PREFACE

This book has been written in response to the many requests for practical help in the planning of menus and for the recipes in use in the cafeteria under the management of the authors.

This book is designed primarily to assist the managers of food departments in institutions. However, it is hoped that the chapters on menu planning, the recipes, and the list of weights and their approximate measures may prove useful as a text for those teachers of institution management who have the problem of teaching large quantity cookery and menu planning.

QUANTITY COOKERY

CHAPTER I

PRINCIPLES UNDERLYING THE PLANNING OF MENUS FOR LARGE NUMBERS

Well-balanced and appropriate menus are absolutely necessary to the success of any establishment serving food. Given the best of raw materials and the most competent cooks, the institutional manager will fail to please his patrons if his menus show lack of careful planning. The truth of this assertion is verified by the analysis of many failures.

On the other hand successful menu planning is not especially difficult. Like any other art it requires careful study and observance of a few simple rules.

Of course, it is impossible to formulate one set of rules that will apply to all situations. Each manager must make his own rules based on the conditions he has to meet. There are, however, certain basic principles to be recognized and followed. If the ensuing chapters succeed in explaining these principles and in emphasizing their importance, the authors' purpose will have been served.

In planning menus for an institution the manager must:

Keep in mind the nature of the institution; its purpose; the character of its patronage.

Follow certain dietetic principles.

Maintain constant variety in the food.

Keep menus appropriate to the temperature; the weather; the season; occasional holidays.

Recognize the limitations imposed by equipment; amount and kind of help; range of cost permitted; left-over foods to be used; form of service.

The first point to consider in planning a menu is the type of institution to be served. For reasons that are obvious, the purpose of the high school cafeteria is very different from that of the metropolitan hotel, while neither of these has the same object as the municipal tuberculosis sanitarium.

The age, sex, nationality, economic condition and occupation of the patrons must be kept in mind. The adult demands a freedom of choice which may be denied children. For this reason the content of the grade school lunch may be fixed in an arbitrary way, while this will not do when one is dealing with adults of any class. For instance, grade school children are satisfied with the morning bowl of bread and milk and the noon lunch of bread and soup. Adults, even in a charitable home, would undoubtedly complain of the simplicity of such meals. The high school lunchroom may eliminate coffee from its menu and have frequent "pieless" days. Any such attempts to regulate the diet of adults, except for patriotic reasons such as were the incentive to denial during the war, are highly inadvisable.

As far as the food elements are concerned, the same kinds of food may be served to boys and girls or to men and women. But, practically, they will not eat the same foods with equal satisfaction, and this should influence the planning of menus in different institutions.

School lunch managers and social service workers have found that in order to accomplish their aims they have to recognize racial food tastes.

The economic condition of the group to be served may limit variety in the menu, on the one hand, or may permit of maximum variety on the other. The eight-page menu of the fashionable tea room as definitely reflects the ability of the patrons to pay as does the simple meal of three or four dishes served the immigrants at Ellis Island.

The occupation of the patrons, whether active or sedentary, determines to a large extent the kind of food served to them, from the dietetic standpoint and from the commercial standpoint as well. The lumberjacks of the north

woods require a diet very different in quality and quantity from that of the telephone operators in a city exchange.

In institutions serving set menus, with little or no choice, special attention should be given to dietetic principles. Examples of such institutions are college dining halls or dormitories, hospitals, benevolent "homes," boarding houses, fraternities and clubs.

For those who have had little or no training in dietetics and who yet have the responsibility of planning menus, it may be said that if ample variety is provided, with emphasis on fruits and vegetables, the dietetic requirements will probably be met.

The sequence of foods in the menu is important. Where several courses are to be served, and it is the aim of those planning the menu to keep the appetite stimulated, acids, meat extractives and warm foods should be served first. Cloying foods such as sweets, very cold foods and foods which are satisfying tend to depress the appetite and hence have no place in the first course of a meal, except for luncheon where the menu may be very simple. In institutions which have fixed menus, it is especially desirable that the meal, no matter how simple, be so planned that it may be served in courses. Children especially are likely to hurry through their meals, and the serving of food in courses prevents too rapid eating. It is true, of course, that extra service requires more labor, and so may not prove possible, even though desirable.

The responsibility for maintaining a constant variety in food calls for the continued exercise of initiative, the determination to avoid monotonous repetition, a mind open to new foods and new methods of preparation and systematic marketing trips in order to keep in touch with seasonal changes. Perhaps the most frequent criticism of institutions is on the lack of variety in meals. Hotels, clubs and tea rooms can draw trade by serving out-of-season foods when they first appear in the market. Institutions whose purchases are limited by a budget should make the most of seasonal foods when the market is at its height and the food is cheapest. Such institutions should avoid serving foods that are not actually in season. Serving berries or melons before the height of the season dulls the appetite of the patron for

these foods so that by the time they have become economical to serve he has tired of them.

Variety should be introduced not only in the kinds of food but in the preparation, garnish and service. Even in charitable homes and other institutions where the aim is to serve at a minimum cost, the menus can be made attractive through variety in preparation. Corn meal and cottage cheese, two of the least expensive foods we have, can be utilized in a wide variety of ways. There should be no hesitation about serving new dishes, for maximum variety is essential to a happy patronage whether in the tea room or the benevolent institution. The point to be kept in mind, where the guest has the privilege of selection, is that all the variety should not come within the day or meal but within the week or month. Surprise always helps to induce appetite and this fact is as applicable to the menu in the children's home as to that of the tea room.

It is good business practice as well as good dietetic practice to plan meals according to the weather and the time of year. Hot, heavy foods sell best in cold weather. Cool, crisp, fresh foods sell best on the hottest days. The public is very susceptible to weather conditions. Holidays give a popularity to certain foods which they enjoy at no other time of the year. It is good business to make the most of these foods by serving them on appropriate days.

There are definite relations between the menu and the equipment available for its execution. For instance, a menu which calls for oven cooking to the exclusion of the use of the top of the stove or supplementary steamers will be impossible to carry out. The menu should be planned in order that the cooking may be divided between all the available equipment, such as ovens, steamers and top space on stoves. In the kitchen, as in the industrial plant, it is good management to give space only to efficient equipment and to use that equipment to its maximum capacity.

Again, incomplete equipment may have to be considered in planning the menu. If there is no power machinery the amount of hand work or heavy physical preparation called for may have to be cut down in accordance with the equipment at hand. In serving large numbers power machinery will often pay for itself in a few months through the saving in labor. It will not

only do the work better and more humanely but will allow a much greater variety of food. In the matter of equipment the institution must get away from the idea that it is a large home, with working conditions as they have been in the average home. It should consider itself an industrial plant where one of the aims is maximum production with minimum labor; and it should realize that proper equipment and proper working conditions are necessary in the accomplishment of this aim. Even though the labor supply may be adequate, efficient planning of menus demands that there be an adjustment between those foods requiring much labor and those requiring little, so that proper balance may be maintained.

In discussing the limitations in menu making the element of cost has come up again and again. It becomes a definite restriction in institutions that work on a budget, or where the group to be served demands good wholesome food at the lowest price. As examples of such institutions there are the factory cafeteria, the school lunch and the college cafeteria.

Though menus must be made out in advance of the day when they are to be used, they should be sufficiently elastic to allow for proper utilization of left-overs. Using left-overs may mean very little change and substitution, or may require complete revision of the day's meals. Left-overs must be used, for it is only by constant care that the food cost can be kept down to a minimum. That this is true of all institutions, whether great or small, is shown by the extreme care exercised in the largest hotels to the end that no food shall be wasted. Where there is family service, rather than plate service from the kitchen, there will probably be a large amount of left-over food. It requires a good deal of ingenuity to use these left-overs in some other form so as to maintain variety and that element of surprise which is so essential. In the cafeteria or other institution using *à la carte* service the left-over problem is not so serious. It is very nicely taken care of in tea rooms and hotels which serve a club luncheon, the menu for which may be chiefly made up from the left-overs.

It is obvious that the form of service may influence the kind and extent of the menu. That is, the cafeteria can serve a large variety of dishes because the patrons wait on themselves. A similar choice or variety is impracticable

where there is table service, except in hotels, restaurants and tea rooms
where cost is not so great a factor.

CHAPTER II

STANDARDS FOR JUDGING MEALS

Provided the principles of good nutrition have not been violated, the main basis for judging any meal is palatability. Palatability depends upon appearance and quality. Appearance in turn depends upon quantity, color, form and service upon the plate. Quality is determined by odor, flavor, temperature, texture and consistency. Reduced to outline form, the elements of palatability are:

Commercially and aesthetically it is unwise to make servings too large. Every one has had the experience of being served with more food than can be eaten with relish and without waste. The effect is to surfeit the appetite and to limit the variety which a patron may have, unless he is able financially to order the variety; in which case he is obliged to leave some food uneaten. In any institution which serves *à la carte*, it is better to adjust portions and prices to the end that the patron may have some variety in his meal without prohibitive expense.

Color is important in inducing appetite. The cafeteria counter displaying a buff-colored pie, snow pudding, rice custard and yellow cake does not tempt patrons to buy. A basket of fruit, a bright-colored gelatin dessert or attractive garnishes may transform a drab meal into a most interesting one. Particularly in all kinds of plate service, attention must be paid to color, for while clashing color combinations must be avoided, some color must be used to give the food an appetizing appearance. A great deal of our food is very neutral in color and admits of a liberal use of garnishes of one kind or another.

As a rule articles of food served together should be of diverse shapes. One may enjoy a croquette, a stuffed baked potato, peas in timbales and a roll in the same meal, but it is usually unwise to serve them on the same plate.

The necessity for neatness and orderly arrangement of servings is obvious. At large parties where there is plate service it is wise to make up a sample plate before the time of serving in order to determine the best arrangement of food and in order actually to show those who are to dish up the food how each plate must look when it is placed before the guest. One who is inexperienced in planning menus, especially for parties, should accustom himself to visualizing the meal as it will appear when written upon the menu card and as it will appear upon the plate. A menu which has seemed very good when planned will often be unsatisfactory when actually served because some of the above points have been overlooked.

Odor and temperature are important factors in quality. It would seem superfluous to say that hot things must be served hot and cold things must be served cold, yet in serving large numbers the strict observance of these rules is one of the difficult problems to be solved. *It can be solved, however*, with efficient equipment properly arranged, a carefully thought out organization of service and unceasing care.

Repetition of texture and consistency should also be avoided. That is to say, there should be the maximum variety in preparation of food in order that no meal shall contain two or more creamed dishes, fried foods, foods with custard basis or foods with bread foundation.

If a score card were made out for judging a meal, flavor would perhaps be given the most importance. Here again care must be taken to avoid duplicating flavors. Too many strong flavors or too many bland flavors are undesirable. While strong flavors stimulate the appetite it is unwise to employ them continually, especially where the same group of people is being served day after day. A more blandly flavored diet is likely to be less palling and more constantly inviting.

In serving the public, whether it be in the hospital, the college dormitory or the commercial restaurant, the aim should always be to have the food better than that to which the patrons are accustomed.

In almost any kind of food work, and especially in institutional food work, visiting trips to the best hotels, tea rooms, inns, cafeterias and restaurants are invaluable, since they impart a knowledge of the way things are done, which in turn creates a confidence and assurance that nothing else can give.

CHAPTER III

TYPES OF MENUS

CAFETERIA MENUS

Though it may be necessary to offer slightly more choice in foods in the commercial cafeteria, some cafeterias offer such a wide variety of choice that the patron is confused and has difficulty in choosing his meal. Furthermore too much variety makes for sameness from day to day. In all cafeterias where the same group is served each day, and where there is little or no competition, a simpler menu may be used. The following menu outline is suggested for use in the average cafeteria.

A Standard Form for Cafeteria Menu

- 1 soup
- 2 meats
- (1 meat substitute)
- 1 kind of potatoes
- 2-3 vegetables
- 1-2 hot breads
- 1-2 sandwiches
- 2-3 salads
- 2-3 relishes
- 6-8 desserts
- 4 beverages

Meats

One inexpensive meat should be served in each meal.

Two made-over meats should not be served in the same meal.

Two kinds of beef or pork or two kinds of any other variety of meat should not be served in the same meal.

Potatoes

Creamed potatoes may be served with meat lacking gravy or sauce.

It is seldom advisable to serve mashed potatoes unless there is a meat gravy to offer with them.

Vegetables

When possible one vegetable should be starchy and one should be succulent.

Two creamed or two fried or two buttered vegetables should not be served in the same meal.

Breads

Raised breads and quick breads give a good variety.

Salads

There should be at least one inexpensive salad.

The variety in salads may consist of one fruit salad, one vegetable salad and one salad in which protein predominates, such as cottage cheese, meat or fish.

Head lettuce salad is universally popular and may appear at every meal.

In salad dressings, there should always be a cooked dressing, French dressing and mayonnaise. Other varieties may be added as desired.

Desserts

Variety in desserts includes:

Fruit in some form.

A pudding with a dough or bread foundation.

Two cold puddings.

One kind of ice cream.

One kind of cake.

One kind of pie.

One-crust and two-crust pies should so far as possible be alternated in successive menus.

Two or more kinds of pie may be demanded, but when possible patrons should be educated to other choices in desserts.

Beverages

Milk should be served in bottles (with provision for opening).

Thirty Days' Menus for a Cafeteria

The careful manager spends a great deal of time in menu planning. If some systematic method of menu making can be adopted and used with a mind constantly alert to seasonal changes in foods, new and attractive dishes and variety in serving, the plan may result in saving much of this time.

A set of menus for thirty days has been worked out, with the idea that they may be repeated at the end of that time without too monotonous repetition. No Sunday meals are included since the majority of cafeterias are closed on that day. The Friday menus occur on the fifth day and every sixth day thereafter. No menu is shown for Saturday night when, if a meal is served, it may consist of popular dishes such as chicken in some form, waffles or steaks, along with such left-overs as it may be desirable to use.

The menus are intended to serve as a *foundation* to which may be added new dishes and seasonable fruits and vegetables, a suggestive list of which is given elsewhere (see pages [57-59](#)). From these foundation menus may be eliminated such dishes as are unpopular or out of season, or which for any reason it is impractical to serve. Commercial cafeterias may find it necessary to add other choices to these menus. Very small cafeterias may offer fewer choices. The majority of establishments, however, will find this variety ample, the idea being to serve the maximum variety within the week rather than within the day or meal.

A star has been used to indicate those dishes in which left-overs may be used to particular advantage.

TEA-ROOM MENUS

The tea-room menu is characterized by daintiness and excellence in food, garnish and service. Large tea rooms serve a variety such as is found in large hotels, with practically no changes in their menus from day to day. They are open to the same criticism as are the cafeterias that serve everything in the market at every meal, and so make their menu monotonous. Smaller tea rooms offer limited choices,--soups, relishes, hot

dishes, vegetables, salads, breads and beverages. To add choices to a menu beyond the number which will satisfy the patrons is not economy. The longer the menu list, the more labor, equipment, food wastage and spoilage. Therefore the tea-room menu list should be as simple as is consistent with the demands of those to be served. The menus shown below are of the type which are changed from day to day. The first is a very good example of this type, embodying a moderate degree of choice. It is suitable for a tea room serving perhaps six hundred or more people daily.

LUNCHEON^[1]

Iced Fruit Cocktail
Tuna Fish Cocktail
Celery Hearts
Iced Grape Fruit
Oyster Cocktail
Grape Fruit & Mint Cocktail
Button Radishes
Olives

SOUP

Vegetable Soup
Lamb Broth & Rice
Oyster Stew
Cream of Corn Soup
Chicken & Tomato Puree

MEATS, FISH, ETC.

*French Bread, Hot Rolls, or Bran Muffins Served
with these Orders*

POPULAR FOOD COMBINATIONS

Since it is customary to plan the menu, using the meat as a basis, and since custom and good usage make certain combinations popular, a list of such combinations is given below with the idea that others may be added as desired.

SUGGESTIVE AND POPULAR FOOD COMBINATIONS

KIND OF MEAT	VEGETABLE COMBINATION	SALAD, SAUCE AND BREAD COMBINATION	DESSERT COMBINATION
Beef	Potatoes-Irish (prepared in any form) Cauliflower Beets Salsify Tomatoes Mushrooms Corn		
Beef, corned	Cabbage	Cabbage slaw	

Chicken

Boiled potatoes	Perfection salad with mayonnaise	
Cauliflower	Tartare sauce	
Brussels sprouts		
Sweet potatoes	Head lettuce	
Squash	Tomato	
Celery	Cucumber	
Onions	Asparagus	
Asparagus	Fruit	
Peas	Cranberry muffins	
Green corn	Beaten biscuit	
Mushrooms	Hot biscuit	
Rice	Cranberry sauce	

Fish

Tomatoes	Tartare sauce	Lemon pie
Onions	Hollandaise sauce	Fruit gelatin
French fried potatoes	Egg sauce	Fruit cocktail
Creamed potatoes	Lemon sauce	Lemon rice pudding
Browned potatoes	Tomato sauce	Fruit tapiocas
Spinach with lemon	Vegetable salads (of all kinds)	Baked rhubarb
Stuffed peppers	Perfection salad	Pineapple pudding
	Cucumber sauce	

Ham

Potatoes	Potato salad	Pumpkin pie
Creamed		
Browned	Cabbage slaw	Indian pudding
Parsley buttered		
Baked	All vegetable combination salads	Apple pie
Sweet potatoes		Baked apples
Baked	Spinach salad	Apple fritters
Glazed		
Fried	Head lettuce	Apple sauce
Mashed	Apple salad	Apple dumpling
Carrots	Mustard sauce	Apple tapioca
Hominy	Steamed brown bread	Baked custard
Rice	Corn muffins	Ginger cake
Beans		
Lima, baked	Corn bread	

Lamb and mutton	Navy, baked String	Hot biscuit	
	Spinach		
	Corn		
	Cabbage		
	Brussels sprouts		
	Cauliflower		
	Potatoes Mashed		
	Browned Parsley buttered (with chops)		
	Peas		
	Carrots		
	Asparagus	Sauces Mint	
Pork (See Ham)	Tomatoes	Caper Red currant jelly	
	Tomatoes	Cranberry sauce	Acid desserts
Veal	Parsnips		
	Potatoes Mashed	All vegetable salads	
	Browned	All fruit salads	

Creamed (with breaded veal)	Hot breads or rolls	
Sweet potatoes (in any form)		
Celery		
Cauliflower		
Cabbage		
Brussels sprouts		
String beans		
Tomatoes		
Peas		

WAYS OF USING LEFT-OVER FOODS

LEFT-OVER MEATS	LEFT-OVER VEGETABLES
Croquettes	Buttered vegetables may be used in Soup
Scalloped meat with rice or or potato	Creole soup Meat stews
Shepherd's pie	Hash Salmon loaf (peas and celery)
Ham with scrambled eggs	Peas in omelet Stuffed peppers
Ham fondue or omelet	Stuffed tomatoes
Hash	

Hash with poached eggs	Rice may be used in
Meat pie (biscuit)	Scalloped rice with cheese
Meat pie with dressing	Soups
Meat balls rolled in cooked rice	Puddings
Minced meat on toast	Croquettes
Mincemeat for pie	Hash
Minced meat in ramekins	Salmon or fish loaves
Stews	Potatoes, used same as rice
Stuffed peppers	All creamed vegetables can be scalloped or used in soup
Stuffed tomato	
Meat bones cooked for stock	

LEFT-OVER FRUITS AND JUICES	LEFT-OVER BREADS AND CAKES	LEFT-OVER DAIRY PRODUCTS AND EGGS
Blanc manges	Bread puddings	Dairy
Brown Betty	Brown bread	Sour milk
Cocktail	Brown Betty	cakes
Cobbler	Crumb pancakes	corn bread
Scalloped fruit	Crumb cookies	gingerbread
		muffins
		pancakes
		Sour cream
		butter

Gelatin	Crumb muffins	corn bread spice cake salad dressing
Mince pie filling	Dressing	Cheese
Fruit salads	Scalloped fruit	bean loaf cottage cheese loaf cottage cheese
Sherbets and ices	Fondues	croquettes rice and cheese
Tapiocas	Meat loaf	Salads
Whips	Hamburg balls	soufflés fondues
	Stewed tomatoes	Eggs, broken dipping mixture cakes custards croquettes salad dressing

Garnishes

Clever use of garnishes will do a great deal to make servings attractive, to develop surprise and stimulate appetite.

A list of garnishes appropriate to different kinds of food appears below. Of course there are many others, and the number of different ways in which ordinary garnishes can be used effectively is surprisingly large. The alert manager will observe what others in his field are doing, and will discover many ingenious ideas by reading food journals and women's magazines.

The garnishes used for soups are practically the same whether for cream or clear soups.

Wafers, cheese and plain
Croutons

- Olives
- Radishes
- Celery hearts
- Whipped cream (on cream soups)

Some meat garnishes can be used at all times; others are especially adapted to certain kinds of meat.

- In general
 - Parsley
 - Watercress, in season
 - Mixed pickles

- For steaks
 - Lemons cut in fancy shapes
 - Sautéd mushrooms
 - Potato roses
 - Stuffed tomatoes
 - Stuffed peppers
 - Grilled and buttered Brussels sprouts

- For fish
 - Lemons, in slices and cut in fancy shapes
 - Cucumber baskets, filled with dressing
 - Parsley
 - Watercress
 - Clam shells, stuffed with clams and mushrooms
 - Mushrooms, sautéd
 - Potatoes, cut in fancy shapes, such as shoe strings or lattice, and fried in deep fat

There are certain garnishes which it is customary to use with salads, especially with chicken salad.

- For chicken salad
 - Hard-cooked eggs, sliced or cut in eighths
 - Lemons, sliced
 - Pickles

Paprika
Parsley
Capers
Olives
Head lettuce cups

For fish salad

Pickles
Olives
Lemons, cut in fancy shapes
Cucumber baskets holding extra salad dressing
Paprika
Parsley

For fruit salad

Tiny cheese balls
Cheese balls rolled in chopped nuts
Tiny sandwiches
Olives
 green
 ripe
 stuffed
Cheese straws in fancy shapes

Very often where sandwiches are ordered they will serve as the main dish of the luncheon meal. They should be made as appetizing as possible by the use of suitable garnishes.

Pickles
Olives
Cheese balls
Parsley
Watercress
Attractive paper or plain linen doilies
Nut meats

Desserts by their very nature, require some garnish to make them the perfect and satisfying last course which they should be. Candied fruit,

marshmallows, slices of fresh orange or strawberries in season, whipped cream and bright candies add the needed bit of color. Here the use of paper doilies, glasses and attractively shaped china dishes is a great factor in appearance.

CHAPTER V

FORMS

THE IMPORTANCE AND USE OF FORMS

Printed forms or other practical aids which may help to reduce menu planning to a systematic routine are invaluable. Forms such as the party engagement blanks, shown elsewhere, and the meat order blank and menu blanks below tend to a desirable standardization. Since meat orders for the week are usually made out first and the menus planned around the meats, a form similar to the one shown below, with adaptations for the particular institution, may be helpful.

The lists of foods and the list of seasonal changes and garnishes contained in this book will save mental effort and tedium in planning by suggesting new combinations and variety.

Probably no single device will serve different kinds of institutions, but the principle of using appropriate printed forms to help in remembering details holds good for all institutions.

MEAT ORDER

WEEK BEGINNING DECEMBER 6, 1920.			WHERE UNIVERSITY CAFETERIA		
DELIVER	AMOUNT	CUTS	SPECIFICATIONS	COST	USE

Mon. A.M.	30 lb.	beef shoulder clod		.13	Mon. night
A.M.	2 lb.	bacon	Best grade, cut 36 slices to lb.	.37	Tues. morning
P.M.	40 lb.	pork loin	10 to 12 lb. loin	.26	Tues. noon
P.M.	20 lb.	beef stew	1-inch cubes, no bones, no gristle	.13½	Tues. noon
Tues. A.M.	20 lb.	short ribs of beef		.07½	Tues. noon
A.M.	15 lb.	sausage	best grade, no cereal	.18	Tues. night
A.M.	20 lb.	cottage cheese		.12	Tues. night
P.M.	50 lb.	chickens, 4 to 5 lbs. each	to arrive <i>frozen</i>	.24	Wed. noon
Wed.A.M.	20 lb.	veal steak	round, cut thin for rolling	.26	Wed. night
A.M.	5 lb.	sweetbreads	veal	.75	Wed. night
A.M.	1 qt.	oysters	standard selects, 80 to qt	.70 per qt.	Wed. night

P.M.	50 lb.	beef, round steak	1 inch thick	.13½	Thurs. noon
<i>Thurs.</i> A.M.	2	hams	14 to 16 lb. each	.30	Thurs. night
P.M.	55 lb.	veal roast	round	.26	Fri. noon
<i>Fri.</i> A.M.	2 qt.	oysters	standard selects, 80 to qt.	.70 per qt.	Fri. night
A.M.	20 lb.	rib roast of beef		.25	Fri. night
P.M.	20 lb.	pork chops	cut 4 to lb.	.18	Sat. noon
P.M.	15 lb.	veal hearts		.11	Sat. noon
<i>Sat.</i> A.M.	40 lb.	tenderloin	prime	.40	Mon. noon

AN OUTLINE FORM FOR SPECIAL DINNERS

The efficiency of an organization is judged by the degree of routine which each phase of the work assumes. In most institutions the serving of special dinners is quite apart from the ordinary routine of business. If this service is to be handled simply and efficiently, all of its various steps must be listed and taken up in an orderly fashion with the end in view of perfecting an emergency organization as efficient as that which regulates the daily tasks.

First of all, arrangements made with those who are giving the dinner should be definite and complete. In order to prevent misunderstandings, a printed blank such as that shown below (with any adaptations found necessary) will prove helpful. This may be made out in duplicate, one copy being retained by the manager and one by those engaging the services.

Reduced to their simplest form, the steps to be followed in organizing this work are outlined below.

I. Fill in, in duplicate, the printed blank

DINNER ENGAGEMENTS

Date _____ Day of week _____

Time _____

Engagement made by _____ Phone _____

Organization or Club _____

Price _____ Probable Number _____

Room desired _____ Flowers _____

Style of service:
Cafeteria service _____

Table service _____

Tables set and served by guests _____

Date Guaranteed Number is to be reported

_____ Leeway granted (either way) on guaranteed number

On 25-40	2 plates, more or less
50-60	4 plates, more or less
75-100	6 plates, more or less
125-175	8 plates, more or less
200 up	10 plates, more or less

NOTICE.--Care should be taken to have the
guaranteed number of plates accurately stated.

II. Plan the menu. If desired, the above form may include space for writing in the menu, in order that both parties may have a clear understanding of just what is to be served III. Make out order list

- a. For food
- b. For dish rental (if necessary)
- c. For printing (if necessary)
- d. For flowers or other decorations

IV. Employment of help

- a. Rescheduling the regular help
- b. Overtime for the regular help
- c. Hiring of additional help

V. Division of the work

- a. Directions to cooks
 - 1. Copy of the menu
 - 2. Recipes and amounts to be prepared
- b. Service of the food
 - 1. In the kitchen
 - a. Instructions for counting out and arrangement of utensils for the service of the food
 - b. Organization of each serving center, where the number served is so large that more than one center is necessary
 - c. Assignment of special duties to workers at the serving center
 - d. A drawing or serving of a sample plate showing arrangement of food on the plate
 - 2. In the dining room
 - a. Directions to the head waitress and waitresses

1. List of dishes to be counted out and carried to serving center, warming ovens or refrigerators
2. Directions for setting the tables. A cover may be set or a sketch made to show the proper arrangement of the silver, napkin and the glass
3. Decoration of the tables
4. Arrangement of the serving tables
5. A copy of the menu
6. Specific instructions for serving food to the guests

VI. Records

a. Cost of the food

1. 1. Cost of food should be figured on basis of recipes and quantities used, and listed according to the order in which the food appears in the meal
2. 2. Left-overs listed
3. 3. Approximate value of left-overs as listed
4. 4. Net food cost is total food cost less the value of usable left-overs

b. Cost of labor

1. Time spent by regular employees
2. Overtime spent by regular employees
3. Extra labor employed for occasion
4. Total labor cost

c. Overhead cost

1. Flowers or other decorations
2. Printing of menu cards or place cards
3. Favors if supplied
4. Dish rental and breakage

- 5. Estimated heat, light, fuel, laundry and other overhead
 - d. Summary
 - 1. Total cost
 - a. food
 - b. labor
 - c. overhead
 - 2. Total receipts
 - 3. Profit or loss
 - e. Number served
 - f. Per capita cost
-

CHAPTER VI

RECIPES

In the pages that follow are some two hundred recipes for use in institutions. It will be noted that throughout these recipes, measures are used rather than weights. This for two main reasons. First, cooks, except for highly trained professionals, use measures more easily and with greater success than weights. Second, most institutions cannot afford an adequate number of accurate scales; and scales that are not accurate are worse than useless. Measures, on the other hand, are inexpensive and always available. It may be said that because of the amounts and the size of the measures used in large quantity cookery there is not the degree of inaccuracy which is found in measuring small quantities.

It is hoped the form of the recipes with the spaces for figuring costs and calories will be of value from the commercial and classroom standpoint.

Stars indicate those recipes in which left-overs may be used to particular advantage.

SOUPS

BOUILLON

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Beef, cubed		20 lb.			
Bones, veal		7½			
Water	4 gal.	lb.			

Peppercorns	2 tbsp.				
Salt	6 tbsp.				
Carrots, diced	2 c.				
Onions, diced	2 c.				
Celery, diced	2 c.				
Turnips, diced	2 c.				
Egg whites and shells	7				

Cut the meat in cubes and soak two thirds of it in the cold water for about three fourths of an hour. Sear the remainder and add to the meat which is soaking. Heat the meat, veal bone and water to boiling and let simmer for four or five hours. Add the seasonings and the vegetables and cook until the vegetables are soft. Pour the whole through a colander and cool. When the fat has set, remove and clear by mixing the cold stock with the shells and slightly beaten whites of eggs. Bring the mixture to a boil, stirring constantly. Let simmer 15 to 20 minutes. Strain through two or three thicknesses of cheese cloth.

Number of servings 64-96
Amount of one serving $\frac{1}{3}$ to $\frac{1}{2}$ c.
Calories in one serving _____
Cost of one serving _____

CHICKEN SOUP

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Stock, chicken	4 gal.				
Onions	1¼ lb.				
Salt	$\frac{1}{3}$ to $\frac{1}{2}$ c.				
Celery salt	$\frac{1}{4}$ c.				
Green peppers, chopped	1 c.				
Rice	2 c.				

Add the chopped onions, green peppers, rice, salt and celery salt to the chicken stock and cook until the rice is tender.

Number of servings 85
 Amount in one serving $\frac{3}{4}$ c.
 Calories in one serving _____
 Cost of one serving _____

NOODLE SOUP

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Eggs	3				
Flour	2 c.				
Salt	2 tsp.				
Stock	4 gal.				
Onions		1 lb.			
Salt	$\frac{2}{3}$ c.				
Celery salt	$\frac{1}{4}$ c.				

To make the noodles, beat the eggs lightly and add the flour and salt. This makes a very stiff mixture. Put the mixture on a board and roll as thin as possible. Sprinkle the dough with flour and roll it into a tight roll. From this, slice the noodles. Shake out and let dry. Heat the stock to boiling, add the seasonings and the noodles and cook until done. Noodles may be made up and kept for some time in the refrigerator.

Number of servings 96
 Amount in one serving $\frac{3}{4}$ c.

 Cost of one serving _____

TOMATO RICE SOUP

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Stock	5 gal.				

Green peppers	10				
Onions		½ lb.			
Tomatoes	1 gal.				
Rice	2½ c.				
Carrots, finely diced	1½ c.				
Flour	3 c.				
Salt	⅓ c.				
Butter substitute	1½ c.				

Chop the onions, carrots and green peppers and add to the boiling salted stock and tomatoes. Add the rice and cook until the rice is tender. Melt the fat, stir in the flour and add to the hot liquid to thicken.

Number of servings 115
Amount in one serving ¾ c.
Calories in one serving _____
Cost of one serving _____

****VEGETABLE SOUP**

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Stock	1½ gal.				
Tomatoes, #10 cans	2				
Bay leaves	3				
Water	1½ gal.				
Carrots, diced	1 pt.				
Celery, diced	1 qt.				
Onions		1 lb.			
Rice	1 c.				
Salt	¼ c.				

Add the seasonings to the boiling stock, tomatoes and water. When the vegetables have become softened, add the rice and cook for 15 to 20 minutes. Do not strain.

Number of servings 96
 Amount of one serving $\frac{3}{4}$ c.
 Calories in one serving _____
 Cost of one serving _____

CREAM OF CELERY SOUP

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Celery stock	6 qt.				
Onions		$\frac{1}{4}$ lb.			
Butter substitute		$\frac{3}{4}$ lb.			
Flour	3 c.				
Milk	7 qt.				
Paprika	$\frac{1}{2}$ tsp.				
Red pepper	$\frac{1}{4}$ tsp.				
Salt	$\frac{1}{4}$ c.				

Make a celery stock by cooking the leaves and outside stalks in water to cover. Rub through a sieve. Cook finely chopped onion with the required amount of stock. Melt the fat, stir in the flour and add the hot milk to make a white sauce. Combine purée and white sauce. Add paprika, red pepper and salt just before serving.

Number of servings 60
 Amount in one serving $\frac{3}{4}$ c.
 Calories in one serving _____
 Cost of one serving _____

CREAM OF CORN SOUP

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Corn	1½ gal.				
Water	1 qt.				
Onion		$\frac{1}{2}$ lb.			

Butter substitute	¾ c.				
Flour	1½ c.				
Milk	2 gal.				
Salt	¼ c.				
Paprika	½ tsp.				

Cook the corn with the water and chopped onion and rub through a sieve.
Melt the fat, stir in the flour and add the hot milk to make a white sauce.
Combine white sauce with purée. Add salt and paprika just before serving.

Number of servings 64
Amount of one serving ¾ c.
Calories in one serving _____
Cost of one serving _____

CREAM OF LIMA BEAN SOUP

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Butter substitute	¾ c.				
Flour	1½ c.				
Milk	6 qt.				
Salt	2 tbsp.				
Lima beans, cooked	4 qt.				
Grated onion or chives	¼ c.				
Chopped parsley	¼ c.				

Cook the lima beans with the onion until soft and rub through a purée sieve.
Melt the fat, stir in the flour and add hot milk to make a white sauce.
Combine the purée and white sauce and add the salt just before serving.

Number of servings 50
Amount in one serving ¾ c.
Calories in one serving _____
Cost of one serving _____

CREAM OF PEA SOUP

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Peas	2 qt.	$\frac{3}{8}$ lb.			
Onion					
Bay leaf	1 leaf				
Milk	6 qt.				
Butter substitute	$\frac{1}{2}$ c.				
Flour	1 c.				
Salt	3 tbsp.				

Cook the peas, together with their juice from the cans, and the onion and bay leaf until the peas are soft. Rub through a purée sieve. Melt the fat, stir in the flour and add the hot milk to make a white sauce. Combine purée with white sauce. Add salt just before serving.

Number of servings 38

Amount in one serving $\frac{3}{4}$ c.

Calories in one serving_____

Cost of one serving_____

CREAM OF SPINACH SOUP

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Spinach Juice	1 c.	$\frac{3}{8}$ lb.			
Onion					
Milk	6 qt.				
Butter substitute		$\frac{1}{4}$ lb.			
Flour	1 c.				
Salt	1 tbsp.				

Chop the onion and add to one half of a #10 can of spinach and cook until the onions are tender. Scald the milk. Melt the fat and add the flour. When thoroughly mixed add to the hot milk, stirring constantly. When the spinach is seasoned, drain, rubbing lightly through a purée sieve until you obtain

one cup of spinach juice. Add the spinach juice to the thickened milk and season.

Number of servings 35
 Amount in one serving $\frac{3}{4}$ c.
 Calories in one serving _____
 Cost of one serving _____

CREAM OF TOMATO SOUP

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Tomatoes	1 gal.				
Bay leaves	2				
Onion		$\frac{1}{4}$ lb.			
Sugar	$\frac{3}{8}$ c.				
Soda	2 tsp.				
Butter substitute	$\frac{1}{2}$ c.				
Flour	1 c.				
Milk	1 gal.				
Salt	2 tbsp.				

Cook the tomatoes with the bay leaves and onion. Rub through a purée sieve and add the sugar and soda. Melt fat, stir in the flour and add hot milk to make a white sauce. Combine purée and white sauce by pouring purée into white sauce. Add salt just before serving.

Number of servings 36
 Amount in one serving $\frac{3}{4}$ c.
 Calories in one serving _____
 Cost of one serving _____

OYSTER STEW

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Milk	4 gal.				

Oysters	1 gal.				
Salt	$\frac{1}{4}$ c.				
Paprika	1 tsp.				
Butter substitute		1 lb.			

Scald the milk and add the butter substitute, paprika and oysters. Cook until the edges of the oysters begin to curl. Add the salt just before serving. If the soup must stand some time before all is used, the oysters should be combined with the milk only as needed.

Number of servings 64
Amount of one serving 1 c.
Calories in one serving _____
Cost of one serving _____

PEANUT BUTTER SOUP

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Peanut butter		6 lbs.			
Milk	2 gal.				
Celery Stock	3 qt.				
Water	$1\frac{1}{4}$ gal				
Flour	$\frac{3}{4}$ c.				
Salt	$\frac{1}{2}$ c.				

Add the water to the peanut butter and mix to a smooth paste. Heat the milk and celery stock, reserving sufficient liquid to make a paste of the flour. When the liquid is hot add the flour paste. When thickened add the peanut butter mixture and the salt.

Number of servings 100
Amount of one serving $\frac{3}{4}$ c.

****MEAT CROQUETTES**

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Meat, chopped	1 gal.				
Rice, uncooked	1 qt.				
Water	1 gal.				
Onions, chopped	$\frac{1}{3}$ lb.				

Salt	1/4 c.				
Stock to mix					
Crumbs, sifted	4 c.				
Eggs	4				
Milk	1/2 c.				

Cook the rice in the boiling salted water to which the onions have been added, until the rice is tender. Add the chopped or cubed meat and if necessary additional stock to moisten. Using a dipper measuring half a cup per serving, mold the mixture into croquettes. Put the sifted crumbs on a board, roll the croquettes in the crumbs, dip in a dipping mixture made of eggs and milk, roll again in the crumbs and fry in deep fat. If desired, one gallon of cooked potatoes may be substituted for the rice, in which case the water also would be omitted.

CHICKEN AND BISCUIT

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Cooked chicken meat, cubed		12 lb.			
Onion		1 lb.			
Salt	$\frac{2}{3}$ c.				
Celery salt	$\frac{1}{4}$ c.				
Stock	4 gal.				
Flour	3 qt.				
Biscuit recipe (see page 124)	$\frac{5}{6}$ of recipe				

Heat the stock and season with the onion, salt and celery salt. Thicken with the flour mixed to a paste with some of the cold stock which has been reserved. Add the chicken meat, and serve with baking-powder biscuits or on toast. *In ordering chicken for the above recipe, three and a half to four pounds of chicken, New York dressed, must be ordered for every pound of cooked chicken meat which is desired.* In cooking chicken care should be taken to cool the chicken and stock as quickly as possible and then put into the refrigerator. The chicken should be cooled out of the stock. From fifty pounds of chicken, New York dressed, approximately five gallons of stock may be obtained.

RICE AND NUT LOAF

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Rice, before cooking	4 qt.				
Stock or liquid	2 gal.				
Milk	1 $\frac{1}{2}$ gal.				
Nut meats, chopped	2 qt.				
Green peppers	12				

Eggs	30				
Salt	½ c.				

Cook the rice in the boiling salted stock. As the rice absorbs the stock, add the milk gradually, to avoid curdling. When the rice is tender, remove from the fire and add the chopped nuts, peppers and beaten eggs. Grease loaf pans and fill with the rice mixture. The loaf pans should be set in a pan of hot water to avoid over-baking the bottom of the loaf, thus forming a hard crust. Serve with a cream or tomato sauce.

CINNAMON ROLLS

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Sugar	2 c.				
Butter substitute	2 c.				
Water	2 qt.				
Milk	2 qt.				
Yeast		¼ lb.			
Water	2 c.				
Flour	11¾ qt.				
Salt	½ c.				
Butter substitute	1½ c.				
Fat, melted		½ lb.			
Sugar	5 c.				
Cinnamon	5 tsp.				
Raisins	2 c.				

Follow the directions given under Parker House rolls for the method of mixing the dough. When the dough is ready, put on a well-floured board and roll out in a rectangular shape to about half an inch in thickness. Brush with melted fat and sprinkle with the mixed sugar, cinnamon and raisins. Commencing with the long side of the dough, make into a roll. Cut crosswise of the roll making slices half an inch in thickness. Place on a greased pan, let rise until they have doubled in size, and bake in a hot oven.

Number of servings 24 dozen
 Amount in one serving 1½ oz. per roll

PARKER HOUSE ROLLS

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Sugar	2 c.				
Butter substitute	2 c.				
Water	2 qt.				
Milk	2 qt.				
Yeast		¼ lb.			
Water, lukewarm	2 c.				
Flour	11 to 12 qt.				
Salt	½ c.				
Butter substitute	1½ c.				

Scald the milk. Soften the yeast in the two cups of lukewarm water. Add the sugar and fat to the scalded milk and then add the two quarts of water. When the milk and water mixture is a little more than lukewarm add the yeast and five quarts of flour. Beat to smooth batter and let rise one hour. Then add the salt and the remainder of the flour. Beat on the machine or knead. Let rise one hour. When the dough is light, cut into small pieces, getting twelve rolls from each pound of dough. With the palm of the hand, roll these pieces into smooth balls and place them in rows to rise. When they have again become light, roll the balls flat, with a rolling pin or stick, brush with melted fat, fold over and put in pans to rise. When they have doubled in size, bake in a hot oven until well browned. The tops may be brushed with melted fat, when they come from the oven.

CAKE

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Sugar	2½ qt.				
Butter substitute	3 c.				
Eggs	14				
Salt	1 tbsp.				
Baking powder	1 c.				
Flour, pastry	5 qt.				
Milk	2½ qt.				
Vanilla	2 tbsp.				

Cream the fat and sugar thoroughly. Add the yolks and vanilla and continue creaming. Mix the dry ingredients and add alternately with the milk to the fat, sugar and eggs. Fold in the well-beaten whites last. If a kitchen mixing machine is used for making the cake, the best results are obtained by creaming the fat and sugar twenty to thirty minutes on the machine and completing the remainder of the mixing as quickly as possible. This makes nine two-layer cakes, each cake nine and one fourth inches in diameter and cutting sixteen slices.

Vanilla	2 tbsp.				
Water	3 c.				
Salt	1½ tbsp.				

Cream the fat and sugar. Mix the dry ingredients and add with the water to the fat and sugar. This will make a soft dough which will not roll out until thoroughly chilled. Keep the dough in the refrigerator and take out only that portion which may be rolled at one time. Roll very thin, cut into cookies three and one half inches in diameter and bake on a floured pan.

WHITE CAKE

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Sugar	6 qt.				
Butter substitute		6 lb.			
Milk	3¼ qt.				
Baking powder	¾ c.				
Egg whites	60				
Flour	9 qt.				
Salt	2 tbsp.				

Cream the fat and sugar thoroughly. Mix the dry ingredients and add alternately to the fat and sugar with the milk. Fold in the well-beaten whites last. This makes eighteen two-layer cakes. If preferred, this amount may be baked in square tins, twenty-four by twenty-four inches, and will fill three pans. Where a kitchen mixing machine is used in cake making the best results are obtained by creaming the fat and sugar in the machine for from twenty to thirty minutes and then adding the remainder of the ingredients and completing the mixing quickly.

PIES

PIE CRUST

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Flour		3 lb.			
Shortening		1½ lb.			
Salt	2 tbsp.				
Iced water					

Weigh the fat and flour, add the salt and work the fat into the flour lightly, using the tips of the fingers. Add the iced water a little at a time, being careful to distribute the water evenly through the mixture. Avoid getting the dough too wet. For this amount about one and one half cups of water is sufficient. This amount will make from eleven to twelve pie shells, using pie tins ten and three quarter inches in diameter, or it will make from six to seven two-crust pies.

 Cost of one serving_____

URN COFFEE

INGREDIENTS	AMOUNT	WEIGHT	CALORIES	UNIT COST	TOTAL COST
Coffee, ground medium fine	4 c.				
Water	2 gal.				

Put the ground coffee into an urn sack. Let the boiling water from the water urn flow over the coffee. Drain the coffee from the faucet of the urn, and

pour the entire amount over the ground coffee twice. This should make a coffee of good strength. The important points in making coffee are that the urn should be kept perfectly clean, using clear water and steel wool or baking soda; the water bags should be kept washed and well aired; the water used in making the coffee should always be actively boiling before the coffee is made, and the water in the jacket should be maintained at boiling temperature.

Cheese, N. Y. or Wisc. cream, fresh, cubed or cut fine	1 lb.	2⅔ c.	
Chicken, cooked and cubed	1 lb.	3 c.	
Chocolate, cut fine	1 lb.	3½ c.	
Cinnamon, ground	1 lb.	4 c.	
Cloves, ground	1 lb.	3¾ c.	
Cocoa	1 lb.	4 c.	
Cocoanut, short	1 lb.	7 c.	

Coffee, medium ground	1 lb.	4 $\frac{2}{3}$ c.	
Corn, canned	1 lb.	1 $\frac{3}{4}$ c.	
Corn meal 1 lb. corn meal when cooked equals 3 $\frac{1}{2}$ qt.	1 lb.	3 c.	
Cornstarch	1 lb.	3 $\frac{1}{8}$ c.	
Crackers, 2 inches by 2 inches	1 lb.	108	
Crackers, sodas, whole	1 lb.	56	
Crackers, broken	1 lb.	10 c.	
Cranberries, uncooked	1 lb.	5 c.	
Eggs, whole in shell	1 lb.	8	
Egg whites	$\frac{1}{2}$ lb.	8 whites = 1 c.	
Egg yolks	$\frac{1}{2}$ lb.	12 yolks = 1 c.	
Farina, uncooked 1 lb. farina when cooked equals 3 qts.	1 lb.	2 $\frac{2}{3}$ c.	

Figs, layer, whole	1 lb.	2½ c.	
Figs, layer, cut fine	1 lb.	3 c.	
Flour, graham	1 lb.	3⅔ c.	
Flour, wheat, unsifted	1 lb.	3½ c.	
Gelatin, granulated	1 lb.	3 c.	
Ginger	1 lb.	4¼ c.	
Grapenuts	1 lb.	3⅞ c.	
Grapes, cut and seeded as for salad	1 lb.	2¾ c.	
Hamburg steak, raw	1 lb.	2 c.	
Hominy, pearl	1 lb.	2½ c.	
Lard substitute or compound	1 lb.	2⅛ to 2½ c.	
Lemons, 300 size	1 lb.	4 lemons	
Lemon juice		4 to 5 lemons = 1 c.	

Lettuce, average head size	9 oz.	1 head or 10-12 salad leaves	
Macaroni, broken 1½ inch pieces 1 lb. macaroni when cooked equals 3 qt.	1 lb.	5 c.	
Molasses	1 lb.	1½ c.	
Mustard	1 lb.	5 c.	
Nutmeats, English walnuts, whole	1 lb.	4¾ c.	
Nutmeats, English walnuts, chopped	1 lb.	4 c.	
Nutmeg, ground	1 lb.	3½ c.	
Oats, rolled 1 lb. oats when cooked equals 2⅓ qts	1 lb.	5½ c.	
Oils, cottonseed	1 lb	2⅛ c.	
Oleomargarine	1 lb.	2 c.	
Oranges, diced	1 lb.	2⅓ c.	
Oranges, whole, 126 size	8 to 9 oz.	1 orange	

Onions, chopped	1 lb.	3 c.	
Paprika	1 lb.	3¾ c.	
Peaches, dried 1 lb. peaches soaked and cooked equals 4¼ cups without juice. 1 lb. peaches soaked and cooked weighs 2½ lb. without juice.	1 lb.	3 c.	
Peas, canned, drained	1 lb.	2⅔ c.	
Pepper, white	1 lb.	4¼ c.	
Pickles, whole	1 lb.	16 if 3 in. length 22 if 2 in. length	
Pickles, chopped	1 lb.	3 c.	
Pineapple, canned broken pieces	1 lb.	2 c.	
Potatoes, unpeeled	1 lb.	3 medium sized	
Potatoes, peeled	¾ lb. after peeling	1 lb. before peeling	
Potatoes, diced for creaming	1 lb.	2⅓ c. diced before peeling	
Prunes, A. P. A	1 lb.	2½ c.	

1 lb. prunes soaked and cooked equals 3 cups without juice.			
1 lb. prunes soaked and cooked weighs 1 $\frac{5}{8}$ lbs. without juice.			
Pumpkin, canned	1 lb.	1 $\frac{3}{4}$ c.	
Raisins, seeded	1 lb.	2 $\frac{1}{2}$ c.	
Raisins, seedless	1 lb.	3 c.	
Rice, whole 1 lb. of rice when cooked equals 2 qt.	1 lb.	2 $\frac{1}{8}$ c.	
Salmon	1 lb.	2 c.	
Salt	1 lb.	2 $\frac{3}{8}$ c.	
Soda	1 lb.	2 c.	
Spaghetti 1 lb. spaghetti when cooked equals 2 $\frac{3}{4}$ qt.	1 lb.	5 c.	
Spinach	1 lb.	2 c.	

String beans, canned	1 lb.	2 c.	
Sugar, brown	1 lb.	2¾ c.	
Sugar, granulated	1 lb.	2⅛ c.	
Sugar, powdered	1 lb.	2¾ c.	
Tapioca, pearl 1 lb. of tapioca soaked and cooked equals 7½ c.	1 lb.	2¾ c.	
Tea	1 lb.	8 c.	
Tuna fish	1 lb.	2 c.

*** END OF THE PROJECT GUTENBERG EBOOK QUANTITY
COOKERY: MENU PLANNING AND COOKING FOR LARGE
NUMBERS ***

Updated editions will replace the previous one—the old editions will be renamed.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

START: FULL LICENSE

THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at www.gutenberg.org/license.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are

located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, "Information about donations to the Project Gutenberg Literary Archive Foundation."
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.
- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project

Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to

you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
