who desire lessons and suggestions along this line, but who are unable to secure personal instruction.

In general, these requests have been for simple sketches dealing with the various lines of school work, and at the same time for strokes and explicit directions for using these in the drawings. For these reasons there are given upon nearly every plate the strokes of the chalk useful in producing the desired effect, and upon the opposite page such directions as are generally given to the students in the classroom.

A few of the lessons deal with the strokes and their application to the very simplest objects possible, but even these may be found useful as illustrative material. They are recommended in order that the teacher may become familiar with the medium, and with the simplest and the most direct manner of handling it before attempting sketches which require a great variety of touches. I have tried to have the other sketches cover as great a variety of subjects as possible.

Plates [3](#), [5](#), [8](#), [10](#), [11](#), [13](#), [14](#), [15](#), [16](#), [17](#), [18](#), [22](#), [23](#) and [29](#) have been used with the little people in different forms of stories, language and reading lessons. Plates [7](#), [8](#), [9](#), [10](#), [11](#), [18](#), [27](#), [28](#) and [29](#) are suggested for geography lessons in various grades. Plates [8](#), [14](#), [15](#), [16](#), [17](#), [18](#), [27](#), [28](#) and [29](#) may be used in history lessons. Plates [1](#) and [3](#) have been used in primary numbers, and plates [27](#) and [28](#) for arithmetic, when the problems had to do with commission, measurement, etc., or when the problems referred to lumbering or manufacturing. Plates [4](#), [5](#), [6](#), [11](#), [12](#), [13](#), [19](#), [20](#), [21](#), [22](#), [23](#), [24](#), [25](#), [27](#) and [28](#) will be found helpful in many lines of nature study, especially when the nature specimens are difficult to obtain. Plates [9](#), [24](#), [25](#) and [26](#) illustrate the value of this line of drawing in the study of literature; and many of the other drawings may be used in a similar manner. The teacher who uses this type of illustrative sketching will readily see how the drawings may be applied to other subjects.

Teachers have occasionally asked for illustrations for the different months of the school year, something to use with calendars, or for different holiday drawings. Several sketches given on the plates are suitable for the various months. For calendars I suggest discarding the plaided pumpkin for November, the numbered bricks in a fireplace for December, the kite covered with numbered squares for March, etc., etc. A regular numbered calendar may be used, with an appropriate sketch above or at one side. See Plate [13](#), goldenrod. The holiday itself should suggest the character of the sketch.

Although these sketches are recommended as illustrations for certain subjects, it is not intended that the teacher should merely copy these drawings, but that she should be able to appropriate these strokes, enlarge upon them, and apply them in illustrations for the particular subjects she is teaching; and there are many subjects which require just this sort of expression on the part of the teacher.

“Children are not all ears; they take in more through the eyes than in any other way.”

Since all teachers know this is true, they should realize the usefulness of illustration on the blackboard.

A few moments now and then devoted to the practice of these strokes, and frequent application of them, will enable the teacher better to express and emphasize certain facts, details, or incidents connected with a lesson; better to hold the interest and attention of the class, and more readily to create an interest in drawing. She will thus, by example, lead the children to make the drawing a natural and spontaneous means of expression.

FREDERICK WHITNEY.

Plate 1

PLATE 1

For the first lesson I advise trying the simplest possible stroke, and its application in the sketching of very simple things. The stroke is a straight mark with the side of the chalk.

Take half or two-thirds of a stick of chalk, discard the small end, and use such a piece in nearly all the lessons given. In this case place the chalk horizontally upon the board, and drag it gradually downward, keeping an even pressure upon the chalk. Try this in various directions.

The oblique lines show what a variety of width may be obtained by changing the angle of the chalk. At 1, the full length of the chalk is required to give the broad stroke desired. At Nos. 2, 3, 4 and 5, the line above the stroke indicates the angle at which the chalk is placed in order to give the width of the strokes below. The use of the chalk in this manner enables one to obtain any desired width of line, without constantly changing the piece of chalk. A light or dark tone is produced by varying the pressure upon the chalk.

In drawing the telegraph pole, draw first a delicate vertical stroke, then add the horizontal cross pieces with a stronger accent, and last the white strokes indicating thickness.

In the case of the chicken coop, draw first the oblique slats, then with a stronger pressure upon the chalk, add the horizontal slats, and lastly, with the point of the chalk add the accented bits of detail.

Almost any simple object composed of straight lines may be drawn in this manner.

Plate 2

PLATE 2

The strokes upon this plate are more often used than any others which will be given in these lessons. These strokes are made by holding the chalk by one end rather than in the middle, and then by drawing in any direction desired, letting the pressure come at the end of the chalk, thus giving a graded stroke from side to side. For example, stroke 1 was made by taking about two-thirds of a stick of chalk, holding it by the left end, placing it horizontally upon the board, and then drawing downward, accenting a little with the left end of the chalk. Stroke 5 was made in a similar manner, the chalk being held by the right end, and the pressure being also at that end.

Practice these strokes in many directions, and then apply them to drawing some simple objects. On the plate the cylinder, barrel, and canoe are illustrated to show the application of such simple marks.

In the cylinder, strokes 1 and 5 are used for the left and right outlines; then three curving strokes will finish the top and bottom.

In sketching the barrel, use similar strokes, curving them a bit. Add curving strokes for the hoops, using a short piece of chalk; then add markings here and there with the point for details.

The canoe is one long, nearly horizontal stroke accented at the upper end of the chalk. A few small touches similar to those at 3 will give the rocky shore, and a line or two with the point, the necessary details.

Plate 3

Plate 3

PLATE 3

The lesson planned at illustration [3](#) is useful in a number of school lessons in the lower grades. I have seen it used in teaching reading in the first grade. In this case, some word from the lesson was written upon each apple, and the children were asked to see how many apples they could gather and put into the basket; in other words, to see how many words they could read. When a word was recognized, it was erased. Again, it has been successfully used in teaching number, form, etc. See also the ladder, plate [10](#).

Stroke 1 is made by placing the chalk upon the board in a vertical position and then drawing it across the board, varying the pressure frequently so as to give the effect seen in the basket. The strokes at 2 are produced in the same manner. Here the light spots in the stroke are alternated, coming beneath the dark spots in the stroke above. Try a number of these in the curving direction suggested at 2.

In making a sketch of a basket, draw lightly the elliptical top, then add as many strokes as are necessary to give the desired depth, and lastly add the handle. Strokes 3, and the ellipse below them, show the manner of producing this effect. Place the chalk horizontally at the top of the basket, decide where the handle should end at the opposite side, then draw upward with a heavy stroke, across the top lightly, then downward with a slight pressure. Keep the chalk in a horizontal position throughout the stroke. Add a line of accent to the nearest edge of the handle.

The tree trunk back of the basket is drawn with strokes 1 and 5, plate [2](#), the stroke being curved a bit at the lower end. The grass is added by the use of stroke 5, which is made by using a short piece of chalk, and by moving the hand rapidly up and down. A little accent may be used occasionally.

In drawing the apples study stroke 4. These are made like those on plate [2](#), by accenting with the end of the chalk. Use a very short curving stroke, first toward the left, then toward the right. Add stems, etc., with the point of the chalk.

Plate 4

PLATE 4

Lesson [4](#) introduces a stroke entirely different from those already given, and one which will require more practice in order to obtain the desired results and to apply it readily in quick sketches.

Stroke 1 is made by placing the chalk in a horizontal position upon the board, and drawing it downward, gradually twisting it to the vertical position. Stroke 2 is the exact opposite. Place the chalk vertically upon the board, draw it downward and gradually twist it to the horizontal position.

In drawing strokes 3 and 4, combine those already given at 1 and 2. For 3, place the chalk vertically, draw it downward, quickly twisting it to the horizontal position; then, without removing it from the board, bring it back to the vertical position. Try stroke 4, beginning with the horizontal position of the chalk, twisting it to the vertical, then back again to the horizontal position.

Stroke 5 shows a curving effect produced in the same manner as stroke 3, but with a curving instead of a vertical tendency.

In drawing the cat tails, use strokes 1 and 5 on plate [2](#). These are slightly curved at the upper and lower ends. Keep some of them very delicate, others quite white. The leaves are drawn by using strokes 1, 2, and 3, on plate [4](#). Let the tone desired in the drawing govern the pressure used upon the chalk.

The palms are drawn by using the same strokes. Draw first very delicately with the side of the chalk, then with strokes 1, 2 or 3 add stronger strokes for accent.

Plate 5

PLATE 5

A new stroke will be introduced for this lesson. It is a regular or irregular curve as the case may require, and is useful in all sorts of nature drawing.

First try the long curving stroke No. 1, accenting with the left end of the chalk. Reverse the stroke, accenting with the right end of the chalk. Now try No. 2, making a series of nearly parallel strokes, keeping the accent at the left.

The pumpkin is drawn by combining these strokes, varying the pressure to obtain the desired tone, and accenting with the left end of the chalk, then reversing the stroke for the right side of the pumpkin. Add the stem by the use of a few irregular strokes and a bit of accent.

Stroke 3 may be used in drawing any large leaves, such as squash, grape, etc. Try this in a great variety of positions, always keeping the accent for the edge of the leaf. Apply this in drawing the grape foliage in the illustration below. Draw first the mid-rib and then represent the surface of the leaf by using stroke 3. The grapes are added by the use of stroke 4, which is stroke 1 very much reduced. Let the grapes be drawn with a short, quick twist of the chalk. Lastly add stems and accent.

Almost any vegetables may be drawn after a little practice of the strokes given at 5. These are made exactly like stroke 1, with changes in direction. Try a single onion or carrot, then a group of vegetables. Do these as simply as possible, obtaining the effect, if you can, with three or four strokes, then add a few touches for details.

Plate 6

Plate 6

PLATE 6

The strokes given in this lesson, although not used as frequently as those previously given, are nevertheless valuable.

No. 1 shows the manner in which the stroke is produced. Place a piece of chalk in the position indicated by the line below the stroke, then swing the chalk rapidly back and forth, shortening the stroke and gradually twisting the chalk to the vertical position. No. 2 is produced in the same manner. Place the chalk obliquely as indicated, and keep the movement oblique, shortening the stroke, and twisting the chalk gradually to the horizontal position.

The fern is drawn by first sketching a few main lines, No. 3, and then upon these apply the strokes given as shown at No. 4. Hardly touch the board at first, keeping the tones very gray; then add a few white ferns as in the sketch.

No. 6 illustrates the same stroke used in a much bolder fashion and in a generally horizontal direction. After applying this stroke, accent here and there with a much shorter stroke, and add the trunk and branches.

Study the trees given on plate [12](#) in connection with this illustration and notice the variety of strokes given for the different trees.

Plate 7

PLATE 7

In this lesson we will put to practical use such strokes as those given in the first few lessons. The sketches of this character are often valuable in the schoolroom when studying the mountains, the hillside, the river, etc., and the teacher who, with a few strokes of the chalk, can interpret to her class the thing about which they are studying, and can make an illustration which the whole class can see and appreciate, has an invaluable gift.

Experiment with the strokes given at 1, 2 and 3. As in previous lessons the side of the chalk is used, and the accent is with one end. Try to give the effect of snow, of rocks, of a bright day, or of a cloudy day, by varying the tone or pressure upon the chalk. Sometimes use the chalk for sky, leaving the board for the hills. Then reverse the stroke, letting the sky remain gray and using the chalk to represent the mountain, accenting with the upper end of the chalk. No. 3 is a combination of 1 and 2, the chalk being used in both sky and mountain. In No. 4, the eraser or a soft bit of cloth is used to take out the trees after the chalk has been applied.

In the sketch given on the lower part of the plate combine the suggestions given above. A few short, curving strokes with the usual accent at one end of the crayon will give the rocks, and the irregular horizontal and zigzag strokes already given will produce the ripples in the river, and the foreground.

Plate 8

PLATE 8

In the exercise illustrated on the opposite page you will find combinations of the strokes already given, but they are varied somewhat in rendering these drawings. Any sketch or object to be drawn should dictate the kind of stroke to be used and the manner of handling the chalk, the pressure, accent, etc.

For the larger sketch, draw first the tree trunks as shown at No 1. Let the pressure be as gentle as possible, the chalk hardly touching the board. After these are massed in the background, erase a triangular spot for the wigwam, and with the oblique strokes 2, accented first at the left, then at the right, obtain the general form required. Stroke 3 is added at the top of the wigwam, and a bit of charcoal is used for the dark tone at the opening. Now add the decorative details.

In order to complete the sketch, use stroke 4 for the foreground. It is similar to those previously used, and is made by an irregular, up-and-down movement of the chalk.

A pond, a canoe, or other suggestive detail may be used in this sketch, and applied to the work in history, geography, language, etc.

Try the second little drawing, using similar strokes in a very simple manner.

Plate 9

PLATE 9

Lesson No. 7 gave a few suggestions useful in geography and landscape work. This time we will try another type which will doubtless be found equally useful.

Stroke 1 is a horizontal stroke accented at the lower end of the chalk by a decided pressure. This will readily give a tone for the sky and a definite line for the horizon.

At No. 2, the sky is drawn in the same manner, and charcoal or black chalk is introduced for the ocean. These touches are made with the side of the chalk in irregular, wavy lines.

Spray may be represented by massing a little chalk near the rocks or beach, and by rubbing the tip of the finger or a soft bit of cloth into the body of chalk, gradually blending it into the rocks or water. See No. 4.

To obtain a sketch like that given in this lesson, first draw the horizon, then the wavy strokes for the sea. The cliffs or rocks are drawn by using strokes like those at No. 3. They are irregular strokes accented with one end of the chalk. Here again the charcoal is useful in adding crevices or shadows in the rocks. Erase spots for the boats and add details.

The effect of a beach may be produced by using the same broad stroke as in the sky, accenting with the upper end of the chalk to give the margin of the beach. Add a few ripples and pebbles, or a bit of seaweed, using the point of the chalk.

The sketch given on this plate was used as an illustration for literature.

A heap of bare and splintery crags
Tumbled about by lightning and frost.

—Lowell.

Plate 10

PLATE 10

The sketch on plate [10](#) was suggested for geography. It is very simple and requires only strokes already used a number of times.

The sky and hill are represented by the use of stroke 1. Place a long piece of chalk vertically, the accent at the lower end giving the outline of the hill.

The marshy land is represented by a similar stroke carried in a horizontal direction. The board is left free from chalk in the case of the hill and the water. The village in the distance is added with charcoal, and the reflections in the water with little touches of chalk or charcoal.

Erase spots for the haystacks, and use stroke 3. This is a very simple curving stroke with the side of the chalk, accenting with the left end of the crayon; then a reverse stroke, accenting with the right end of the chalk. If shadows are desired they may be added with charcoal or black crayon. Observe that the tops of all the haystacks are on a level.

The sketch with the ladder was made for primary reading. Different words were written on the different steps of the ladder and the children tried to see how high they could climb; in other words, how much of the lesson they could read. If they read all of the words they could climb to the top of the haycock.

Plate 11

PLATE 11

Here again are very simple strokes which require only a little practice for accomplishment.

The distance is represented as in the last plate, and the grass and meadow are done in the same manner as the marshy land on plate [10](#); 1 and 2 show the strokes. A few up-and-down touches with a short piece of chalk are added in the immediate foreground.

The fence is drawn by the use of the strokes given on plate [1](#), and shown at 3 on this plate.

After drawing the field and the fence, erase for the tree trunk and tree and add the foliage. This is done with a short piece of chalk and a quick back-and-forth movement. See plates [6](#), [12](#), and [24](#) for other trees and strokes. The skeleton of the tree, as shown below the drawing, may be represented first, then the foliage added.

This plate will be found useful in the early spring, as it shows the tree in winter condition, the pussy willows, and the tree in summer.

Spots 4 show the treatment of the “pussies.” A very short curving stroke of the chalk is first made; then the finger is used to give the downy, soft effect. Sketch a few delicate lines for the stems, add the catkins as described above, and then finish the stems with black and white chalk.

Plate 12

PLATE 12

In sketching trees, one should bear in mind the general attitude of the tree, its characteristic form and branching, and the stroke which will best produce these.

One teacher can best draw the tree by using such strokes as those at No. 1 to give the trunk and branches, and then applying the stroke for the foliage; while another teacher does better work by massing the tree, as at No. 2, and then adding trunk, branches and details. Either method is good.

The strokes above the trees show the manner of representing the foliage of these particular trees. See plates [6](#), [11](#) and [24](#), for other trees.

Apply either of the methods described above, using half a stick of chalk placed flat upon the board and moved rapidly in the direction suggested by the stroke. For the elm it is a curving motion; for the poplar up and down; for the pine, back and forth; for the oak or apple, an irregular and slightly slanting stroke, etc.

After the mass of the tree is drawn, accent here and there with the same stroke, and add branches and details.

When working upon a gray background or against a light tone for the sky, use black chalk or charcoal in the manner described above.

S	M	T
	1	2
7	8	9
14	15	16

Plate 13

Plate 13

PLATE 13

As stated in the introduction, there have been many requests for suggestions for calendars. Whatever the month may be, draw a simple calendar large enough to be seen by the children. If a picture of some sort is desired, draw something which will be appropriate to the month and arrange it in a vertical panel at one side, or a horizontal panel above or below the calendar. The goldenrod on plate [13](#) will show what is meant by this arrangement.

All the strokes here given have been drawn before and are easily applied. Strokes 1 are given for the goldenrod, strokes 2 for the rose hips and leaves, 3 for the roses, 4 for the thistle, and 5 for the daisy. With a few light touches of the chalk indicate the growth and position of the specimen; then apply the strokes for drawing the surface of flowers and leaves.

In sketching the thistle the pointed details are added with the point of the chalk.

Plate 14

Plate 14

PLATE 14

At No. 1 is a very simple stroke made by placing a piece of chalk in a vertical position, and drawing it across the board in any desired direction, breaking it at regular intervals by lifting the chalk from the board. This stroke is useful in representing tiles, brick, stone, or any broken surface.

In this particular sketch a horizontal stroke is first made for the mantel, then the vertical strokes for the surface of the walls; then the bricks are added by the use of the strokes given at 1. Erase the space necessary for the fireplace, and add black chalk or charcoal, leaving the board where the fire is to be represented.

A few gray strokes with the side of the chalk will indicate the logs, and the use of stroke 2 will add the fire and smoke. Stroke 2 is made by massing a little white chalk, and then rubbing into it with the finger, gradually blending it into the tone of the blackboard. The details, andirons, etc., are easily added.

If this sketch is used for Christmas, add toys, sleds, stockings, or other objects suggestive of the day. They are all drawn with the side of the chalk, the direction of the stroke being dictated by the object.

The sketches in this and the following lesson may be used in work in history, or to illustrate the type of house used by the early settlers. The sketch on plate [15](#) is supposed to be Washington's home, and that on plate [16](#) is Lincoln's birthplace.

Plate 15

PLATE 15

Study the horizontal lines at No. 1. Though not like those in the sketch below, they show how any such cabin may be drawn. Try these strokes, accenting with the upper end of the chalk while making the horizontal line. Should one side of the building be lighter than the other, obtain the desired effect by varying the pressure upon the chalk.

No. 2 is made by the use of a long piece of chalk, and by keeping a smooth, even tone throughout the stroke.

Stroke 3 is made in a similar manner to that on plate [14](#) in the drawing of the bricks. Make it in a rather irregular fashion, and add little touches of detail with chalk or charcoal.

Stroke 4 is made with a very long piece of chalk, with strong pressure on the lower end. This will give a good tone for the sky and serve as an outline for the roof of the building.

In making this sketch, take a short piece of the chalk and use a stroke like No. 1, beginning with a very short line; and increasing the length of the strokes till the body of the house is reached and then keeping the lines of uniform length to the ground.

After the body of the building and the sky are represented, erase the logs where the chimney, windows, or door are to be drawn. Erase also whatever chalk may be upon the board where the trees are desired, and apply the irregular touches already given in drawing trees. Use chalk or charcoal, according to the tone desired in trees, windows and chimney. See stroke 3. See strokes on plate [16](#) and plate [12](#).

Plate 16

See lesson on previous
page - Plate 14

Plate 16
see lesson on previous page—Plate [15](#)

PLATE 16

Study the strokes given on the previous page, plate [15](#), for suggestions for sketching this cabin. Those at No. 2, No. 3, and No. 4 will be found helpful.

Use stroke 4, plate [15](#), for the outline of the roof and the sky, and add the smooth vertical or horizontal strokes for the sides of the building. Accent here and there with the point of the chalk and add details in a similar manner, but avoid a definite outline. Let the difference in tone make whatever outline is necessary.

After erasing the spots for doors and windows, add the strong dark tones with a bit of charcoal. The details at 1 and 2 on the plate will show how these are made. No. 3 shows the treatment for the roof.

After erasing for the trees, add a little charcoal and chalk, using the strokes given in the lesson on trees, plate [12](#). The grass and the details in the foreground may be added last. The sketch will readily show the strokes necessary and the movement of the hand in making these strokes.

Plate 17

Plate 17

PLATE 17

Whenever I have made a sketch of this kind it has always given great pleasure to the children, and proved of more or less value in history, or in story-telling in the lower grades.

Stroke 1 illustrates the treatment for the sky and the horizon. A few soft touches with the side of the chalk will indicate clouds. Blend the white tone into the gray of the blackboard. The chalk is held vertically and drawn across the board horizontally.

Next erase a spot or two for the sails and hull of the ship, and apply stroke 2. This stroke is made by placing the chalk in an oblique position and drawing a curving stroke downward, the end of the chalk giving the outline of the sail. In the drawing at the left a graded stroke was used, the eraser making the edge of the sail at the left and the chalk at the right.

Stroke 3 is desirable in representing the ocean. It is made by placing the chalk vertically upon the board and making a long, sweeping stroke, accented with the upper end of the chalk. In these sketches charcoal was used for the dark streaks in the water.

In drawing the hull of the ship, try stroke 4, using a short piece of chalk or charcoal. The chalk is placed vertically and a curving stroke is used with no particular accent. Add details with touches of chalk or charcoal.

Plate 18

Plate 18

PLATE 18

On plate [18](#) are suggestions for the month of March, or for geography, history, or occupations and habits of the people.

Apply a few delicate, horizontal and curving strokes to the board; then with a soft piece of cloth erase for the distance, as at No. 1. Use stroke 2 for the sides of the windmill, stroke 3 for the wings, and touches of charcoal for the windows.

Stroke 5, plate [3](#), will help in representing the foreground. Use the chalk very delicately, accenting here and there with stronger touches, and a vertical stroke now and then for the reflections in the water—stroke 4.

The strokes illustrated on plates [2](#), [3](#), and [5](#) will be useful in sketching the shores and other objects. Remember to allow the pressure upon the chalk to indicate the outlines of objects, and never to add definite marks with the point excepting for necessary details or high lights.

Plate 19

Plate 19

PLATE 19

This plate was planned as a review lesson, as well as to give illustrations which teachers might use for a great variety of purposes. All these strokes have been given before and are easily applied.

For the turkey, sketch lightly a circle; then with the side of the chalk add broad, gray strokes. See No. 1. After this is done, add short touches with the side of the chalk, for the wings, legs, feathers, etc.

Stroke 2 was given on plate [2](#), and, with the addition of the little slanting and curving strokes here given, will produce the lighthouse. This sketch will perhaps be useful in connection with plate [9](#), in teaching the seacoast.

Strokes 3 and 4 are similar to those given on plate [5](#). They are made by the use of curving strokes with the side of the chalk, the accent being upon the end forming the outline. This stroke is frequently used, the object to be drawn dictating the direction of the stroke. Apply these strokes in drawing the rat, the chickens, the mushrooms and the frog.

In the tree sketch, a background of gray is first drawn with the side of the chalk; then the strokes given on plate [6](#) are applied with charcoal, and the snowflakes added with strong touches of white chalk. If the candles are desired, omit the snow and use tiny strokes like those at 5.

No. 6 is desirable in representing the nest. After 6 is drawn, add stroke 4 for the eggs and finish the nest by using strong touches with the point of the chalk.

Plate 20

Plate 20

PLATE 20

The strokes on plate [20](#) are so well defined that it hardly seems necessary to describe them. For 1 a short piece of chalk is used, the side of the chalk giving the width of the line. At 2 the stroke is similar, the accent being at one end of the chalk. At 3 the stroke is slightly curving, the chalk being placed vertically, and the accent being upon the upper end of the chalk. No. 4 is drawn by placing the chalk vertically upon the board, drawing it downward very quickly and twisting it to the horizontal position. Apply these strokes in sketching the lobster. First use stroke 3, then touches like 2; afterward strokes 1 and 4 for details.

No. 5 indicates the strokes first used in sketching the shells. In drawing the outside of the nautilus, use a long piece of chalk and with a curving stroke accented with the end, form the outline. With strokes similar to those at 2, sketch the light streaks in the shell, and add dark details with charcoal. Use the tip of the finger in softening the tones here and there.

In drawing the section, sketch first the spiral curve, then the blended strokes connecting the outer with the inner curves of the spiral, and add charcoal for shadows.

The oyster shell is drawn by the use of the lower stroke at No. 5. Make the stroke, accenting a little at the left end of the chalk; then reverse the stroke, accenting with the right end, and add details with chalk and charcoal.

Plate 21

Plate 21

PLATE 21

The strokes and touches used upon plate [21](#) are more delicate than any previously given, though similar in character. No. 1 is drawn with the side of the chalk, the accent being with the left end. Allow the hand to tremble a bit and the texture desired is more readily obtained. Stroke 2 is produced in the same manner. After these are drawn add the shades, stems, and leaf with charcoal, and high lights with touches of white chalk.

Stroke 3 is exactly like that at No. 2, plate [20](#), though drawn with a much smaller piece of chalk. A series of these strokes, with the addition of touches with the charcoal and point of the chalk, as indicated in the sketch, will produce the caterpillar.

Strokes 4 and 5 are valuable in sketching a butterfly or moth. They are gray strokes with the side of the chalk, the pressure being upon the end forming the outline. In work of this kind study nature very carefully, as no sketch or copy can do what nature can for the teacher. After the general form of the butterfly is drawn with these light gray strokes, add the details, using touches of chalk or charcoal, and occasionally blending them with the tip of the finger.

Plate 22

PLATE 22

A very few lines will often indicate the pose or action of an animal. Try lines similar to those at 1; study other animals and try a few characteristic lines. See No. 1 for the squirrel and for the fish.

After practicing the pose, try 2 without sketching the lines with the point of the chalk, but by using the side, as in previous sketches. To finish the sketch add the few details necessary, as shown in the other drawings.

The strokes used in these sketches are given on several other plates. They are produced by using the side of about two-thirds of a stick of chalk, and by accenting or letting the pressure be greatest at the end of the chalk which is to form the outline. This type of stroke is perhaps most evident where the pressure was upon the left end of the chalk, as in the squirrel's back.

See also stroke 4, plate [3](#), and strokes upon plate [5](#).

Plate 23

PLATE 23

The strokes used in the birds are exactly like those described in the previous lesson.

Sketch first an egg shape, No. 1, using half or two-thirds of a stick of chalk, and pressing a bit upon the outer end, letting the stroke blend into the board.

Add to this a few blended strokes representing the form and position of head, tail and wing. The sketches at 2, 3 and 4 indicate upon which end of the chalk the pressure should come. Be careful to keep the delicate gray or middle tones.

After such drawings as those at 2, 3 and 4 are made, then add the characteristic details with the chalk and charcoal. It will be seen by studying these finished drawings that only a few touches are necessary to complete the sketches.

In order to obtain a contrast between the background and the head of the bird in the lower sketch, a little chalk was massed upon the board as a background. See plate [12](#).

The Birch-Tree.
On the brink of some wood-nestled lakelet.
Lowell—

I thought the sparrow's note
from heaven,
Singing at dawn on the
alder bough.
Emerson

**The Birch-tree.
On the brink of some wood-nestled lakelet.**

Lowell—

**I thought the sparrow's note from heaven,
Singing at dawn on the alder bough.**

Emerson

Plate 24

PLATE 24

These sketches are drawn as illustrations for literature, but would be quite as useful in some other studies.

The strokes at 1, 2 and 3 are those used in the tree sketch; 1 is obtained by two strokes of the chalk, placed vertically upon the board and accented by a pressure upon the lower end. These strokes give the sky and the hills in the distance. The use of the eraser and a few blended strokes like those at 2 will help in sketching the tree trunks. See plate [2](#). After these are done, add stroke 3, and with it mass the foliage. See suggestions on plate [12](#). The point of land in the distance and a few of the branches are added with charcoal.

Study the lesson on plate [23](#) before sketching the sparrow. Stroke 4 is made with a single broad mark of charcoal, and the addition of tiny touches with the chalk. The branch is drawn in a similar manner, and the background is added by a few soft and delicate touches with the side of the chalk.

Beautiful lily, dwelling by still rivers,
Or solitary mere,
Or where the slumish meadow-brook delivers
Its waters to the weir —

Linn's Fellow

Plate 25

Beautiful lily, dwelling by still rivers,
Or solitary mere,
Or where the sluggish meadow-brook delivers
Its waters to the weir——
Longfellow.

PLATE 25

This plate was used as an illustration for Longfellow's "Flower-de-luce." The pond-lily may be used in nature study or as an illustration for some poem.

The strokes necessary or useful in drawing these bits are shown at No. 1, No. 2 and No. 3. At No. 1 the chalk is placed in an oblique position, drawn gradually downward, and at the same time twisted to the horizontal position at the middle of the stroke. Try this stroke in a great variety of positions. The spots produced will be found useful in much of the flower and leaf drawing. Apply these in the fleur-de-lis.

The strokes at 2 for the leaves were given and described on plate [4](#), and may be appropriated wherever reeds or grasses are to be drawn.

Stroke 3 is simple, yet often found troublesome by pupils. Place the chalk in a vertical position, draw it quickly downward, twisting it to a nearly horizontal position. Let the accent be at the upper end of the stroke. Try a number of these strokes, letting them meet at the centre of the flower. In making the drawing of the pond-lily, accent the nearest petals.

The reflection in the water, and the reeds in the background are obtained by delicate vertical strokes, crossed in the water by occasional horizontal touches. Use simple curving strokes for the lily pads.

"This castle hath a pleasant seat."

—our castle's strength
Will laugh a siege to scorn.
Shakespeare.

Plate 26

Plate 26

“This castle hath a pleasant seat.”

**——our castle’s strength
Will laugh a siege to scorn.**

Shakespeare.

PLATE 26

Here is given another literature illustration, which is drawn with such strokes as those indicated in the upper part of the plate.

Stroke 1 has been described many times already. After this is drawn indicate the distance by the use of a few touches with charcoal, and the water with a delicate line or two of chalk. Let the strokes be horizontal.

The rocks are represented with such strokes as No. 3. See also plate [9](#), stroke 3. Accent here and there for the light touches, and add bits of charcoal for the dark.

Stroke 2 is drawn by placing the chalk in a vertical position, and drawing it in the desired direction with a rather irregular or uneven stroke. See stroke 3, plate [15](#). When the strong, bright tones are desired, accent with the chalk, and when the gray tones are necessary, hardly touch the board. The windows are added with strong strokes of charcoal.

Plate 27

Plate 27

PLATE 27

This plate was planned especially for arithmetic lessons, as it shows in the sketches the various processes through which the cotton passes before reaching the retailer, thus suggesting a number of practical problems. It may be used quite as well in geography, history, and nature study.

Spot 1 is produced by massing a bit of chalk and then rubbing it into the desired shape by the use of the finger tip. The pod is drawn with a short stick of charcoal, used in the same manner as the chalk.

No. 2 shows the stroke for the sky and horizon, and has already been described in many other lessons.

To produce the effect shown at No. 3 use the side of a short piece of chalk, and with a rather irregular stroke draw the twigs and stems. Accent the spots for the cotton balls.

In the other small sketches the strokes are so evident that they hardly need description. A white, smooth sky, erased where the mills and chimneys appear, will produce the effect in the lowest drawing. A little charcoal may be added for the darkest tones, a stroke of the eraser for the smoke, and little touches of chalk for the windows.

Plate 28

Plate 28

PLATE 28

These sketches were also suggested for problems in arithmetic. The problems relate to lumbering, measurement, and commission.

No. 1 illustrates the beginning of a forest sketch. With a single stroke of the chalk, accented at the lower end, draw the sky. With a second more delicate stroke show the distance; then with a few quick, nearly vertical strokes with the eraser show the positions of the trees. Later with chalk or charcoal and the use of such strokes as those given on plate [2](#), and at No. 3 on this plate, add the shading in the tree trunks.

No. 2 shows the strokes useful in drawing the camp, the wood pile, or the lumber. These have already been given in such sketches as those on plate [15](#).

The sketch of the house in the original had the dimensions marked upon it, and the pupils were to find the shingles required for the roof, the clapboards for the walls, etc.

Before trying this sketch, study plates [15](#) and [16](#) for strokes and details.

Plate 29

PLATE 29

The accompanying plate was taken from a lesson in a first grade. The little boy was dressed in an impromptu costume of cotton batting, and the background hastily sketched by the teacher.

The horizon was drawn as on plate 9; then a few soft oblique strokes were added to the sky. The shore was drawn with irregular back-and-forth strokes, as in many of the previous sketches, and a sheet was tacked to the board in order to obtain the white foreground.

An almost vertical stroke accented with the end of the chalk was used in drawing the icebergs, and a few strokes of charcoal were added.

The huts were drawn with a curving stroke accented with the upper end of the chalk, and they were finished by applying stroke 2, plate 3, and adding a few details with the point of the chalk.

Any teacher can easily arrange such backgrounds and costumes with the simplest material at hand, and in this manner add essentially to the interest and value of a lesson. A Japanese Day, An Indian Entertainment, A Soldiers' Camp Ground, A Lumber Camp, and many others, are easily arranged.

Transcriber's Notes

In a few cases, obvious mistakes or omissions in punctuation were corrected.

[Page 31](#): “The goldenrod on plate [12](#)” changed to “The goldenrod on plate [13](#)”

[Page 36](#): The illustration caption “see lesson on previous page—Plate [14](#)” changed to “see lesson on previous page—Plate [15](#)” to reflect to correct plate as per the text, though the text within the image is incorrect.

*** END OF THE PROJECT GUTENBERG EBOOK BLACKBOARD
SKETCHING ***

Updated editions will replace the previous one—the old editions will be renamed.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

START: FULL LICENSE

THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at www.gutenberg.org/license.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are

located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, "Information about donations to the Project Gutenberg Literary Archive Foundation."
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.
- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project

Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to

you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
