PREFACE.

This lesson-book was prepared in order to meet a need realized in my own work as a pastor; a need which is felt by many pastors and workers among the young.

In the Home, Sunday-School and Church are children of all ages, from six to sixteen. It is found impracticable to give to all this varied company the same teaching. The lessons that are admirably adapted for boys and girls between ten and fifteen are utterly unsuited to the children between six and ten. Moreover after looking carefully, I have not been able to find satisfactory lessons which can be taught to the young children except by one especially trained for the work; and such instructions are hard to find.

After various experiments I adopted in my own teaching the following plan. We divided the children into two sections; the First Section including all over nine years old, the Second Section all those under nine.

I selected for twelve lessons, twelve Bible stories following in succession, beginning with the story of Adam and Eve. On each of these stories I prepared a catechism of very simple questions and answers, and printed them by a duplicating process. After the opening of "The Children's Hour," I told the story to all present in simple language, explaining that while the story was told to all it was for the special benefit of the smaller children; but **I noticed even the oldest boys and girls listened to it with interest equal to the youngest.**

After the Bible story and the singing of a hymn, the Second Section withdrew to another room. There the children were divided into classes, and taught the questions and answers. A copy of the leaflet containing the questions and answers of the story for the day was given to each child, to be taken home and reviewed by parents or the older members of the family.

By separating the children into two grades, the older young people can receive instruction suited to their age, and the little ones are also provided for.

So many pastors and others have requested copies of the leaflets containing the questions and answers, that it has seemed desirable to publish them; and they are now completed upon the entire Bible story, and brought together in book form for the use of teachers of children.

These lessons may be used in classes of the Sunday School, by teachers who desire a more consecutive treatment of the Bible story than is given in the International Sunday School lessons, and by parents.

There are many families where "The Story of the Bible" has been read to the interest and profit of the children. Parents will find that these lessons will help to fix the important facts of the Bible story in the minds of the little ones.

It will be seen that the questions and answers do not embrace all the stories in the book. A selection has been made of what seem to be the most important subjects, affording weekly lessons for one year, with allowance for vacations, in the Old Testament, and another year in the New Testament.

In the hope that these lessons may aid the children of to-day, who are to be the men and women of to-morrow, to gain a definite knowledge of the Word of God these lessons are sent forth.

JESSE LYMAN HURLBUT.

SUGGESTIONS FOR TEACHING.

1. Let the teacher in advance read over the questions and answers of the lesson, note their relation to the story as told in "The Story of the Bible," and to some extent fit the story to the lesson which is to be taught.

2. Tell the story (or stories) of the day's lesson to the children, following the plan given in the book. Use very simple words and avoid all that are in any sense technical, or above the mind of a child.

3. After telling the story for the day, the children may be divided into classes, and assistants may teach the questions and answers. But before the close of the session it would be well to ask all the questions, and have the answers given by the children.

4. In order to complete each course, in the Old Testament and in the New, within a year, it may be necessary to omit some of the lessons, where classes take a vacation in the summer. To complete the course of each year in such classes the Reviews at the end of each series of lessons might be omitted, although they will be valuable as summaries of the important facts of the lesson. Some teachers might prefer to omit from the Old Testament lessons, some of the following in order to complete the course in a year. Lesson XXVIII David and Absalom; XXX The Temple; XXXVI Elisha and Jonah; XXXVIII, XXXIX The Kings of Judah; XLIV Queen Esther. These are suggested for omission not because they are unimportant or uninteresting, but in case some lessons must be omitted. In order to complete the course in one year in the New Testament lessons, the following might be omitted, if some must be. XVI The Mothers Prayer; XX The Good Shepherd; XXIII Jesus and the Children; XXVI, XXVII The Last Teachings.

OLD TESTAMENT LESSONS.

PART FIRST.—FROM ADAM TO MOSES.

Lesson I. The Beautiful Garden.

(Tell Story 1 in "Hurlbut's Story of the Bible.")

To the Teacher:

Under the title of each lesson throughout these pages will be seen instructions to tell certain lessons, with numbers. These numbered lessons and parts correspond with the numbered lessons and parts in "Hurlbut's Story of the Bible."

Let the teacher begin by asking, "Who can tell us what is the first verse of the Bible?" When hands are raised, call on three or four children to repeat the verse in turn; then let all the class repeat it in concert. Explain what the verse means, that God made the world, and all the things in it. Tell the story of the creation of the world; of the first man and the first woman; the Garden of Ē'dēn, and how Ād'ām and Ēve lost their home, and were driven out. Then teach the class the answers to the following questions. At the close of the lesson, see that every young pupil is shown just where the questions and answers on the lesson are found. The answers should be reviewed by parents, or older brothers and sisters, until the child can repeat them thoroughly, and can tell in his own language, the story of the lesson.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. 1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.

PREFACE.

This lesson-book was prepared in order to meet a need realized in my own work as a pastor; a need which is felt by many pastors and workers among the young.

In the Home, Sunday-School and Church are children of all ages, from six to sixteen. It is found impracticable to give to all this varied company the same teaching. The lessons that are admirably adapted for boys and girls between ten and fifteen are utterly unsuited to the children between six and ten. Moreover after looking carefully, I have not been able to find satisfactory lessons which can be taught to the young children except by one especially trained for the work; and such instructions are hard to find.

After various experiments I adopted in my own teaching the following plan. We divided the children into two sections; the First Section including all over nine years old, the Second Section all those under nine.

I selected for twelve lessons, twelve Bible stories following in succession, beginning with the story of Adam and Eve. On each of these stories I prepared a catechism of very simple questions and answers, and printed them by a duplicating process. After the opening of "The Children's Hour," I told the story to all present in simple language, explaining that while the story was told to all it was for the special benefit of the smaller children; but **I noticed even the oldest boys and girls listened to it with interest equal to the youngest.**

After the Bible story and the singing of a hymn, the Second Section withdrew to another room. There the children were divided into classes, and taught the questions and answers. A copy of the leaflet containing the questions and answers of the story for the day was given to each child, to be taken home and reviewed by parents or the older members of the family.

By separating the children into two grades, the older young people can receive instruction suited to their age, and the little ones are also provided for.

[back](#)

Preface

So many pastors and others have requested copies of the leaflets containing the questions and answers, that it has seemed desirable to publish them; and they are now completed upon the entire Bible story, and brought together in book form for the use of teachers of children.

These lessons may be used in classes of the Sunday School, by teachers who desire a more consecutive treatment of the Bible story than is given in the International Sunday School lessons, and by parents.

There are many families where "The Story of the Bible" has been read to the interest and profit of the children. Parents will find that these lessons will help to fix the important facts of the Bible story in the minds of the little ones.

It will be seen that the questions and answers do not embrace all the stories in the book. A selection has been made of what seem to be the most important subjects, affording weekly lessons for one year, with allowance for vacations, in the Old Testament, and another year in the New Testament.

In the hope that these lessons may aid the children of to-day, who are to be the men and women of to-morrow, to gain a definite knowledge of the Word of God these lessons are sent forth.

JESSE LYMAN HURLBUT.

SUGGESTIONS FOR TEACHING.

1. Let the teacher in advance read over the questions and answers of the lesson, note their relation to the story as told in "The Story of the Bible," and to some extent fit the story to the lesson which is to be taught.

2. Tell the story (or stories) of the day's lesson to the children, following the plan given in the book. Use very simple words and avoid all that are in any sense technical, or above the mind of a child.

3. After telling the story for the day, the children may be divided into classes, and assistants may teach the questions and answers. But before the close of the session it would be well to ask all the questions, and have the answers given by the children.

4. In order to complete each course, in the Old Testament and in the New, within a year, it may be necessary to omit some of the lessons, where classes take a vacation in the summer. To complete the course of each year in such classes the Reviews at the end of each series of lessons might be omitted, although they will be valuable as summaries of the important facts of the lesson. Some teachers might prefer to omit from the Old Testament lessons, some of the following in order to complete the course in a year. Lesson XXVIII David and Absalom; XXX The Temple; XXXVI Elisha and Jonah; XXXVIII, XXXIX The Kings of Judah; XLIV Queen Esther. These are suggested for omission not because they are unimportant or uninteresting, but in case some lessons must be omitted. In order to complete the course in one year in the New Testament lessons, the following might be omitted, if some must be. XVI The Mother's Prayer; XX The Good Shepherd; XXIII Jesus and the Children; XXVI, XXVII The Last Teachings.

OLD TESTAMENT LESSONS.

PART FIRST.—FROM ADAM TO MOSES.

Lesson I. The Beautiful Garden.

(Tell Story I in "Hurlbut's Story of the Bible.")

To the Teacher:

Under the title of each lesson throughout these pages will be seen instructions to tell certain lessons, with numbers. These numbered lessons and parts correspond with the numbered lessons and parts in "Hurlbut's Story of the Bible."

Let the teacher begin by asking, "Who can tell us what is the first verse of the Bible?" When hands are raised, call on three or four children to repeat the verse in turn; then let all the class repeat it in concert. Explain what the verse means, that God made the world, and all the things in it. Tell the story of the creation of the world; of the first man and the first woman; the Garden of E'dën, and how Ād'ām and Ēve lost their home, and were driven out. Then teach the class the answers to the following questions. At the close of the lesson, see that every young pupil is shown just where the questions and answers on the lesson are found. The answers should be reviewed by parents, or older brothers and sisters, until the child can repeat them thoroughly, and can tell in his own language, the story of the lesson.
