❖ HOW TO KNIT. ❖

The necessary materials for knitting are either cotton, worsted, silk or thread, and knitting needles.

Stockings and all knitting worked in rounds require four knitting needles, three of which are used for holding the stitches of the work, and the fourth to knit with.

The casting on of stitches forms the beginning of knitting. It consists of loops formed around a knitting needle. Every loop will form a stitch. The number of stitches will determine the width of the object which is to be knitted.

There are five different ways of casting on stitches. For the casting on of stitches always unroll an end of the cotton long enough to work the stitches required, as this end is used in the formation of those stitches.

NO. 1. POSITION TO FORM THE FIRST
CAST ON STITCH.

No. 1.—Illustration No. 1 shows the position of the cotton, ready to cast on the first stitch. Place the cotton over the thumb and first finger of the left

hand, in such a way as to have the end of cotton, which must be sufficiently long for the required number of stitches, fall from the thumb toward the palm of the hand. Hold this end and the other part of the cotton with the remaining fingers of the left hand. This same position of the cotton is used in illustrations 2 and 3. Take the needle with the right hand, place it over the cotton, between the thumb and the first finger, pass it under the cotton resting around the thumb, bring it upward; then pass the needle downward, under the cotton resting on the first finger; pass this loop through the loop around the thumb, withdraw the thumb from the loop; pass the thumb under the end of the cotton, toward the palm of the hand; draw this end in order to close the stitch just formed.

NO. 2. CASTING ON OF SINGLE STITCHES.

NO. 3. CASTING ON BY KNITTING.

No. 2—*Casting on of Single Stitches*.—Begin in the same manner as described in No. 1, and make 2 stitches. Then take up on the needle the loop which is around the thumb (see illustration 2), without withdrawing the thumb, insert the needle around the cotton marked *b* in illustration No. 2, from right to left, and draw it through loop *a*; close this stitch as already directed in No. 1, by withdrawing the thumb from loop *a* and drawing the end of cotton.

No. 3.—This casting on of stitches requires two needles. Form the first stitch in same manner as described in No. 1. Then, with the left hand, hold the needle on which this first stitch is formed, pass the cotton over the first finger of the left hand, take a needle with the right hand, and insert the point into the loop on the left needle, wind the cotton around the point of the right needle, draw it through the loop, *insert the point of the left needle into the

loop just formed on the right needle, wind the cotton around the point of the right needle, draw it through the loop. Repeat from *. See illustration 3.

NO. 4. NEW CASTING ON OF STITCHES.

NO. 5. CASTING ON OF STITCHES
LEAVING AN EDGE.

No. 4—*The Casting on of a New Row of Stitches.*—This casting on of stitches is generally employed in knitting with worsted, which requires a new casting on of stitches in the progress of the work. It is done by putting the worsted (see illustration No. 4) over the thumb of the left hand, holding the end between the second and third fingers, * take up the worsted around the thumb and lying toward the palm of the hand, by inserting the needle from under the worsted in an upward direction (see illustration No. 4), withdraw the thumb from the loop, pass the thumb under the end of worsted resting in the palm of the hand, and draw it to close the stitch. Repeat from *.

No. 5.—The casting on of stitches illustrated in cut No. 5 forms a narrow border after the first row has been knitted. In order to easily knit the first row, the casting on of stitches must be done on *a pair* of knitting needles. Unroll an end long enough for the required number of stitches. Double it. Fold this doubled end in half, insert the point of the needles into the fold, place on the first finger of the left hand the long end of the worsted which is among the short ends. Place the three short ends over the thumb. Hold all these ends with the second finger. Take on the needles the ends resting on the thumb (marked *b* in illustration), and insert them as shown in illustration No. 5. Then pass the needles through the loop on first finger, in the

direction of the arrow, and pass this loop through the loop already formed on the needles, withdraw the thumb, close the stitch by drawing the three ends, which is done by passing the thumb under them.

No. 6. CASTING ON OF DOUBLE STITCHES.

No. 6—*Double Casting on of Stitches.*—The difference between this method of casting on and the preceding is, that every knot forms, each time, two loops instead of one, on the needle. The first knot must be formed in the same manner as described in No. 5. In order to work the second knot, insert once more the needle into the loop of three ends which rest on the thumb, marked *a* in illustration No. 6. The arrow, in same illustration, shows where to insert the needle and the direction it has to take. This done, insert the needle downward into loop *b*, and draw the latter through loop resting on the thumb, withdraw the thumb and close the knot. Every loop on the needle must be knitted separately at the first row.

❖ WHAT TO KNIT. ❖

NO. 7. PLAIN KNITTING.

Cut No. 7 illustrates plain knitting. This is the stitch generally used in ordinary knitting. First, cast on the required number of stitches in one of the ways already described. This done, take in the left hand the needle on which are the loops, place the thread over the first finger of the left hand, hold it with the second finger of the same hand. Take the second needle with the right hand, insert its point into the stitch, in an upward direction, and throw the thread around the right hand needle, from right to left. Draw it through the preceding loop and slip the left hand needle from its loop. Every loop on the left hand needle is worked in the same manner.

When all the stitches have been worked from the left hand needle, take that needle in the right hand and continue to work in same manner.

NO. 8. PURLED KNITTING.

To *Pearl*, *Purl* or *Seam*, (meaning the same thing), is done by holding with the left hand a needle on which a row of stitches has been cast. Take a

needle in the right hand, place the cotton over the left hand needle and the first finger of the left hand, hold the end with the second finger of the same hand. Insert the right hand needle through the loop on the left hand needle, point right to left, in such a manner as to have the cotton just under the right hand needle. Pull this cotton through the loop, withdraw the left hand needle from the loop, and the purled stitch is formed.

How to Repair a Stitch which has been Half Knitted, or Dropped while Knitting.—In knitting, one ought to be careful not to drop stitches or to form half stitches. The latter happens when the thread thrown over the right hand needle has not been pulled through the loop of the left hand needle. To remedy this, while working the next round or row, take the thread which has been thrown over the needle from it, and pull it through the loop of the stitch. To repair a dropped stitch, insert the left needle into the stitch, gather all the threads on the right hand needle and pull them through the loop of the stitch, one after the other.

To Increase.—There are two ways to increase. The first is, to knit both in the lower part of the stitch and also in the stitch itself. The second way is to bring the cotton forward round the end of the right needle, to the front; this forms a loop on the right needle when the next stitch is knitted, and this extra loop is the made stitch. It is preferable to increase after the first manner in plain knitting, as this way of increasing is not so marked. The second manner is used in fancy knitting, as it leaves a little opening after the stitch is formed.

To Slip a Stitch is to take a stitch off the left needle and to *slip* it on to the right needle without knitting.

With any work knitted in rows, it is necessary that the first stitch of every row be worked as a slipped stitch. If it is a row of *purl*, the first stitch must be slipped off as if it were plain knitting; if it is a row of *plain* knitting, slip the first stitch off as if it were purl knitting.

How to Narrow.—The usual way of narrowing is to knit two stitches together, viz.: put the right needle through two of the loops on the left needle, and knit them as one stitch. Another method is to slip a stitch, knit one, and then with the left needle cast the slipped stitch over the knitted stitch. When the narrowing is used to give a certain shape to the work, it is

well to employ the first method when narrowing at the end of the round or row; and the second method when narrowing at the beginning of it.

Casting Off is done as follows: Knit two plain stitches, with the left needle throw the first stitch over the second, knit a third stitch, throw the second over the third, knit a fourth, throw the third over the fourth, and so on until the last stitch is worked. Pull the cotton through, and a knot is formed.

The Joining of Ends in knitting ought never to be done by knotting them together. It may be done so that no defect is visible on the right side of the work, by lapping them three inches together, and knitting five inches with doubled thread, leaving the ends on the wrong side of the work. These ends can then be neatly darned into the wrong side of the work.

LADY'S STOCKING.

To knit a stocking, attention must be given to the size of the knitting needles, which ought to correspond with the number of the material with which the stocking is to be knitted. It would be difficult to give the exact number of stitches necessary for any given size of stocking, as there is always a difference between the knitting of different persons, since some knit loosely, others very closely. It must be left to the judgment of the knitter to determine the exact number of stitches required for the stocking to be knitted.

The following is the method of knitting a lady's stocking with No. 300 knitting silk (or any other material of same size), with needles to correspond.

This stocking is knitted, with a double border, as follows:

Cast on 152 stitches on 3 needles. After having cast on the last stitch, close the round by knitting the *first* stitch cast on.

Knit 16 rounds plain.

17th Round.—* Slip 1, knit 1, draw the slip stitch over the knitted stitch, make 1; repeat from * to end of round.

18th to 34th Rounds, inclusive.—Knit plain.

Then fold in half the piece knitted, so that the 17th round will form the edge of the border.

Pick up on other knitting needles the stitches of the 1st round, *i. e.*, the stitches cast on, and knit each of them with each stitch of the 34th round. This finishes the border. Thus, the lower edge of the border forms a fancy design of small scallops. Purl 3 rounds, knit plain 3 rounds, purl 3 rounds.

Then knit plain until the leg of the stocking is twelve inches long. In the first round of *this* plain knitting begin the seam stitch, which ought to correspond with the last and first stitches cast on. This seam stitch is repeated in every third round.

After the twelve inches have been knitted, narrow in the following round 1 stitch on each side of the seam. Knit 8 rounds. Narrow 1 stitch on each side of seam. Knit 7 rounds. Narrow, in manner already described. Knit 6 rounds. Narrow. Knit 5 rounds. * Narrow. Knit 4 rounds. Repeat 20 times from * until 110 stitches and the 2 seam stitches are left on the needles. This done, knit plain 30 rounds. The knitting of the heel now begins. Divide the stitches by putting on 1 needle the 2 seam stitches and 28 stitches on each side of them. Thus, there will be upon this needle 58 stitches. Knit this needle, backward and forward, in *rows*, making the seam stitches as usual.

When knitting backward, purl *all* these stitches. When knitting forward, knit plain all the stitches with exception of the seam stitch, which must be purled. Always slip the first knitted stitch. Continue knitting until the flap is 44 rows long, counting each time across as 1 row.

1st Row.—Now purl from the left hand side the 28 stitches and the 2 seam stitches. Purl 2, knit 2 together, purl 1. Turn.

2d Row.—Slip 1, 3 plain, 2 purl (seam stitches), 2 plain, knit 2 together, 1 plain. Turn.

3d Row.—Slip 1, purl 8 (including seam stitches), purl 2 together, purl 1. Turn.

4th Row.—Slip 1, 4 plain, 2 purl (seam stitches), 3 plain, knit 2 together, 1 plain. Turn.

5th Row.—Slip 1, purl 10 (seam stitch included), purl 2 together, purl 1. Turn.

Continue to knit in this wise until the remaining stitches are gradually worked off. Then pick up the side stitches of this flap, which amount to 36 on each side, and the heel is formed.

Knit the side stitches of the flap, “making 1” now and then, so as to make the number of stitches on each side of the heel amount to 40.

Knit again in rounds. After every 2 rounds purl the first 2 stitches together, then the last 2 stitches together, of the heel stitches. Narrow in this manner 12 times. This done, the number of stitches in the whole round is reduced to 110, *i. e.*, to the original number before the beginning of the heel. Knit plain 50 rounds. Commence narrowing of toe as follows: * knit 2 together, knit 8 plain. Repeat from * to end of round. Knit 8 rounds plain. * Knit 2 together, knit 7 plain. Repeat from * to end of round. Knit 7 rounds plain. Knit 2 together, knit 6 plain, knit 2 together, 6 plain, etc., to end of round.

Knit 6 rounds plain; knit 2 together, 5 plain, 2 together, 5 plain, etc., to end of round.

Knit 5 rounds plain; knit 2 together, 4 plain, 2 together, 4 plain, etc., to end of round.

Knit 4 rounds plain; knit 2 together, 3 plain, 2 together, 3 plain, etc., to end of round.

Knit 3 rounds plain; knit 2 together, 2 plain, 2 together, 2 plain, etc., to end of round.

Knit 2 rounds plain; knit 2 together, 1 plain, 2 together, 1 plain, etc., to end of round.

Knit 1 round plain.

11 stitches now remain. By means of a darning needle, slip these stitches upon the silk thread with which the knitting is done. Pass this silk once more through the stitches, then draw all the stitches together, by pulling the silk thread. Fasten the thread on the wrong side of the stocking.

HEELS OF STOCKINGS.

There are three other ways of knitting a stocking-heel, as illustrations 9, 10 and 11 show. In the directions for knitting these heels, the same number of stitches is taken as in the directions for knitting the heel of "lady's stocking," *i. e.*, 28 stitches on each side of the 2 seam stitches, thus leaving 54 for the front of the foot.

NO. 9. HEEL OF A STOCKING.

Heel No. 9.—Knit 44 rows backward (purling) and forward (plain). While knitting these rows, make a seam stitch on each side of the flap. These 2 seams must correspond with the seam in the center of the flap. See illustration No. 9.

When the 44 rows have been knitted, the rounding of the heel begins. Knit from right hand side 19 stitches (including the side seam stitch), knit 2 together, knit 14 plain (center seam stitch inclusive), slip 1, knit 1 plain, draw the slip stitch over the 1 plain. Knit 5 plain. Turn. Slip 1, purl 25. Turn. Slip 1, knit 3 plain, knit 2 together, knit 14 plain, slip 1, knit 1 plain, draw the slip stitch over the 1 plain, knit 5 plain. Turn. Slip 1, purl 25.

Continue working thus to the end of cap, alternating every time each row in same manner as described. When the heel is finished, 26 stitches must

remain on the needle.

No. 10. HEEL.

Heel No. 10.—This heel is knitted partly in rounds with the front of the foot, and partly by itself in rows. Divide the stitches evenly on 4 needles, and knit in rounds with a fifth needle. After every 2 rounds “make 1,” just before knitting the first of the stitches belonging to the heel, and “make 1” after having knitted them. Repeat this 13 times.

This done, begin the cap of the heel. Put on a special needle the 12 middle stitches (6 on each side of the seam stitch), and knit these in rows, forward and backward, until 16 rows have been worked. Narrow at the end of each of these rows, in knitting the last stitch of the row together with the first of the remaining stitches on the next needle, then knit the following stitch and turn.

Knit 16 rows more without narrowing, but at the end of each row knit 1 of the stitches remaining on the next needle, and then turn to knit the following row.

When this is done, continue to knit in rows, and narrow again at the end of each row by knitting the last stitch of each row together with one of the remaining stitches on the next needle; then turn and knit the following row.

When the remaining stitches have all been narrowed into the heel, then begin to knit the foot in rounds.

No. 11. HEEL.

Heel No. 11.—To work this heel, knit a flap of a good length in rows, backward and forward. Then put on a special needle the 22 stitches in the center, 11 on each side of the seam stitch, and knit these in rows, backward and forward. In every *plain* row knit the 4th and 5th stitches together, and then the 19th and 20th stitches together. At the end of *every row* knit 1 of the remaining stitches. When all these remaining stitches have been worked, then pick up the side stitches of the flap, and the heel is finished.

HOW TO KNIT THE TOE OF A STOCKING.

NO. 12. TOE.

No. 12.—This toe is worked as follows: Narrow after every 7 stitches, in the first round to be narrowed. Then knit 7 rounds plain. Narrow in the following round after every 6 stitches. Knit 6 rounds plain. Narrow in the next round after every 5 stitches. Knit 5 rounds plain. Continue working in such manner, always knitting 1 stitch less between the narrowings in every new round which is to be narrowed, and always knitting after every round narrowed the same number of plain rounds as the number of stitches knitted between the narrowings of this last round narrowed.

NO. 13. TOE.

No. 13.—Before beginning to decrease this toe, divide the stitches evenly on 4 needles. Then narrow at the beginning of every needle; slip the first

stitch, knit the next one, and draw the slipped stitch over the knitted one. After *each* of the first 4 narrowed rounds knit 4 rounds plain. After *each* of the next 4 narrowed rounds knit 3 rounds plain. After *each* of the following 4 narrowed rounds knit 2 rounds plain, and after *each* of the following 4 narrowed rounds knit 1 round plain. Then continue to narrow at the beginning of every needle to end of toe.

NO. 14. TOE.

No. 14.—The narrowing of this toe is done as follows: Divide equally on 4 needles the number of stitches. Then begin the first round of narrowing by purling 2 together at the beginning of every needle. This round is followed by 4 rounds plain. In all the narrowing rounds that follow the first one, decrease once on each side of the preceding narrowing. After every narrowed round knit 4 rounds plain. Knit in all, 11 narrowing rounds. Then finish off the toe by narrowing only once at the end of *each* needle, by slipping 1 stitch, knitting the next, and drawing the slipped stitch over the knitted one.

TO RENEW THE HEEL AND SOLE OF STOCKINGS KNITTED BY
HAND.

NO. 15. POSITION OF NEEDLES TO RENEW A
STOCKING HEEL.

NO. 16. THE FASTENING OF THE NEW HEEL.

Illustrations 15 to 18 show the manner of doing this. To renew the heel of a stocking, first remove the damaged heel by cutting along the sides of the

heel, at the end of the cap and at the beginning of the heel. Make even the stitches belonging to the parts from which the heel has just been cut. Take up these stitches on 5 needles, as illustrated in cut No. 15. Take up on 2 needles the stitches belonging to the heel. Then take up the side stitches (each side) on 1 needle. The remaining stitches belong to the fifth needle, that is, those which will serve for the joining of the cap of the heel. Then, with the stitches belonging to the heel, begin to knit the heel in rows, to and fro. But, at the end of every plain row, always knit the last stitch of the row together (plain) with the next stitch on the side needle. The same must be done at the end of every purled row, only the last stitch with the next stitch on the side needle have to be *purled* together, instead of knitted plain. When the heel has reached the required length, then begin to knit the cap of the heel in the usual way, until the number of stitches corresponds to the number of stitches of the fifth needle. Join these 2 rows of stitches together, as illustrated in cut No. 16. This is done by darning. Take an end of the cotton long enough for this purpose, and pass it, by means of a darning needle, downward through the last stitch of the stocking, and through the first one of the stitches on the fifth needle, or upper row. Then pass it through the next 2 corresponding stitches of the cap of the heel. See illustration No. 17, which shows the needle inserted in the 2 stitches through which the cotton is to be drawn. Pass the needle through the next 2 corresponding stitches of the upper row, in the same direction as is shown by the arrow in illustration No. 17. From there * pass it through the last stitch, already worked, of the lower row, and through next stitch; then through the next 2 corresponding stitches of the upper row. Slip every time the stitch from the knitting needle after having passed the cotton through them. Repeat from * until all the stitches of the 2 rows are joined to each other. When this is done, fasten the cotton on the wrong side of the stocking by drawing it through a few stitches.

NO. 17. STITCH FOR THE FASTENING OF A NEW
HEEL.

Illustration No. 17 represents only a part of the joining, where the stitches are worked very loosely, in order that it might be copied more easily. Yet, while working, the stitches of the joining must be drawn to the same size as the knitted stitches of the stocking, and in such a manner that the joining cannot be detected from the knitting.

NO. 18. RE-SOLING THE FOOT OF A STOCKING.

No. 18—*How to Re-sole the Foot of a Stocking.*—In order to do this, a new heel must first be knitted to the stocking in the usual way. When this is

done, pick up the side stitches of the heel and begin to knit the sole in rows, to and fro, 1 row plain, the other purled. At the end of every plain row pick up the last stitch of the *corresponding* row of the old sole, and knit it together, plain, with the last stitch of row just knitted. The same thing must be done at the end of every purled row, only purl the 2 stitches together instead of knitting them plain together. Always slip, plain, the first stitch of every row.

The narrowing of the sole, on both sides, must be done just before knitting together the last stitch of the row and the last stitch of the corresponding row of the old sole.

After the new sole has been knitted, turn the stocking on the wrong side; cut off the old sole along both sides, yet leaving a strip of 4 stitches in width on each side. Lay each strip towards the front part of the foot. Unravel them. Smooth down the ends formed by the unraveling, and fasten them to the stocking by darning over them lightly, so that this darning might not be seen on the right side of the stocking. Should the stocking require a new toe to be knitted on, then unravel the old one, pick up the stitches and knit a new toe in rounds, in one of the ways already described in the book.

HOW TO DARN STOCKINGS.

The darning of a stocking can be done in different ways. The way most generally adopted is that of cross-work darning, which looks very well when neatly worked. But the darning in imitation of the knitted stitch, although more tedious, is preferable; for, when it is well worked, it cannot be told from the knitting, except on the wrong side.

NO. 19. CROSS-WORK
DARNING.

No. 19—*Cross-Work Darning*.—Trim neatly the place which is to be darned, then work a foundation of threads length-wise across the opening, as is shown in illustration No. 19. This done, begin to darn across this foundation, in rows, to and fro, by taking up every other thread of the foundation. In every following row take up the thread which was not taken up in the preceding row. See illustration No. 19. The darning must be prolonged to a little distance on each side of the original opening.

NO. 20. DARNING IN
IMITATION OF KNITTED STITCH.

No. 20—*To Imitate the Knitted Stitch in Darning*.—This work requires careful preparation. Loosen the damaged part, above and below it, in the width, in such a way that there will remain 2 even rows of perfect loose stitches. The first and last stitches of the upper row must correspond to those of the lower row. Cut the damaged part through the middle. Fold each half back upon the inside of the stocking, where it will have to be trimmed and fastened. Work a foundation of threads across the opening, width-wise, inserting each thread into the second stitch from the edge of the opening, and making it correspond with every knitted row. See illustration No. 20.

Then work on this foundation as follows: Place the darning cotton at the left, pass the darning needle downward under the lowest of the threads of foundation, and pull gently the darning cotton, so as to form the half of a stitch. Work in same manner on the other foundation threads. After making the half stitch upon the top thread of foundation, pass the needle through the nearest upper stitch of the stocking. Turn the work. Place the darning cotton towards the right. Pass the needle downward, under the top thread of foundation, draw the cotton lightly, and in this way the first whole stitch will be formed. Continue to work in same manner on the foundation threads, until the entire work is done.

Illustrations 21 to 23 show a different way of imitating the knitted plain stitch in darning.

NO. 21. FOUNDATION FOR NO.
22.

To darn after this method, remove the damaged part and prepare the opening for foundation threads in same manner as already described in preceding number. Take for foundation thread a cotton finer than the one with which the darning stitches have to be worked. Work the foundation threads *length-wise* on the wrong side of the stocking, as shown in illustration No. 21. This done, turn the stocking on the right side and begin the darning in imitation of the knitted stitch. Work width-wise, as follows:

NO. 22. FORMATION OF THE
DARNING STITCHES ON
FOUNDATION NO. 21.

Pass the darning needle through the upper 2 stitches, as shown in illustration No. 22, then pass it, in the direction of the arrow, under the next 2 threads of foundation. Insert the needle into the last stitch, through which it has already passed, and pass it through the stitch next to it. Then pass it under the next 2 corresponding threads of foundation. Continue working in like manner. When the end of the row is reached, work in same stitch over the next 3 stitches of the knitting.

No. 23. FINISHING OFF.

After working over the third stitch, insert the needle downward—along the part which is not yet darned—into the upper part of that third stitch, take up the cross bar of the stitch and draw the cotton through. Then turn the work from left to right and begin the next row. When the work has come down to the lower edge of the opening, work the last row in the usual way; but, instead of passing the needle under the foundation threads, pass it through the corresponding stitches of this edge, as is shown in illustration No. 23.

When the darning is done, withdraw carefully the foundation threads. Trim the damaged part on the wrong side of the stocking, and fasten it neatly, as already stated in directions No. 20.

INSTRUCTIONS FOR KNITTING

ORIENTAL RUGS AND CARPETS.

Cut the various colors of wool required for the pattern in equal short bits. Then knit with 11 inch No. 13 needles as follows:

1. THE FIRST ROW flat plain with coarse cotton or twine.
2. THE SECOND ROW one stitch plain; then take a piece of wool and knit it in with the next stitch, so that one half of it is at the front and the other half at the back of the work; then one plain again, and put the half left at the back round to the front of the work, and continue this alternately to the end of the row. Knit ONE ROW PLAIN again, then ONE ROW SAME AS THE SECOND, and so on.

The Carpet may be knitted in pieces of any size and sewn together. If the surface is not quite level cut it even afterwards.

The best results are obtained by using Oriental Wool, Smyrna Cotton and designs manufactured expressly for the purpose and lately introduced into this market by Messrs. H. Taylor & Co., of Philadelphia. Rugs knitted from these materials are as beautiful and serviceable as the real Oriental Carpets, and, if well done, cannot be distinguished from them.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

START: FULL LICENSE

THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at www.gutenberg.org/license.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are

located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project GutenbergTM License included with this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, "Information about donations to the Project Gutenberg Literary Archive Foundation."
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.
- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project

Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to

you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
