Freezing combination main dishes

Vacant space in your freezer? Put some of it to use by freezing main dishes—prepared, ready to be heated or cooked and served. Days or weeks later you, your family, guests perhaps, can enjoy the results of your foresight.

Included in this publication are general directions for successful freezing of such main dishes as the stews, meat loaves, and casserole combinations made from recipes given on pages 6 to 19.

For tiptop quality and economical use of freezer space, plan your freezing and use of precooked main dishes so that they will be in the freezer no longer than 2 or 3 months. However, most of these foods if properly packaged and stored will not suffer serious quality loss if kept up to 6 months. After 6 months' storage, quality often declines rapidly, but the food is still safe to eat.

Preparing the food

In general, prepare the food as you would if it were to be served right away. Do not overcook. Some ingredients in main dishes that must be reheated for serving are better if slightly underdone for freezing. If cooked well-done before freezing, foods such as vegetables and macaroni are likely to be too soft when reheated. They also may have a warmed-over taste.

Soups and sauces thickened with ordinary wheat flour may tend to separate or curdle on thawing. Frozen gravies, sauces, and soups may be somewhat thicker after thawing than when freshly prepared, but suitable liquid can be added to give the desired consistency. Commercially frozen soups, sauces, and gravies are often made with waxy rice flour, which results in a 3 smoother product. If waxy rice flour is available, it is a good idea to use it. However, soups, sauces, and gravies made with ordinary flour can be satisfactory if they are quick-frozen and stored at 0° F. for only 2 to 3 months. Stirring during reheating helps to overcome separation, too.

Crumb or cheese toppings are best added when the food is reheated for serving.

Pastry crusts frozen unbaked are more tender and flaky and have a fresher flavor than those baked and then frozen.

Cooling

Quick cooling of the food immediately after it is cooked stops the cooking and so helps keep the natural flavor, color, and texture of the food. It also retards or prevents the growth of bacteria that may cause spoilage.

To cool, set uncovered pan of food in iced or very cold water; change the water to keep it cold. Or set pan on ice. Or put the uncovered pan of food in a cold place.

Packaging

As soon as the food is cool, put it promptly into freezer containers of moisture-vapor-proof or moisture-vapor-resistant packaging material. Pack the food tightly into the container to reduce the amount of air in the package.

In quart containers, the food may be separated into two or three layers by a double thickness of water-resistant material such as cellophane between the layers. This makes it possible to separate the frozen block of food easily to shorten the reheating time.

Choose a size of container that holds only enough for one meal for your family. Quart containers hold 4 to 6 servings; pints, 2 to 3. Use only containers with wide top openings so the food does not have to be thawed completely to remove it from the container.

Containers and materials. Many combination main dishes are semiliquid in consistency and are best packaged in rigid containers made of 4 moisture-vapor-proof materials such as aluminum, glass, pottery, plastic, plain or enameled tin, or moisture-vapor-resistant material such as heavily waxed cardboard.

Some prepared foods, like meat pies and casserole dishes, may be frozen in the containers in which they were baked, ready for reheating at time of using.

Bags of suitable material can be used for semiliquid foods but are less convenient than rigid containers. They are well adapted to less moist foods. Sheets of freezer packaging materials are used for wrapping foods that hold their shape.

Bags and sheets are made of moisture-vapor-resistant cellophane, heavy aluminum foil, pliofilm, polyethylene, or laminated papers consisting of combinations of paper, metal foil, glassine, cellophane, or other materials.

Unwaxed folding cardboard cartons are often used to hold foods packaged in bags or sheets for protection against tearing and for easy stacking in the

freezer. Sheets of packaging material may be used as outer wraps for unwaxed cardboard cartons containing unwrapped foods. The sheets are sealed with freezer tape, or with a warm iron if they are heat-sealing on both sides.

Ordinary waxed papers, household aluminum foil, and cartons designed for cottage cheese and ice cream are not sufficiently moisture-vapor-resistant to be suitable for packaging foods to be frozen and held more than a few days.

Head space. Since liquid expands as it freezes, allow ample head space when packing liquid and semiliquid foods. Most freezer containers have a mark or line to show how much head space to leave. For a tall, straight or slightly flared container and for bags, $\frac{1}{2}$ inch is generally recommended for pints and 1 inch for quarts. For low, broad containers less head space is needed, about $\frac{1}{4}$ inch for pints and $\frac{1}{2}$ inch for quarts. To assure a good closure, keep sealing edges free from moisture or food.

When packaging foods with freezer sheet material, wrap them as tightly as possible.

Sealing. Seal rigid freezer containers by adjusting the lids as required for the type of package used. Casseroles made of ovenproof material can be covered and then sealed with freezer tape or wrapped as needed. 5

Bags can be sealed by twisting and folding back the top and securing with a string or with a paper-covered metal strip or rubber band that may come with the bag. Some bags and sheets may be heat-sealed with a warm household iron or one of the special sealing irons available on the market. Others may be sealed with freezer tape.

Freezing

Freeze prepared foods as soon as they are packed. Freeze and store at 0° F. or below.

Reheating for serving

Most precooked frozen foods can be reheated either in the oven or on top of the range. Reheating in the oven takes little of the cook's attention and usually keeps the texture of the food better. Reheating on top of the range in a double boiler or saucepan is faster.

When using a double boiler, start with warm, not hot, water in the lower pan so the thawing food won't stick.

Reheating over direct heat requires considerable attention because the food must be stirred often. The stirring may result in less desirable texture.

If heating several blocks of frozen food, don't stack them—use a wider pan.

Generally it is better to reheat frozen cooked main dishes without thawing. However, to transfer the food to another container for reheating or to remove cellophane between layers, you will need to partially thaw the food. Do this by placing the package in lukewarm water for a few minutes.

If you thaw food completely before reheating, it is usually best to thaw in the refrigerator. Thawing at room temperature is not recommended. Once food is thawed, use it immediately.

RECIPES

When you are preparing a main dish it often takes little more effort and time to make enough for several meals. You can freeze it all in meal-size packages, or serve part of it the same day and freeze the rest.

The following recipes yield enough for 16 to 25 portions of the size indicated. For these larger-than-usual quantities you may need to check the size of your cooking utensils. As a guide to the size of utensil needed, multiply the number of portions by the size of portion to find out the total quantity of food that the recipe makes.

Recipes include directions both for serving the food immediately and for reheating the frozen food for serving.

POULTRY COMBINATION DISHES

Creamed chicken and chicken a la king are two favorites for freezing. Recipes are also given here for chicken and turkey in appetizing casserole dishes that freeze well.

If chicken broth is not available, you can substitute 1 cup canned chicken bouillon or 1 chicken bouillon cube and 1 cup hot water for each cup of chicken broth called for in a recipe.

Creamed chicken

16 portions, $\frac{3}{4}$ cup each

$\frac{3}{4}$ cup chicken fat, butter, or margarine

1 $\frac{1}{8}$ cups sifted all-purpose flour

1 tablespoon salt

4 cups chicken broth
4 cups milk
2 quarts diced cooked chicken

Melt the fat and blend in the flour and salt. Add broth and milk. Cook until thickened, stirring constantly. Add the chicken and heat to blend flavors.

To serve immediately. Heat the mixture thoroughly and serve on rice, toast, or biscuits.

To freeze. Cool the food quickly. Pack in freezer containers, leaving 7 head space ([p. 4](#)). (Pint containers are preferable to larger ones because large blocks of creamed chicken are difficult to thaw.) Seal and freeze immediately.

To prepare for serving. Without thawing, heat frozen creamed chicken in the top of a double boiler, about 30 minutes for 1 pint.

Menu suggestion. Serve with snap beans and shredded carrot and raisin salad. Have fruit sherbet and crisp cookies for dessert.

Chicken a la king

16 portions, $\frac{3}{4}$ cup each.

$\frac{1}{2}$ cup chicken fat, butter, or margarine
6 tablespoons chopped green pepper
3 cups canned mushrooms
 $\frac{3}{4}$ cup sifted all-purpose flour
2 teaspoons salt
3 cups chicken broth
3 cups milk
6 tablespoons finely cut pimiento
3 pints diced cooked chicken

Melt the fat and cook green pepper and mushrooms in it about 5 minutes. Blend in the flour and salt, then add broth and milk. Cook until thickened, stirring constantly. Add pimienta and chicken. Blend well.

To serve immediately. Heat the mixture thoroughly and serve on biscuits, hot, buttered toast, or in timbales.

To freeze. Cool the food quickly. Pack in freezer containers, leaving head space ([p. 4](#)). (Pint containers are preferable to larger ones because large blocks of chicken a la king are difficult to thaw.) Seal and freeze immediately.

To prepare for serving. Without thawing, heat frozen chicken a la king in the top of a double boiler, about 30 minutes for 1 pint.

Menu suggestion. Serve with asparagus and stuffed tomato salad, and upside-down cake.

Turkey-macaroni casserole

25 portions, ¾ cup each

1¼ quarts shell or other macaroni
2 quarts boiling salted water
⅔ cup melted butter or margarine
1¼ cups sifted all-purpose flour
2 quarts milk
1½ tablespoons salt
¼ teaspoon pepper
1 teaspoon marjoram
2½ cups grated cheese
¾ cup chopped pimienta
1¼ quarts diced cooked turkey

Cook the macaroni in boiling salted water 15 minutes or until almost tender; drain and rinse with water. Combine the melted butter or margarine

with the flour, stir in the milk, and cook until thick. Add seasonings, cheese, pimiento, macaroni, and turkey.

To serve immediately. Place enough for one meal in a greased casserole and top with grated cheese if desired. Bake uncovered at 350° F. (moderate oven) for 30 to 40 minutes.

To freeze. Cool the food quickly. Pack in freezer containers, leaving head space ([p. 4](#)). Seal and freeze immediately.

To prepare for serving. Bake uncovered at 400° F. (hot oven) until food is heated through, about 45 minutes for pints, 1 hour for quarts.

A topping of grated cheese may be added to this dish the last 5 minutes of heating.

Menu suggestion. Serve with broiled tomato halves and julienne snap beans. Steamed cranberry pudding would make a good dessert for this meal.

MEAT STEWS AND MEAT PIES

Almost any type of meat stew, ragout, or goulash—beef, lamb, pork, or veal—can be frozen. Most vegetables in these combination dishes freeze well. Frozen potatoes may not be of the same quality as fresh-cooked potatoes, but they are acceptable if the stew or meat pie is not stored for more than 6 months.

Add a rich, flaky biscuit or pastry topping to a good meat and vegetable stew and you have a delicious meat pie, a family treat that freezes well. The biscuit or pastry topping may be added before freezing or made fresh and added to the pie when reheating for serving.

It is best to freeze meat pies and turnovers unbaked.

Lamb or beef pie

24 portions, 2½ by 2¾ inches

3 pounds boneless lamb or beef cut in 1-inch pieces
1 quart water
1 tablespoon salt
1½ cups chopped celery
3 cups cubed potatoes
3½ cups quartered onions
½ cup peas, fresh or frozen
½ cup sifted all-purpose flour
Pastry (see [p. 10](#) for recipe)

Brown the meat in its own fat. Add the water and one-half of the salt. Simmer until meat is tender. Add celery, potatoes, onions, peas, and remaining salt and cook until vegetables are almost tender.

Drain the broth from the meat and vegetables. Add water to the broth if needed to make 3½ cups. Add ½ cup cold water to the flour and stir until smooth. Slowly add the flour mixture to the rest of the broth and cook 10 until thickened, stirring constantly.

Combine the thickened broth with the meat and vegetables.

To serve immediately. Pour stew for one meal into a greased baking dish. Top with a pastry crust. Bake at 400° F. (hot oven) for 30 minutes.

To freeze. Cool meat mixture quickly. Place in ovenproof baking dish and top with pastry. Wrap in freezer packaging material. Or package stew in freezer containers, leaving head space ([p. 4](#)). Seal and freeze.

To prepare for serving. Bake meat pies frozen with pastry topping at 400° F. (hot oven) about 4-5 minutes for pints, 1 hour for quarts, or until stew is piping hot and crust is golden brown.

If stew is frozen without pastry topping, transfer it to a greased baking dish and place in hot oven. After stew is almost heated through (about 30 minutes), top with pastry crust. Bake until crust is golden brown.

Menu suggestion. Your favorite fruit salad will add zest to the meal. For dessert try chocolate fudge cake or pistachio ice cream with chocolate sauce.

Pastry topping for lamb or beef pie

3 cups sifted all-purpose flour
2 teaspoons baking powder
1 teaspoon salt
1 cup shortening
½ cup cold water

Sift together the flour, baking powder, and salt. Cut in the shortening until the mixture is granular. Add water and mix lightly with a fork.

Turn the dough out onto a lightly floured board or pastry cloth, roll to about ⅛ inch in thickness, and cut to fit the baking dish or freezer container.

Ham turnovers

25 portions, 1 turnover each

1½ quarts ground cooked ham (lightly packed)
⅓ cup finely chopped onion (well packed)
1 cup tomato sauce
2 tablespoons chopped parsley
¼ teaspoon pepper
¾ teaspoon powdered dry mustard
¾ teaspoon prepared horseradish
6½ cups sifted all-purpose flour
2 teaspoons salt
1¾ cups shortening
1 cup cold water

Combine ham, onion, tomato sauce, parsley, pepper, mustard, and horseradish.

Make pastry as follows: Sift flour and salt together. Cut in shortening until the mixture is granular. Add water a little at a time and mix lightly with a fork. Roll out dough on a lightly floured board to ⅛-inch thickness. Cut into rounds or squares about 5 inches across.

Place about 2½ tablespoons of ham mixture on each piece of pastry. Fold pastry over from center, forming a half-moon or triangle. Crimp edges of pastry together with a fork.

To serve immediately. Bake at 400° F. (hot oven) for 25 minutes. Serve peas or celery in cream sauce over the turnovers.

To freeze. Wrap unbaked turnovers individually in the freezer packaging material and pack in cardboard cartons. Or pack in layers in moisture-proof freezer containers, separating the layers with two sheets of cellophane or other moisture-vapor-resistant material. Seal and freeze.

To prepare for serving. Remove the wrapping, place turnovers on a baking sheet, and bake at 400° F. (hot oven) for 30 minutes.

Menu suggestion. Serve peas or celery in cream sauce over the turnovers. Assorted raw vegetables, baked sweetpotatoes, and cinnamon apples might complete the menu.

Pork savory

25 portions, ¾ cup each

3 pounds lean pork, cut in 1-inch pieces
1½ teaspoons salt
½ teaspoon pepper
1 tablespoon fat or oil
3 cups water

2½ cups sliced carrots
1 cup sifted all-purpose flour
3 cups sour cream
3½ cups diced potatoes
1 tablespoon finely chopped onion
1½ cups green lima beans
1 tablespoon salt

Sprinkle the pork with salt and pepper. Brown the meat in the fat or oil, add water, cover, and simmer until the meat is tender.

Cook the carrots in a little water until almost tender.

Combine flour and sour cream; beat until smooth. Combine with meat and broth.

Add the vegetables and salt and blend well.

To serve immediately. Bake covered at 375° F. (moderate oven) for 1 hour; remove the cover and continue baking for about 30 minutes to brown the top.

To freeze. Bake covered at 375° F. (moderate oven) for 1 hour. Cool quickly. Pack in freezer containers, leaving head space ([p. 4](#)). Seal and freeze immediately.

To prepare for serving. Bake uncovered at 400° F. (hot oven) until the food is heated through, about 45 minutes for pints, 1 hour for quarts.

Or reheat in a saucepan over low heat, or in the top of a double boiler, stirring as needed to prevent sticking.

Menu suggestion. A tossed green salad, spiced crabapples, and peach betty go well with this main dish.

MEAT LOAVES

You can make a meat loaf that is to be frozen by any good meat loaf recipe. Just make enough for several meals instead of one and freeze the extra loaves. For a change from the usual meat loaf, try this cheese meat loaf or jellied ham loaf.

Cheese meat loaf

25 slices, each about $\frac{3}{4}$ by $1\frac{1}{2}$ by 4 inches

2½ pounds ground beef
1 cup chopped cheese
3 tablespoons chopped green pepper
 $\frac{2}{3}$ cup chopped onion
2½ cups dry breadcrumbs
1 tablespoon salt
 $\frac{1}{2}$ small bay leaf, crushed
 $\frac{1}{4}$ teaspoon thyme
Dash of garlic salt
3 eggs, beaten
2½ cups tomato puree

Mix the beef, cheese, green pepper, onion, crumbs, and seasonings thoroughly. Combine eggs and tomatoes, and blend into meat mixture.

To serve immediately. Place meat mixture in loaf pan. Bake at 350° F. (moderate oven) for about 1 hour.

To freeze. Meat loaf may be frozen unbaked or baked.

Wrap unbaked meat loaf in moisture-resistant packaging material. Or put mixture in metal freezer containers or loaf pans; cover with lids or wrap in packaging material. Seal and freeze.

For frozen baked meat loaf, bake mixture in metal freezer containers or loaf pans at 350° F. (moderate oven) for about 1 hour. Cool quickly. Cover or wrap as above. Seal and freeze.

To prepare for serving. Bake frozen uncooked meat loaf uncovered at 350° F. (moderate oven) for about 1½ hours or until done.

Cover frozen baked meat loaf with tomato sauce or gravy made from meat drippings and reheat at 400° F. (hot oven) for about 1 hour. Or, if preferred, thaw frozen baked meat loaf in the refrigerator, slice, and serve cold. Or cover slices with gravy or sauce and reheat in a saucepan over low heat.

14

Menu suggestion. Serve with tomato or mushroom sauce, parsley potatoes, baked spinach, and cherry tarts.

Jellied ham loaf

25 portions, 1 by 4 by 4 inches

5 tablespoons unflavored gelatin
1 cup cold water
1½ quarts coarsely ground lean cooked ham
3 cups chopped celery
1½ teaspoons onion juice
¾ teaspoon powdered horseradish
¾ cup mayonnaise
1½ cups cooked salad dressing ([p. 19](#))
1 tablespoon lemon juice
¾ teaspoon prepared mustard
¾ cup sliced stuffed olives

Soak gelatin in cold water for 5 minutes. Place over hot water until dissolved. Combine all ingredients. Mix well.

To serve immediately. Place in a loaf pan of desired size. Garnish with sliced hard-cooked eggs. Chill until firm, slice, and serve on crisp salad greens.

To freeze. Place in loaf pans or freezer containers. Chill until firm. Cover with lids or wrap in freezer packaging material. Seal and freeze.

To prepare for serving. Thaw, without unwrapping, in the refrigerator. Garnish with sliced hard-cooked eggs, slice, and serve on crisp salad greens.

Menu suggestion. Serve with buttered lima beans and sliced tomatoes, and apple pie a la mode for dessert.

15

HEARTY BEAN DISHES

Cooked dry beans freeze especially well. Because freezing, like cooking, softens beans somewhat, cook them until barely tender for the best quality frozen product.

Baked beans

25 portions, 1 cup each

2¼ quarts (4 pounds) dry beans, Great Northern or pea
4 quarts boiling water
¾ pound salt pork, sliced
¼ teaspoon red pepper
1 cup brown sugar, well packed
3½ teaspoons powdered dry mustard
2 tablespoons salt
1 cup chopped onion
1 cup molasses

Add beans to boiling water and boil 2 minutes. Remove from heat and soak in the hot water 1 hour. Or if more convenient, soak overnight after the 2-minute boil.

Drain beans and heat the drained liquid. Place beans in beanpots or other covered baking dishes with a slice of salt pork in the center of each. Top with slices of salt pork.

Combine seasonings, onion, and molasses and pour over beans. Add hot bean liquid. Additional water may be needed as the beans bake.

To serve immediately. Cover and bake at 300° F. (slow oven) for 6 hours or until the beans are tender.

To freeze. Bake the beans covered at 300° F. (slow oven) for 5 hours or until nearly done. Cool quickly. Pack in freezer containers, leaving head space ([p. 4](#)). Seal and freeze immediately.

To prepare for serving. Add a small amount of water to the beans and reheat in a saucepan over low heat, stirring frequently to prevent sticking. Or reheat in the top of a double boiler. Or bake at 400° F. (hot oven) until beans are heated through, about 45 minutes for pints, 1 hour for quarts.

Menu suggestion. Serve with coleslaw, brown bread, and lemon sponge pudding.

Barbecued lima beans

16 portions, ¾ cup each

4½ cups (2 pounds) baby lima beans, dry
2 quarts boiling water
½ pound chopped salt pork or bacon
1 cup chopped onion
1¼ teaspoons minced garlic
3 tablespoons prepared mustard
½ teaspoon salt
2 teaspoons worcestershire sauce
2 teaspoons chili powder
2½ cups condensed tomato soup

¼ cup vinegar
4 teaspoons brown sugar
2 cups bean liquid

Add beans to boiling water and boil 2 minutes. Remove from heat and soak in the hot water 1 hour. Or if more convenient, soak overnight after the 2-minute boil. Boil beans gently in the soaking liquid until almost done (about 40 minutes).

Brown the salt pork or bacon, onion, and garlic. Add mustard, salt, worcestershire sauce, chili powder, tomato soup, vinegar, sugar, and beans and bean liquid.

To serve immediately. Pour into greased baking dish or pan. Bake at 400° F. (hot oven) for 30 minutes.

To freeze. Cool the beans quickly. Pack in freezer containers, leaving head space ([p. 4](#)). Seal and freeze immediately.

To prepare for serving. Proceed as for baked beans, [page 15](#).

Menu suggestion. Serve with asparagus salad garnished with pimienta strips, and orange bavarian cream for dessert.

Ham and bean scallop

25 portions, 1 cup each

1¾ quarts (3 pounds) dry pea beans
3 quarts boiling water
5 cups cooked ham, diced
½ cup ham fat
1½ cups finely chopped onion
½ cup sifted all-purpose flour
2 tablespoons worcestershire sauce
2 teaspoons powdered dry mustard

2 teaspoons salt
2 quarts milk
3 cups grated cheese

Add beans to boiling water and boil 2 minutes. Remove from heat and soak in the hot water 1 hour. Or if more convenient, soak overnight after the 2-minute boil. Cook beans in the soaking liquid about 1½ hours (slightly underdone).

Heat the fat, add onion, and cook until golden brown. Add flour, worcestershire sauce, mustard, and salt, blending to a smooth paste. Stir in the milk. Cook until thickened, stirring constantly. Combine cheese, ham, and beans with the sauce. Remove from heat.

To serve immediately. Pour enough of the mixture for one meal into a greased baking dish or pan. Top with ½ cup fine dry breadcrumbs and bake at 350° F. (moderate oven) about 20 minutes, or until crumbs are golden brown.

To freeze. Cool the food quickly. Pack in freezer containers, leaving head space ([p. 4](#)). Seal and freeze immediately.

To prepare for serving. Reheat in the top of a double boiler, stirring occasionally to speed thawing. Or, if food is frozen in an ovenproof container, uncover, top with fine dry breadcrumbs, and bake at 400° F. (hot oven) about 45 minutes for pints, 1 hour for quarts.

Menu suggestion. Serve with brussels sprouts, stewed tomatoes, and celery sticks, have sauteed peach halves for dessert.

Beans and sausage, Mexican style

25 portions, 1 cup each

1½ quarts (2½ pounds) dry kidney beans
4½ quarts boiling water

1 quart chopped onion
1¼ cups chopped green pepper
1 tablespoon minced garlic
4 pounds bulk pork sausage
1 quart bean liquid
2 tablespoons salt
2 tablespoons chili powder (or to taste)
2 quarts canned tomatoes
½ cup sifted all-purpose flour

Add beans to boiling water and boil 2 minutes. Remove from heat and soak in the hot water 1 hour. Or if more convenient, soak overnight after the 2-minute boil. Cook beans in the soaking liquid about 1 hour (slightly underdone). Drain; save the liquid and if necessary add water to make 1 quart.

Combine onion, green pepper, garlic, and sausage. Cook until sausage is light brown, breaking it up as it cooks. Add beans, bean liquid, salt, chili powder, and tomatoes, reserving ½ cup tomato liquid. Blend flour with reserved tomato liquid and add to bean mixture. Blend well. Simmer until thickened (about 30 minutes), stirring frequently to prevent sticking.

To serve immediately. Simmer until beans are tender. Serve on mounds of fluffy rice.

To freeze. Cool the bean and sausage mixture quickly. Pack in freezer containers, leaving head space ([p. 4](#)). Seal and freeze immediately.

To prepare for serving. Add a small amount of water and reheat in a saucepan over low heat, stirring frequently to prevent sticking. Or reheat in the top of a double boiler. Or bake at 400° F. (hot oven) until the food is heated through, about 45 minutes for pints, 1 hour for quarts.

Menu suggestion. Serve plain or on rice, with tossed green salad and french bread, and for dessert have pineapple sherbet.

Cooked salad dressing for jellied ham loaf

¼ cup sugar
2 teaspoons flour
¾ teaspoon salt
¾ teaspoon powdered dry mustard
Few grains cayenne
⅛ teaspoon pepper
1½ teaspoons butter or margarine, melted
¾ cup milk
6 tablespoons vinegar
2 eggs, slightly beaten

Mix sugar, flour, and seasonings.

Stir butter or margarine into the dry ingredients gradually. Slowly blend in the milk, then the vinegar.

Cook over hot water until mixture thickens, stirring occasionally. Stir a little of the hot mixture into the egg and add to rest of mixture. Cook 3 minutes, stirring constantly.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are

located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, “Information about donations to the Project Gutenberg Literary Archive Foundation.”
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.
- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project

Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to

you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
